FISCAL NOTE ANALYSIS

STATE OF ALASKA
2021 LEGISLATIVE SESSION

BILL NO. HB 132

Analysis

Background

Only Sections 9 and 10 of this bill impact the Department of Revenue, Tax Division ("Department"). This bill creates a tax credit that may be applied to a taxpayer's Alaska corporate income tax under AS 43.20. A taxpayer may claim the \$1,000 credit for each qualified registered apprentice they hire. The tax credit may be applied against the taxpayer's corporate income tax that is due for the first tax year ending on or after the end of the registered apprentice's employment period. The credit may not be used to reduce a taxpayer's corporate income tax liability to below zero for any tax year, and any credit or portion of a credit not used may be applied in a later tax year. This new statute requires taxpayers to keep certain records, and provides the Department with authority to adopt regulations specifying the types of records needed. This bill would take effect on July 1, 2021.

Revenue Impact

The revenue impact of this bill cannot be determined because the Department does not have sufficient information to estimate the number of registered apprentices a taxpayer may hire or the number of corporate income tax taxpayers who may hire registered apprentices.

Implementation Costs

This legislation would not require the Department to make material changes to the Tax Revenue Management System (TRMS). Therefore, there would be no cost to the Department for implementation. After the implementation of the changes, this legislation would cause a small additional administrative burden on the the Department.

Resources required to implement this bill would include staff time to updated tax forms, TRMS, and Revenue Online, collect and administer the new tax, and other miscellaneous costs when applicable. These costs will be absorbed by the Tax Division using existing resources.
