School Designations for School Year 2021-2022

There are three types of school designations: Comprehensive Support and Improvement (CSI), Targeted Support and Improvement (TSI), and Universal Support. The primary purpose of these school designations is to provide feedback to education stakeholders (educators, families, tribes, communities, policy makers) and to support an equitable education for every student in Alaska's public school system.

[CSI Lowest 5%](#) are the schools that were ranked in the lowest 5% using the System for School Success, Alaska's Accountability System noted in the Alaska Every Student Succeeds Act (ESSA) State Plan.

[The CSI Graduation Rate](#) designation is applied to schools that have a graduation rate below 66 2/3%.

[TSI schools](#) have one or more subgroup whose index value is less than or equal to the index value for CSI lowest 5% schools.

[Universal Support](#) schools are all schools that don't have a CSI or TSI designation.

A brief overview of the accountability system can be found here

(<https://education.alaska.gov/akaccountability/schoolsuccess/SummarySchoolSuccess.pdf>).

The table below shows the CSI/TSI designations for the 2021-2022. Note that due to insufficient data in 2019-2020 and a waiver from US Department of Education for 2020-2021, designations have been held from the 2018-2019 school year.
