FISCAL NOTE ANALYSIS

STATE OF ALASKA
2021 LEGISLATIVE SESSION

BILL NO. HB 166

Analysis

The bill is relating to the issuance of vehicle license plates. The bill would reduce the number of license plates that the Division of Motor Vehicles (DMV) issues to each vehicle from two to one.

Over the last two fiscal years, DMV has spent an average of \$664,000 on license plates per year. By reducing the number of plates issued to one plate per vehicle, the Division's plate inventory costs would be reduced by 50%, or an estimated \$332,000 per year.

The bill does not define an effective date; therefore, DMV used an assumption of FY23. There would be no operational impact to DMV, and no or little programming changes would be needed to DMV information systems to implement this change.
