Hello,

I am voicing my support for HB39 to allow 16 year olds to register to vote. Maybe this will instill an early interest in civic activities in youth and inspire them to become more knowledgeable about how governments work and how important it is for citizens to have an active role in their government through knowledge, voting and communicating with their legislators.

Thank you,
Therese Lewandowski.

Thank you for this opportunity to voice my support for HB39.

With the opportunity to preregister to vote, minors will be more inclined to be engaged in civil processes that will affect them and their society. Educated voters are more inclined to exercise their right and make more informed choices.

I urge you to support this bill.

I am a senior at UAA studying political science, I have been involved in civic engagement since I was in middle school. I know the impacts informing young people of all their options when it comes to civics. Talking about real world issues and participating in the democratic process is an integral part of being an American. Making the voter registration process easier and more accessible to younger Alaskans would open doors to the next generation of Alaskans. Thank you for your time and consideration.

Thank You,

Jasmine Carter
