Subject: Pass a full PFD and a comprehensive budget plan

House Finance-
Alaskans want solutions to our fiscal problems. YOU HAVE STALLED TOO LONG.

Pass a full PFD. A constitutional vote PFD is needed in the next election or the public will press for a Constitutional Convention - that is not the best way forward!

Make a plan that involves ALL the fixes. A 50/50 split is a compromise - You see how many are screaming for the statutory PFD! Nothing LESS than a 50/50 formula split will pass.

Thanks for taking action - the process for the public during this Special Session has been chaotic. You have seen the polls - the majority supports the constitutional PFD. Restore trust in government by making some good decisions Alaskans accept.

Subject: Public Testimony on the PFD

Good afternoon, Thank you for taking public testimony on the Alaska PFD. My name is Colleen Peterson from Wasilla, AK and I am representing myself.

I would like to urge the legislature to support Governor Dunleavy's plan to pay out a \$2350.00 PFD this year.
It has been a tough year for many residents and this payout would help them get through the winter and hopefully see the

end of Covid.

In the past I relied on the PFD payout to get my daughter through college. I'm sure I'm not the only one and with tuition skyrocketing every year the PFD was a big help. Thankfully, she did get her degree and now has a good job.

I would also say I fully support Governor Dunleavy's plan to permanently guarantee the PFD by placing it into the Alaska Constitution so Alaskans can vote on it. In my opinion, that is the right thing to do.

Subject: PFD

Please save the PFD for what it was designed for. Individuals can use the funds in a way that would help so many families and individuals rather than being wasted by the government. The cost of living is skyrocketing yet and causing hardship to so many families and individuals. At the same time the state is throwing money away – like the ferries sitting at the docks for months with full crews plus there are so many other ways the state is wasting money! Please follow the Governors wishes and advice!

Subject: PFD

Why is it so hard for politicians to do what is right?

Why do most politicians act like my checkbook/savings account belongs to them?

As a working senior I love living in Alaska but may be forced into moving outside away from family and friends. Between inflation and greedy or maybe I should say childish acting politicians who can't get their work done in a timely manner I struggle to keep living here. You see I have to live within a budget! Why don't you?

Are you afraid to allow Alaskans to have a say in the PFD issue?

Are you afraid you might actually have to cut the fat from the budget...let's face it...all of you have your "pet" projects and don't want your "pet" friends to be upset with you.

Alaska schools are a huge disgrace...yet how much is spent per child?
What is the graduation rate?
When our kids go to college do they have to "make" up classes just to be inline with other students?
Be honest now!
Put the PFD back where it belongs!
Get the budget under control!
Quit farting around and do your "work" in a timely manner and no more extra sessions!
Leave the capital in Juneau but bring everything else to the road system!
Or are you afraid we the public might show up and see what you are doing? John Q Public should be able to have access to those we elect...I can't afford to fly there like you do...oh wait do you go on my dime?
So, please put the PFD back the way it was... Play nice with each other and get your work done without extra sessions.

Subject: Save the PFD

Alaska House Finance Committee,

Thank you for allowing us to provide input on the important matter of Alaska's Permanent Fund Dividend.

For us, we count on the PFD in our household budget to get items to prepare for the long winters (snow tires, winterizing the house, budget for additional fuel costs, etc.). The remaining PFD goes towards the "rainy day" fund we use throughout the year.

When our kids were younger, we could count on their portion of the PFD to go into a savings plan for college, church missions, or start their adult lives without the financial aid of mom and dad.

For years, we have been able to anticipate our portion of the PFD and plan our budget according. In recent years, we have been sorely disappointed in our legislators who many feel stole half of our PFD. Our portion was not enough to cover the pre-winter expenses we incurred.

The PFD is the largest it has ever been in its history. Oil barrel prices are back to good/great prices. The money is there for a full PFD!

Stop stealing our portion of the dividend.

Disgusted in legislative performance,

Ray Ball

Subject: Dunleavy's bill HB3003 is a bad idea

Please do not enshrine the PFD in the constitution.. That's like telling poorly behaved kids that if they'll be nicer and vote for you, you promise you will pay for treats for them the rest of their lives even though such a promise could break the bank in a few years while making them weaker and less responsible. Yes times are tough and we should help those in need but most Alaskans can survive just fine. There have been years my family lived on only a few thousand dollars and while it was very hard we survived by working hard and saving with an eye on being comfortable a few decades down the road. One year we only had what food we could buy from the sale of three wolf skins. Other years it was rice and moose. With food banks and many forms other government assistance, few would spend PFDs for more than non discretionary items. Perhaps if dunleavy personally guaranteed his and all his relatives money would go to SOA if the PF dried up in his or his children's lifetimes due to his stupid proposed actions now... Sorry for the not very articulate language here but greedy short sighted people are dangerous to the rest of us and must not be sucked up to.

Hello. The battery in my cordless phone died, while waiting my turn to comment.

Richmond Tolles
HC 60 Box 4012
Haines, AK. 99827
Ph. 907 767 5536

I first came to Alaska in 1967 with the US Army.

I represent myself, and my wife of 53 years.

First, I do not support, nor trust our present governor. I believe if he has his way, the cuts to education will continue, and the end of our university system is assured.

I want our dividend to grow! I do not agree with the "I WANT IT ALL, & I WANT IT NOW" mentality. I do not trust the governors 50/50 plan. I believe the state needs a state wide graduated income tax to cover, needed, and wanted state services. If the cutting of the budget continues you will hear more, and louder complaining than we heard today.

I am writing this today because the battery in my cordless phone died while waiting to speak.

Thank you

I support the Governors 50/50 plan to finance the PFD and State Government since the Permanent Fund is no longer permanent.

Please see attachment to view Governor Hickle's proclamation to the people of Alaska.

Sharon Tackett
Soldotna, Alaska

Certificate of Ownership

STATE OF ALASKA

You, as a resident of Alaska, share in the ownership of 103 million acres of land, all navigable waters and the natural resources our land and waters contain. It is your oil, your natural gas, your coal, your minerals, your timber, your fish.

This Certificate symbolizes that ownership and entitles you to share in the benefits that come with it.

When state government made your land available for exploration by the private sector at Prudhoe Bay, geologists and oil workers were able to find and produce oil belonging to all Alaskans. The royalties from that oil are used for the many state services that you are able to enjoy with a minimum of taxes. A portion of your oil royalties are also set aside in the Permanent Fund from which you, as an owner, earn dividends.

In addition to accepting the benefits of ownership, the bearer of this Certificate also has obligations. Each owner should learn how state resources are turned into royalties and economic opportunities. Each of us should become informed on how these resources can be used wisely for the maximum benefit of all Alaskans. Each of us should be ready to communicate with those in state government who make the decisions to manage the assets we own in common.

Subject: SUPPORT FOR GOV. PFD PLAN

My name is Shelley Walker and I am a single mother of 3 children who lives in Palmer, Alaska. My daughter Harmony just started high school and my boys are in middle school and elementary. We live in a low income apartment and do not receive any child support. Over the years I have struggled with my health and lately we are facing a spread of covid in our community. Which has recently caused our schools to have a shortage of bus transportation to schools. We rely heavily on the pfd's to buy winter gear, clothes, school supplies, upkeep our car, keep a roof over our heads and house warm through the winter months and stock up on food. This year's pfd's are even more crucial for families living in poverty to prevent homelessness with covid numbers spreading. Pfd's can help low income families have save vehicles to drive to have equal access to education for their children, with failing bus systems. Even though we might not be rich my children are good academic achievers. My kids have had mostly straight A's their entire lives and are constantly commented on by their peers and their parents, teachers and neighbors for their outstanding character. So, though we may have financial difficulty at times, my children and their futures are worth investing in for a better future for Alaska. So please invest in their equal access to life and education by passing Governor Dunleavy's bill of a proposed \$2350 pfd and educational scholarships. Thank you.

Respectfully,
Shelley Walker and on behalf of my three children Harmony Aiden, Chance Walker.

Subject: ANNUAL PFD PROTECTION

Pay attention please to Alaskan's wishes concerning this matter, It is alarming to watch the program initiated in 1976 by GOVERNOR Jay Hammond, to give an annual dividend for Alaskan individuals from the state's oil revenues, only to be hijacked over this last decade, by state legislators who deem their special interests of more importance than individual Alaskans.

I therefore applaud GOVERNOR Dunleavy's \$2,350. PFD, a show of good faith on what is owed to Alaskans, and I commend Governor Dunleavy's plan to guarantee annual PFD's to Alaskans

by placing this issue into the State Constitution, cementing it's existence and allowing Alaskans a vote on this issue.

If you feel the PFD amount to be high, you may donate your PFD to the legislators to fund 'THEIR' pork project.

Thank you,

Subject: Pfd and State Budget

This is Justin Ross McKay, i represent myself a born and raised 37 year Alaskan.

Cut the budget 10% across the board, and if its not enough to balance spending then cut each item 1% more until it's balanced! Before you start making an excuses about government service cuts remember elderly, government employees, and all citizens of Alaska personally benefit from the PFD whn it goes straight into their pockets

In my lifetime I have never seen Alaska fall on hardship as bad as the last 2 years because of government mandated shutdowns, Federal and local. Big corporations have reeked the benefit while the people and Small business take the fall. Full PFD and Full BACK-PAY will not only pull the citizens out of the hole, but will make the local economy thrive which in return lessens the need for government assistance!

Please if you will email me back and explain to me why we need bigger government, and why we need to give up our PFD.

Thanks for your time.

Subject: Written testimony

To the committee,

After listening to the committee testimonies, I feel compelled to give my input in regards to the PFD.

I am a 100% disabled veteran and sole provider for my family of 5.

I support the full statutory with back pay for the reduced PFD payouts.

When I budget for my family, I am required to prioritize what is able to be funded now and what can be funded later based on my current income. That is my job as the head of household.

Your job is to budget your income and not the amount you can divert from another source such as the PFD. The PFD was and is meant for the people, not the government.

You must balance your budget independently and that means some things are not able to be funded right now and must wait or be prioritized and/or reduced in size to a degree that can be funded.

The current and recent legislators have been an embarrassment to the great state of Alaska. You are failing to uphold your duty.

I hope that this committee will put aside their personal thoughts and party ideology and do what your constituents have been saying all day. Fulfill a full statutory PFD and cut the government where it needs to be cut to balance your budget.

Sincerely,

Eric L. Allison

Subject: Testimony

Hard work today. I listened to a lot of menacing and misinformed testimony and I think some of it comes from a place of genuine economic anxiety. People are looking for money and it has been a crushing year and a half for a lot of us in Alaska.

I completely understand the desire for a large PFD. I didn't come from a wealthy family or choose a high income profession. I know what a lean September looks like and what it means to really need that check.

But it doesn't pencil out. It's not sustainable without revenue.

Or cuts that feel more like amputations. Or a real battle with the oil companies over the state's forgone revenues.

I think that if people want a fuller PFD, it's important that they understand the cost. And it's clear that people in Alaska don't understand the cost.

We've enjoyed a multi-generational tax holiday and our population churn constantly carves away at our collective memory. We're not well equipped to recognize the obligations we have to our government and to one another. We just want our checks.

It's unfortunate and I encourage you to settle on a balanced approach.

Good luck,

Subject: HB 3003

Thank you for your work on behalf of all Alaskans.

I am a third generation Alaskan who remembers paying income tax and school tax. I do appreciate the gift of the PFD and understand than many people rely on it. At the same time our shared resources were originally intended to provide the services and infrastructure that help each of us be healthy and as productive and financially independent as possible. Opponents to statehood argued that Alaska is too big and sparsely populated to afford to build the infrastructure necessary to support ourselves. I'm thankful for the oil wealth that has helped meet Alaska's basic needs and the foresight of earlier Alaskans who established the Permanent Fund designed to share the value of our finite natural resource with future generations. I doubt leaders who later supported developing the PFD foresaw the situation we're in now. Listening to hours of testimony it seems to have attracted people who are here for the "free money" and no taxes, with little interest in building Alaska as they earn their living. I want my Alaskan grandchildren, their peers and future generations to live in a financially stable and healthy

state. In this context I support the following positions.

- 1. Live within a viable Percent of Market Value for the earnings of the Permanent Fund with NO Overdraws, not even once. That should be in the constitution.**
- 2. Oppose enshrining the PFD in the constitution. At statehood income from our shared natural resources were intended to pay for the services and infrastructure that would be too costly to be paid for by our small, far flung population.**
- 3. Consider linking future PFD payments to Current Annual Earnings of Current development of natural resources. That will give voters an incentive to pay attention to getting maximum value for our natural resource development.**

Thank you again for working on behalf of all Alaskans, including those not born yet.

Subject: PFD distribution

August 24, 2021

Members of the House Finance Committee, I strongly urge you to support Governor Dunleavy's PFD plan to allow Alaskans to vote to put the historic distribution of the PFD into the state's constitution. Then if the state government wants voters to give them funding from the distribution to Alaskan's, they can request it as other charitable organizations are doing.

It is my opinion that the PFD distribution to Alaskans does more to the Alaska's economy and any state program. It provides employment training after high school, helps to pay for living and medical expenses and other household expenses to numerous to be listed while providing a strong economic boost to business which includes employment for many Alaskans.

Note that it is very difficult for a retired senior Alaskan forced on to Medicare to be accepted as a patient of a family doctor as the pay received by doctors from the US government will not support the costs incurred by a doctor in Alaska. Any other health insurance plan is secondary to social security which sets the pay rate to the doctor. So medical expenses are a major cost to seniors if they have to go to a hospital for care.

Now that the covid suspension of rent or mortgage payments has ended, back payment is now due as well are current ones. The current proposed PFD payment will not be adequate to cover this cost for a family.

On another note, most Alaskans are “fed up” with the “partisan bickering” and broken campaign promises of some of the legislators. This sentiment will be reflected in next year’s election, so if legislators wish to continue their political career, it would be wise for them to support the Governor’s plan that is before you.

Thank you for the opportunity to offer my opinion,

Newton Bingham

Subject: HB3003

Good afternoon,
My name is Whitney J. Roe I am a Alaskan registered voter for senate district H & House District 15. I am writing to you in hopes and belief that this committee will abide by our Governor's bill HB3003, without any amendments added. I firmly believe that the Alaskan government needs to follow all laws of the Alaskan constitution that deal directly with the state dividend corporation. This fund was put into place for the people of Alaska, & not for the government. I feel that if Alaska is needing financial help or assistance, it is for the finance committee and Alaskan treasury to figure out other routes besides taking

from the dividend fund. There are other ideas, such as taxes, state lottery, and much more than to keep taking from a fund that should not be accessible to the Alaskan government by state law. We the people of Alaska vote for our state senate & house to represent us not for you to represent yourselves

Thank you and have a good day..

Tried to call to testify, but the line was busy....

1. I am for a full statutory PFD with all previous stolen PFD's returned to Alaskans.
2. If that fails, I support the Governor's plan for a POMV with a 50/50 split PFD.

Nothing less will suffice for Alaskans.

Subject: PFD

Hi, my name is Kathie Anderson and I have lived in Soldotna since 1979. I was also a recipient for the 1st PFD.

The oilfield was my bread and butter during the 80's and 90's, it was both feast and famine when my spouse would be laid off and rehired on a constant basis, it carried us through the hard winters and helped with my son's college tuition.

I implore you to do the right thing for the people of Alaska, Alaska life is not easy and with the economy, Covid it has hurt numerous families and businesses.

The PFD can help build up our economy.

Please lead by example, do what you know is the right thing.

Please honor Gov Jay Hammond's plans for the PFD, Place Our PFD's in Alaska Constitution, and a Constitutional Convention, and Yes, on the Road System!

I fully support getting what was taken from us \$13,000, if not that then \$3800.00 or \$2350.00 that Gov Dunleavy proposed.

Thank you for listening, considering what the people of Alaska are asking.

Subject: Thoughts on the PFD

Greetings,

I am calling on all members of the legislature to fund a full PFD or immediately resign. If you want to change the rules on how the PFD is calculated, then change the rules officially, vocally, and proudly, rather than playing subversive games based on questionable court decisions. The PFD is not your money to use to fund government, or to fund the ever-expanding list of things you deem worthy of government funding.

Your personal thoughts and opinions on what you think earnings from the Permanent Fund 'should' be used for are irrelevant. It is irrelevant if you think citizens of Alaska are "selfish" or "entitled" for wanting a full PFD. It is irrelevant what you think at all about the PFD. It does not belong to you.

For the last 10 - 15 years the legislature has shown itself to be totally incapable of managing state funds in any sort of responsible or sustainable way. You have avoided dealing with budget discrepancies and shortfalls and instead blown through substantially all the savings the state once had because you refused to deal with the situation in front of you, and continued spending at unsustainable levels. Perhaps some of you even wanted to continue down that path, knowing it was unsustainable, and knowing that it would lead to the mess we find ourselves in now so that you would have some justification to finally confiscate the final source of funding - Permanent Fund Earnings. Honestly your inability to control your compulsive spending resembles the behavior of a junkie who can't control his addiction and steals from his family to fund it.

I'm sure the options to balance the budget you had in front of you, then and now, suck, and the decisions you would have to make would be difficult. If you're not up for it, then quit and make room for someone who is.

The legislature's behavior this session and for the previous several sessions is just pathetic. Failing to organize for weeks, failing to perform even the most basic tasks you are responsible for, failing to complete business in a timely manner, failing to complete business in an untimely manner, failing to act

like adults in order to complete the people's business - all while paying yourselves the people's money.....just failing almost completely at the job you sought out and were elected to do. It's shameful, and you should be ashamed. But you're not.

Instead you have convinced yourselves that if you can just use all that other money you know is not yours to spend, that will fix things. It won't. Once you have blown all of that money - and you will blow it because you can't restrain yourselves - we will all be worse off than we are now and with the same shitty decisions to make.

So if you think that you deserve to hold the offices you currently occupy, then make the shitty decisions now and cut spending further. Show that you can do it. Balance the budget without stealing the people's money. Pay a full PFD. If going forward you think that using more of the Permanent Fund's earnings are the wisest course of action, then convince the people you represent of that.

If you can't do that, then just leave and stop taking money for a job you're not doing.

Sincerely,
Ethan Peabody

Subject: PFD

Dear Governor and Alaska Legislators,

The Alaskan dividend is a treasure to our state. It's a treasure for our people.

It is traditionally given in October. A bright spot in a darkening time of year for us Alaskans.

The original intent of the PFD was to share the earnings of the dividend to the people.

In the past we Alaskans would look forward to the announcement of what the exact amount the PFD would be.

When it was announced and we were showed how the numbers arrived at that number, there was no argument. It was what it was.

The last few years have been discouraging, frustrating and sad to watch the previous Governor and the legislators not adhere to the rules of the PFD formula.

Even the children know it is wrong. The first year the PFD wasn't paid accordingly, when Bill Walker was Governor, my daughter in 5th grade dressed up as "the other half of the PFD."

She wore a ten gallon hat with monopoly money taped all over it.

Sadly it's not child's play... it's our future of a wonderful program that was set up for us Alaskans.

Please keep the original formula of the Alaska Permanent fund.

Thankyou
Lesley Sundberg

Subject: PFD

To whom it may concern,

I am in favor of the PFD, but I am more in favor of taxing and charging oil companies a fair market value instead of the sweetheart deal they've gotten off Alaska for far too long. That would help Alaska in its fiscal problems.

That's more important than the PFD, funding state services and programs like healthcare, Medicaid, public schools, the ferry system, the state university and its research programs, and so on.

Furthermore, it is important that the world transition away from fossil fuel use quickly as we are in a nightmarish climate crisis. Alaska must, it is absolutely imperative that Alaska develop wind and other renewable, safe, clean energy, and eschew polluting, and non-sustainable extractive industries, but that we work instead work toward food security, environmental conservation, and independence as far as possible.

PFDs are well and good but pie in the sky promises of huge PFDs that have no way to materialize in the real world and our foreseeable future, this is not helpful. We all deserve better than that. I don't want pipe dreams or false promises of easy money coming from no where.

I want a strong state with services, public education and healthcare and transportation, housing and food for all. I want the Alaska that we are capable of being to come to pass. I don't just want a big PFD that comes at the cost of the fiscal stability and the future of our state.

Thank you for considering my views. This will have to serve as my testimony regarding the state PFD, as I was unable to participate otherwise, earlier today. Thank you again.

Subject: PFD

Years ago the PFD was created for the citizens of Alaska. I have been here since it's conception. The PFD needs to be sent out to every eligible Alaskan as stated by the original equation and leave it at that. Some things don't need to be tampered with. The PFD is only a fraction of the oil revenue. The rest was set aside to be used by the State if needed. Alaska needs to live within a budget and we need to trim our budget now and live within our means but do not take away the PFD that was designed for the Alaskan residents.

For those Legislators voting NOT to give the full PFD, I hope your people DO NOT re-elect you! Shame on you.

To whom it may concern:

I want you to know I am in full support of the statutory PFD. It is time we constitutionalize the PFD and prevent the greedy legislators from spending the money that belongs to the people of Alaska. Because of the past decisions to "kick the can down the road" the state budget is over inflated and the legislature has stolen money from the PFD to balance the state budget. All this to support special interest programs and over inflated school and Medicare budgets. It's time to stop this nonsense!

I am willing to consider a 50/50 split of the 5% POMB after taxes. However, these concessions need to be coupled with commitment to enshrine the PFD. No more options for a money grab by the legislature and governor.

Stand strong for Alaskans NOW! Let's do the right thing and make Alaska a better place for everyone especially our children.

Thanks

Subject: Please Constitutionalize the PFD

House Finance Committee,

I am writing to voice the opinion of my household (Colby Mazzolini, Lucca Mazzolini, and Noelle Mazzolini), on the PFD and Alaska's fiscal situation. Our main goal is to ensure that the state is on a fiscally sustainable path, and we believe we are currently not on such a path.

We would like to voice our support for SJR1. It is not perfect and I share in the concern that a 5% POMV may be too large to sustainably enshrine, but it does accomplish the main goal of taking the PFD off the table as a funding source for the government moving forward. I would feel better about a 4 - 4.5% POMV draw, even if it means a smaller PFD and a bit less for government.

Our elected representation has played hot potato with our PFD for far too long. It has become an easy money grab thanks to the courts ruling and Gov. Walker's overreach. The PFD SHALL receive first call and the legislature SHALL appropriate.

I want my children to have the option of living in a thriving private economy here in Alaska in the future. But if we continue to draw down our savings, grow government, and delay making hard decisions regarding our state's fiscal situation, I fear they will not have this option.

By removing the PFD from the equation we will be helping to force the hand of our elected officials to be leaders and make the tough decisions now (that could have been made 5-10 years ago) that will direct Alaska on a more sustainable path moving forward.

I wish a full PFD was more broadly supported by the legislature, as that is what I truly support. However, I realize that compromise is how we move forward as a whole and therefore I support Governor Dunleavy's proposal to enshrine the PFD (and the PCE. But I think the PCE should be used for the building of infrastructure and truly equalizing power costs for rural communities instead of simply supplementing the difference in cost. Teach a man to fish...) at a 50/50 split with government.

Thank you for taking my testimony,

Nick Mazzolini

Subject: HB 3003 - PFD

To whom it may concern:

I would like to express my opinions on the PFD and will keep this short and simple. I am personally affected in two major areas of my life by not receiving a full PFD.

1) I am a single parent and the yearly PFD helps with winter clothing, heating bills, automotive, land taxes and so much more.

2) I also am a small business owner and would like to see that money put into Alaska's economy to help the many businesses trying to keep afloat and/or prosper in this challenging large state.

As you can see, taking the PFD out of Alaskan's hands has negative affects on many levels. Please restore the PFD and initiate a state sales tax to pay for the states budget. Tourists should help pay and people who have more to spend, can afford to pay more taxes. It's inevitable so start now.

Thank you for your time and consideration.

Sincerely,

Tandi Fox

I am writing in support of Dunleavy's PFD plan. I am a long time Alaskan and homeowner in Palmer. Although I have many justifications for my decision, the point of support should suffice. I also support a broad based tax system, Alaska cannot rely on oil revenue alone. Walker's plan for LNG is foolish and Alaska needs to tax general merchandise/clothes whilst excluding food. Further considerations should be made towards precluding businesses from shifting costs to consumers. Anytime a city tax is raised 9 out of 10 businesses post a sign that says "our cost went up your cost goes up" no the cost of business went up...my \$2 coffee is now 4.50. Anyways. Short rant. Sorry for that. PFD now. Thanks.

Subject: I support a full statutory PFD - House Finance Public Testimony

My name is Tanya Kitka and I represent myself and my family, and especially writing in to testify on behalf of my two kids.

Let me say first and foremost that **I support a full and statutory PFD, as well as back paying the withheld statutory PFD amounts from 2016 to present.** My family of 4 alone is owed over **\$50,000** from these withheld amounts. I know that legislators who claim that paying this would devastate the Fund are liars because the Dividends never touches the Fund and is only ever paid from an average of the earnings, most of which is sitting in the ERA, I believe. The state has the money, and it is owed to the people.

I know that many of us Alaskans do support this. I know that many legislators do not. Somewhere along the way, when royalties from oil companies were dwindling while oil tax credits appropriated by those same legislators were ever high, it was decided in Juneau to start using that PFD money to pay for state services.

This is wrong.

Alaskans didn't agree to this. It does not follow the state statute. Why are our representatives in Juneau allowed to ignore the laws when the rest of us must abide by them all?

Dunleavy has come up with a compromise. It is the middle ground between what Alaskans want, (the full PFD) and what legislators want (to use all that money for funding the state budget.)

I support Dunleavy's compromise PFD plan, so long as it is accompanied by a constitutional amendment to be put before the vote of the people, so that this new formula can be put into effect.

The constant bickering in Juneau every year, the endless special sessions and spending of money to decide what pittance of our state resources we should be allowed is ridiculous. I think I can safely say that we are all tired of this same mess every year.

The other argument against the state using the earnings from the Fund for the state budget that I recently heard and makes sense to me, is that when the state no longer depends on the local economy for funding government, it then loses the same interest it once had in ensuring that that economy is healthy, growing and producing. In other words, when the state is receiving enough money from the stock market to pay for services, what does it matter if oil and mining are paying royalties?

I recall in the early 2000s when my own Dad, Tom Quick of Ouzinkie, was explaining to me how there was talk in Juneau of paying every Alaskan a large sum, \$20,000+, and ending the dividend program. He didn't think that was right, and voiced his opinions against it. He said it would not be right to end the program for my future, and my kids' futures (although was still in high school and did not have kids yet.) Now it is my turn to fight for my kids' futures and the future of the PFD program.

I hope that you hear this year's testimony, although my faith is low. There was nothing said yesterday that you haven't heard before, except that many Alaskans are now feeling that Dunleavy's plan may be the only way forward, to strike a compromise that none of us wanted in the first place.

Please choose to be part of the Alaska Legislature that solves this problem and preserves the PFD for my children, and their children, so this amazing program can continue to benefit generations to come, and get rid of the continual arguing in Juneau on this topic.

If you have any questions, please feel free to contact me further.

Regards,
Tanya Kitka

As a citizen of Juneau I do not support the Governor's PFD plan. It is fiscal irresponsibility to issue a cash payment at a time when the right thing to do is support all working and retired Alaskans with a balanced budget. Persons collecting government support disability payments don't need more cash. Honestly, the more free cash they receive the less likely it becomes they will participate in community.

Personally I'm tired of people who refuse to work and support the community spending "free" money on drugs, alcohol and trivial spending. Many persons are using the label of "disabled" to shirk their civic duty to participate productively in our communities.

The Federal government stimulus payments may have helped some. I know many people personally who won't work and foolishly wasted thousands of dollars. I would expect them to do the same with the PFD.

Thank you for rising to the difficult challenges of leadership. These are not easy times, especially for those of us seeing our hard earned taxes foolishly wasted.

I am grateful for your work.

Subject: HB 3003

Good morning,

I watched most of your hearing last evening. Thank you for weathering the admonishments and lectures, and thank you for meeting the time commitment 2021 has required of you.

Clearly most Alaskans favor a PFD this year, and seem to also favor an amount of at least \$2,000 or thereabouts. My own view is that the amount of the PFD that goes to the IRS makes it a terrible program from an economic input/output standpoint, and because Alaska produces so little here – likely only one-third to one-half of the next least productive state – a program that indifferently ships so much money out is worrisome. But I seem to be in a minority and am reconciled to the PFD not only remaining with us but increasing in cost.

I strongly do not believe that taking an unsustainable amount from the PF now will be followed by sticking to a practice of sustainable spending later. I believe that taking \$3 billion now during a time of huge federal spending here is very likely to be succeeded by a period of inflation and bear markets that cause a future governor and future legislature to take even larger amounts from the PF. No one who looks at our history could reasonably conclude that one large draw now will be the final large draw.

I have always believed that if the annual state spend was forthrightly and honestly reduced, something that has not happened, Alaskans would come to see state government spending in a different light than was evident in your hearing last night. I think that taking as little as \$600 million GF from our total spending of \$12 billion to \$13 billion (all funds) would be adequate for the politics. Please consider reducing the 2022 budget by at least \$500 million to put that same amount in the PFD. I also think that there are symbolic actions you could take to address the concerns many have that state government and the PFD are two factions competing for the same dollars. Moving the state workforce to a 40-hour week and eliminating a few of the paid holidays are examples of symbolic actions I believe would help reduce the loud rancor the House seems to have garnered.

Taking action that goes against the grain of the conservative majority that spoke to you last night will not conclusively resolve anything. People remain angry over how the PFD was reduced by Governor Walker, and action you take in 2021 will not be the final word unless it seems reasonable to most voters in every region. Also, I wonder whether any long-term solution can be achieved until all Alaskans live in a place that has property taxes and a local contribution to local government responsibilities. By the way, I believe there is a large opportunity cost in having the statewide fiscal debate Alaska has had for years and continues to have while other states build their economies. Please arrive at an agreement that concludes this debate even if doing so requires cutting the annual state spend.

I think a sales tax is hands down a more appropriate and economically viable revenue measure than an income tax. We already have too few Alaskans working at producing goods to sell to the rest of the world; at least a sales tax would dampen consumption rather than output, and almost everything we consume is produced anywhere but Alaska. As a state we consume too much and produce far too little, and I don't believe Alaska will be ready for any broad-based tax of any kind until or unless that annual state spend is substantially reduced from current levels. Right now a family of four Alaskans represents over \$60,000 in annual state spending! Even a very productive state economy that has manufacturing and agriculture could not sustain that level state government. Also, Alaska has completely lost the positive wage differential we once enjoyed over other states and that also recommends we even stop talking about an income tax.

Thank you for your time. Thanks again for your hard work.

Subject: PFD Constitutional Amendment

I am writing to inform the legislature of my demand that the traditional calculation for the PFD be enshrined in our states constitution. Our elected government representatives have shown an inability to refrain from seizing money that does not belong to them. Control of that money needs to be removed from them so that they are no longer tempted to steal from the people and can return to their original duties.

Sincerely,

Kenneth McLeod

Subject: Please fund ALSC

Good day,

I am a public defender in Anchorage. I see daily what a critical difference free legal representation makes in the lives of marginalized and impoverished Alaskans. This is true for civil legal issues as well. But ALSC cannot run on fumes. Please remember that Alaska succeeds when we care for all Alaskans. Please fully fund ALSC so that they aren't forced to turn away more people in pain for lack of resources.

Subject: Budget considerations

August 24, 2021

Bart :

Thank you and your fellow legislators for your service!

Finance Priorities:

1. Please do not provide a guarantee for Alaskans to receive a PFD . Please reread Joe Paskvan' s article in the Sunday paper. Should you be tempted to have such an amendment provide the revenues, "taxes", or budget cuts first.
2. Please do not withdraw more than 5% of the Permanent Fund
 - a. As a member of the Fairbanks Permanent Fund advisory committee for over 10 years, having a maximum withdrawal rate, the endowment method, works.
 - b. As a city council member the max 4.5% withdrawal rate (times the 5 year average fund balance) was put to the voters on May 20, 2002 (ordinance 5485) and the Fairbanks citizens approved the City Charter amendment that fall.
 - c. Elected officials like to spend money to prove they love their community and state. Elected officials love to have their picture taken with a ribbon and a scissors in hand. You have to have a limit or the Alaska Permanent Fund will disappear quickly.
3. Should you elect to have a "full dividend" this year, come up with the revenue now, Sales tax, gas tax or income tax and pass that legislation now, don't take the funds from the earnings reserve or exceed the 5% withdrawal rate.
4. Having a new source of revenue (new taxes) to pay a high dividend makes budgetary sense rather than raiding the Permanent fund but I find paying new taxes so the State can hand out \$\$ to very Alaskan, absurd.

5. Tell us what Alaska looks like without new taxes but with 50% of the annual PF withdrawal used for the PFD and highlight the possible changes such as:
- a. Elimination of all schools and airports for cities less than 250 people resulting in the closures of small villages and a migration to larger villages and municipalities
 - b. Forcing large municipalities such as Anchorage and Fairbanks to maintain all state highways within their boundaries.
 - c. Elimination of University campuses and programs
 - d. Elimination of internet and cell subsidies
 - e. Cuts to high school and grade school funding, tells what class sizes will look like
 - f. Cuts to State troopers
 - g. Cuts to State highway maintenance
 - h. Cuts to Medicaid, tells us what health care systems in what cities will fail without the additional patient revenues
 - i. Elimination of the Alaska Ferry System.
 - j. Elimination of free fishing and hunting licenses
 - k. Elimination of free license plates
 - l. Elimination of property tax exemptions for over 65 and veterans, as Alaska municipalities will struggle to take up services eliminated by the State requiring full property value taxation

You have difficult decisions to make and a lot of elected officials have a vision of 1 to 3 years, their election cycle. Please look to the future of Alaska and pass legislation that sees beyond next fall's elections. It would be easy to stand with the governor and smile and brag about providing Alaskan's the vote to bring home more free money without providing what Alaska looks like with a combination of new taxes and draconian budget cuts.

Please look to Alaska's long term future!

Thank you for your service!

Subject: Testimony on HB3003

The Permanent Fund, the PFD, and budgetary issues

Thank you for this opportunity to testify.

My belief is that the Permanent Fund was established to share the wealth from a non-renewable resource with future generations of Alaskans. Not to pay a PFD. Protecting the Permanent Fund should be of utmost importance, and I am pleased that a few years ago the legislature passed a POMV statute to protect the Permanent Fund, although I believe the 5% draw limit should be reduced until the Permanent Fund reaches \$100 billion. If a constitutional amendment is necessary to protect the Permanent Fund, then I would support that. I am against any overdraw of the Permanent Fund. I am against "bridge funding". Governor Dunleavy wants to pretend that a constitutional amendment that he proposes for paying a 50/50 PFD is applicable now, but he wants to pretend that his proposed constitutional amendment, and the existing statute, for limiting the POMV draw would not be applicable. I am glad that the fund value has increased tremendously over the last year, but this is not a reason to break the POMV statute.

The PFD should not be constitutionally protected. Paying a PFD is not nearly as important as the many services that the State provides. The PFD does not have "First Call", it is one of numerous budget items and should compete against other government programs for prioritization and funding. Our Supreme Court has already determined that the PFD is subject to appropriation, thus any PFD amount paid is a full PFD. I do not feel that I am owed any back pay for historical reduced PFD's. Governor Dunleavy decided to reduce the PFD to \$0.00 this year, I am satisfied with this PFD amount and believe that he should be credited with the \$0.00 2021 DUNLEAVY PFD. The current PFD statute should be eliminated, and replaced with a statute that commits to attempting to pay a PFD as money allows. Perhaps a \$500 PFD cap should be included until the Permanent Fund reaches at least \$100 billion. While I believe that we should seek to receive the maximum compensation for our oil, I am not in favor of any income tax or sales tax to pay a larger PFD.

While I am against constitutionalizing the PFD, if this is pursued I believe that it should not be a 50/50 split. For the first 30 plus years the state has not used their portion of the 50/50 split, rather this money was left in the fund and continued to grow. My belief is that this non utilized

money, as well as income from this money, should be subtracted from the Permanent Fund balance to determine an amount of money available for splitting.

I am of the belief that there are still minor savings to be found in the State budget, and that as these savings are found they should be implemented. I am not naive enough to believe that we can find enough savings to allow for paying what some feel they are entitled to. There are some reductions that I would support that many others would not. The legislature was structured to balance the desires of the public and to provide the services that the citizens collectively desire. I am satisfied with that balanced approach.

Again, thank you for this opportunity to testify!

Subject: HB 3003: reinstate funds

Good morning,

My wife and I are attorneys practicing in Homer for the last 30 years.
We volunteer for Alaska Legal Services and strongly support the full reinstatement of funds

First of all. Alaska Legal Services is very well run. They are efficient, effective and do not waste any money.

2nd, the money that you spend is leveraged to use attorneys who volunteer their time.

Finally, they help civil cases that would not ordinarily have an attorney: especially in cases of women suffering from domestic violence that are too poor to receive any assistance otherwise.

This is not a political issue. This is strictly humanitarian.

Please re-instate the full funding.

Subject: PFD testimony

I am Steve Fritsche of Nikiski, AK. I am representing myself.

Thank you for the opportunity to address the committee.

It seems like you have a difficult decision to make, but to me, it is simple. Paying the full Dividend amount based upon the statute would provide a decent income to residents so that they could buy the products that they need for the long winter ahead. This also reduces the burden on the budget for funding projects. Let me explain.

LEG tends to want to fund a lot of projects that really need to be funded by the consumers of those projects. For example, I heard testimony from a municipal manager that their community has almost no ability to produce income, but they need power, law enforcement, healthcare, etc. I don't fully understand why people would choose to live where they are unable to support themselves, but I guess that is their choice. But if those communities have to cover the cost of their own power like we do in Nikiski, then you wouldn't have to worry about funding that project. But the solution seems rather clear. With a full PFD payment, those who live in those communities have means to choose what they buy. Heating oil, generator diesel, medical insurance might be high on their list. It would reduce the services that need funding to those like law enforcement and ... well, not much else.

What I see, here in Nikiski, is that we have many low-income families who desperately need the full Dividend. It is the bulk of their income. Without it, they can't buy wood for their stoves, winter jackets and boots for their growing kids, repairs on their cabins to keep the cold air out of their kids' sleeping space, roof repairs to keep moisture, ergo mold, out of their home, lumber to replace their failing outhouse, food staples to make it through the winter. For them, the Permanent Fund investment is a critical part of their income, and they depend upon it.

Others, here in Nikiski, you might argue, don't NEED the dividend. And maybe you are wealthy and you don't really relate to most us. But I have lived elsewhere, and I can testify that it is far more expensive to live here, especially considering that pay is not higher enough to cover the difference. But, when you factor in the full PFD, income is more in line with the lower 48 compared to cost of living.

So, we, the people of Alaska, have a significant investment in the Permanent Fund. The income from that investment is a significant part of the income we need to live here. When the full amount is paid, we have a good economy. When you fail to pay the statutory amount, the economy withers. Since Gov Walker started shorting us to fund your projects, we have seen people suffering and leaving the state.

STOP IT! It is time to pay the full Dividend PLUS back payment for what we missed out on receiving over the last five years. The ER is fully funded and stands ready to pay the full amount. So, just do it.

Bottom line: if you want to fund your projects, go find new sources of financing like from the project consumers. STOP FUNDING YOUR PROJECTS WITH OUR MONEY! Pay us our money, and let us decide what projects WE want to fund. For me, I choose to pay property taxes which fund our local services, and also, to buy products I need for winter which supports local businesses. If YOU don't need the Dividend, you can feel free to pick, click, give the full amount to the project of your choice. Just don't take our choice away from me and my neighbors.

Thank you for your time.

Steve

TESTIMONY OF WILLIAM TOPEL

Rep. Bart LeBon	Rep.Bart.LeBon@akleg.gov
Rep. Ben Carpenter	Rep.Ben.Carpenter@akleg.gov
Rep. DeLena Johnson	Rep.DeLena.Johnson@akleg.gov

Good afternoon, members of the House Finance Committee. I'm William Topel of House District 27, Senate District N in Anchorage, representing myself. Regretfully, I'm opposed to HB3003A for the primary reason that your appropriation amount for the people's PFD is underfunded, according to the traditional statutory PFD distribution law.

This bill is a compromise between the traditional statutory PFD distribution law and SB 26. SB 26 continues to cause annual hassles over the amount that Alaskans should receive for their PFD. I don't like SB 26 and I don't like this compromise. I want the FULL PFD.

If you legislators would use the traditional statutory PFD distribution law, which you have ignored for over 5 years now, we Alaskans can get our legal FULL \$3,687 PFD this year. Based upon 630,000 applicants for this year, the overall amount appropriated from the Earnings Reserve Account would be about \$2.3 B. That would also allow you to appropriate a like amount from the ERA for state government, which is Hammond's 50/50 plan, which would cover your anticipated budget deficit of between \$1.6 B to \$2 B with some money left over, which you could transfer to the CBR. There is enough money in the ERA, over \$15 B as of July, to do both of these functions without putting new taxes on the people or the private business sector or jeopardizing essential state services.

Repeal SB 26. Keep the Earnings Reserve Account as a pivot savings account that receives Permanent Fund investment income and from which distributes the PFD and money for state government, and can also be used for state or regional emergencies. Keep the traditional statutory PFD distribution law, and pay the people what you owe them. For this year, that would be about \$3,687, and you also owe us the back PFDs of over \$10,000 per person, too. If you eliminate the ERA through proposed constitutional amendments or statutory bills that would transfer its balance to the Permanent Fund corpus, then you would be denying the people the ability to recover our back PFDs.

Alaskans are hurting. FULL PFD NOW or the people will vote for a Constitutional Convention next year. Thank you.

Re: Dividend underpayment for years (**circle all that apply**) 2016, 2017, 2018, 2019, 2020, 2021

My name is Ron Drumhiller

My mailing address is 3581 mandeville Lp. Rd.

My email is shawna.n.ron@gci.net

My Phone is 907-322-2269

I am writing to notify you that I have not yet received the full amount of the permanent fund dividend I was eligible to receive for dividend years (**circle years that apply**) 2016, 2017, 2018, 2019, 2020, and 2021

As you know, an individual who complies with the stipulations of AS 43.23.005(a) is eligible to receive one permanent fund dividend in an amount to be determined under AS 43.23.025. I complied with the stipulations of AS 43.23.005 for years (**circle**) 2016, 2017, 2018, 2019, 2020, 2021. (Electronic application forms attesting to these facts are on file with your office.) Therefore, to the best of my knowledge, I was eligible for and should have received the following payments:

\$2,085 for dividend year 2016, \$2,458 for dividend year 2017, \$2,924 for dividend year 2018, \$2,884 for dividend year 2019, \$2895 for dividend year 2020, and \$3687 for dividend year 2021

But I have only received the following payments:

\$1,022 in October of 2016, \$1,100 in October of 2017, \$1,600 in October of 2018, and \$1,606 in October of 2019 and 992 in 2020, and nothing for 2021

Based on the annual rate of return posted on line 1 column G of the June 30th reports by the APFC board of Trustees and the back owed balances, I am owed the unpaid balance, plus the earnings on that sum (**circle one below that applies to your eligibility**).

Since 2016	Since 2017	Since 2018	Since 2019	Since 2020	Since 2021
\$13,564.60	\$11,746.18	\$9,650.96	\$7,806.31	\$6,131.59	\$3,687

If you wish, you may deposit the payment to the bank account I listed on the PFD application form I submitted for the 2021 dividend year. Otherwise, please mail the check to my mailing address on file at your office.

I complied with the stipulations of AS 43.23.005 for years (circle) 2016, 2017, 2018, 2019, 2020, 2021 (Electronic application forms attesting to these facts are on file with your office.) Therefore, to the best of my knowledge, I was eligible for and should have received the following payments:

\$2,085 for dividend year 2016, \$2,458 for dividend year 2017, \$2,924 for dividend year 2018, \$2,884 for dividend year 2019, \$2895 for dividend year 2020, and \$3687 for dividend year 2021

But I have only received the following payments:

\$1,022 in October of 2016, \$1,100 in October of 2017, \$1,600 in October of 2018, and \$1,606 in October of 2019 and 992 in 2020, and nothing for 2021

Based on the annual rate of return posted on line 1 column G of the June 30th reports by the APFC board of Trustees and the back owed balances, I am owed the unpaid balance, plus the earnings on that sum (circle one below that applies to your eligibility).

Since 2016	Since 2017	Since 2018	Since 2019	Since 2020	Since 2021
<u>\$13,564.60</u>	\$11,746.18	\$9,650.96	\$7,806.31	\$6,131.59	\$3,687

If you wish, you may deposit the payment to the bank account I listed on the PFD application form I submitted for the 2021 dividend year. Otherwise, please mail the check to my mailing address on file at your office.

My email is 1885 Long on North pole

My Phone is 407-371-9553

I am writing to notify you that I have not yet received the full amount of the permanent fund dividend I was eligible to receive for dividend years (circle years that apply) 2016, 2017, 2018, 2019, 2020, and 2021

As you know, an individual who complies with the stipulations of AS 43.23.005(a) is eligible to receive one permanent fund dividend in an amount to be determined under AS 43.23.025. I complied with the stipulations of AS 43.23.005 for years (circle) 2016, 2017, 2018, 2019, 2020, 2021. (Electronic application forms attesting to these facts are on file with your office.) Therefore, to the best of my knowledge, I was eligible for and should have received the following payments:

\$2,085 for dividend year 2016, \$2,458 for dividend year 2017, \$2,924 for dividend year 2018, \$2,884 for dividend year 2019, \$2895 for dividend year 2020, and \$3687 for dividend year 2021

But I have only received the following payments:

\$1,022 in October of 2016, \$1,100 in October of 2017, \$1,600 in October of 2018, and \$1,606 in October of 2019 and 992 in 2020, and nothing for 2021

Based on the annual rate of return posted on line 1 column G of the June 30th reports by the APFC board of Trustees and the back owed balances, I am owed the unpaid balance, plus the earnings on that sum (circle one below that applies to your eligibility).

Since 2016	Since 2017	Since 2018	Since 2019	Since 2020	Since 2021
\$13,564.60	\$11,746.18	\$9,650.96	\$7,806.31	\$6,131.59	\$3,687

If you wish, you may deposit the payment to the bank account I listed on the PFD application form I submitted for the 2021 dividend year. Otherwise, please mail the check to my mailing address on file at your office.

Re: Dividend underpayment for years (circle all that apply) 2016, 2017, 2018, 2019, 2020, 2021

My name is Michael J Patty

My mailing address is P.O. Box 4668 Eielson AFB, AK 99702

My email is mmpatty@acs.alaska.net

My Phone is 907-490-4777

I am writing to notify you that I have not yet received the full amount of the permanent fund dividend I was eligible to receive for dividend years (circle years that apply) 2016, 2017, 2018, 2019, 2020, and 2021

As you know, an individual who complies with the stipulations of AS 43.23.005(a) is eligible to receive one permanent fund dividend in an amount to be determined under AS 43.23.025. I complied with the stipulations of AS 43.23.005 for years (circle) 2016, 2017, 2018, 2019, 2020, 2021. (Electronic application forms attesting to these facts are on file with your office.) Therefore, to the best of my knowledge, I was eligible for and should have received the following payments:

\$2,085 for dividend year 2016, \$2,458 for dividend year 2017, \$2,924 for dividend year 2018, \$2,884 for dividend year 2019, \$2895 for dividend year 2020, and \$3687 for dividend year 2021

But I have only received the following payments:

\$1,022 in October of 2016, \$1,100 in October of 2017, \$1,600 in October of 2018, and \$1,606 in October of 2019 and 992 in 2020, and nothing for 2021

Based on the annual rate of return posted on line 1 column G of the June 30th reports by the APFC board of Trustees and the back owed balances, I am owed the unpaid balance, plus the earnings on that sum (circle one below that applies to your eligibility).

Since 2016	Since 2017	Since 2018	Since 2019	Since 2020	Since 2021
\$13,564.60	\$11,746.18	\$9,650.96	\$7,806.31	\$6,131.59	\$3,687

If you wish, you may deposit the payment to the bank account I listed on the PFD application form I submitted for the 2021 dividend year. Otherwise, please mail the check to my mailing address on file at your office.

I complied with the stipulations of AS 43.23.005 for years (circle) 2016, 2017, 2018, 2019, 2020, 2021. (Electronic application forms attesting to these facts are on file with your office.) Therefore, to the best of my knowledge, I was eligible for and should have received the following payments:

\$2,085 for dividend year 2016, \$2,458 for dividend year 2017, \$2,924 for dividend year 2018, \$2,884 for dividend year 2019, \$2,895 for dividend year 2020, and \$3,687 for dividend year 2021

But I have only received the following payments:

\$1,022 in October of 2016, \$1,100 in October of 2017, \$1,600 in October of 2018, and \$1,606 in October of 2019 and 992 in 2020, and nothing for 2021

Based on the annual rate of return posted on line 1 column G of the June 30th reports by the APFC board of Trustees and the back owed balances, I am owed the unpaid balance, plus the earnings on that sum (circle one below that applies to your eligibility).

Since 2016	Since 2017	Since 2018	Since 2019	Since 2020	Since 2021
\$13,564.60	\$11,746.18	\$9,650.96	\$7,806.31	\$6,131.59	\$3,687

If you wish, you may deposit the payment to the bank account I listed on the PFD application form I submitted for the 2021 dividend year. Otherwise, please mail the check to my mailing address on file at your office.

Re: Dividend underpayment for years (circle all that apply) 2016, 2017, 2018, 2019, 2020, 2021

My name is Scott Farrell

My mailing address is 2111 A Last Frontier Circle Eielson AFB AK 99702

My email is ebcsounddude@gmail.com

My Phone is 907-669-2017

I am writing to notify you that I have not yet received the full amount of the permanent fund dividend I was eligible to receive for dividend years (circle years that apply) 2016, 2017, 2018, 2019, 2020, and 2021

As you know, an individual who complies with the stipulations of AS 43.23.005(a) is eligible to receive one permanent fund dividend in an amount to be determined under AS 43.23.025. I complied with the stipulations of AS 43.23.005 for years (circle) 2016, 2017, 2018, 2019, 2020, 2021. (Electronic application forms attesting to these facts are on file with your office.) Therefore, to the best of my knowledge, I was eligible for and should have received the following payments:

\$2,085 for dividend year 2016, \$2,458 for dividend year 2017, \$2,924 for dividend year 2018, \$2,884 for dividend year 2019, \$2895 for dividend year 2020, and \$3687 for dividend year 2021

But I have only received the following payments:

\$1,022 in October of 2016, \$1,100 in October of 2017, \$1,600 in October of 2018, and \$1,606 in October of 2019 and 992 in 2020, and nothing for 2021

Based on the annual rate of return posted on line 1 column G of the June 30th reports by the APFC board of Trustees and the back owed balances, I am owed the unpaid balance, plus the earnings on that sum (circle one below that applies to your eligibility).

Since 2016	Since 2017	Since 2018	Since 2019	Since 2020	Since 2021
\$13,564.60	\$11,746.18	\$9,650.96	\$7,806.31	\$6,131.59	\$3,687

If you wish, you may deposit the payment to the bank account I listed on the PFD application form I submitted for the 2021 dividend year. Otherwise, please mail the check to my mailing address on file at your office.
