

MICHAEL REED FLORES

BUSINESS OWNER & FISHING GUIDE

PERSONAL PROFILE

I started my life and career in California, where I guided hunts for Roosevelt elk, Kaibab mule deer, blacktail deer and hogs. In 1989, I loaded my plane and headed to Alaska for my first job here, East of Cordova, as a big game guide. Since then, I have founded a successful fishing and hunting charter company, Ninilchik Charters, along with other business accomplishments. In 2018, when my two sons separated from the Marine Corps and the third still active, I engaged and invested in farming. My sons and I started a 40 acre peony family farm, expected to produce crops in 2021.
