I'd like to take the time to show my utmost support for Rep. Reinbolds legislation on the Vaccine Mandates. I feel any Medical decisions are for the individual and no State or Government power has the right to say otherwise.

Thank you for your time

Alaskan's more so than any other state value their freedom and independence. Alaskans can make informed decisions regarding their health and don't need the government administering an unconstitutional mandate for a virus which is 99.7% survivable. The greater risk to our nation is the forcing Americans to take a shot that's not been legitimately tested and successfully proven to prevent covid 19, but rather, places us at greater risk of injury. Let Alaska demonstrate the American spirit by demonstrating to the rest of the nation, natural immunity works and we are not afraid of this low risk virus. Lets embrace true science and not political deception to force a nation to forfeit its freedom for fear.

Please support SB156. It is our right not to have to show vaccinations cards, or even forced to get vaccinated .
As our representatives you work for us the public . Do your job and protect our rights.

Thank you

Bill 156

No mandatory vaccines

desiree cronin <[redacted]>
To: ☐ Senate State Affairs

Please vote for no mandated vaccines whether state or federal and whether medical or healthcare facilities or other industries including tribal. Thank you.

Senate Bill 156 - Vaccine Mandates

steve pearson <[redacted]>

To  Senate State Affairs

Senate State Affairs Committee,

Please support Senator Lora Reinbold and SB 156 that would make vaccine mandates and so-called "immunity passports" unlawful in Alaska.

Nobody should be fired from their job, kicked out of school, or denied access to public places for simply declining to accept medical intervention.

Alaskans have the right to weigh the benefits and risks of COVID-19 vaccination, just like other medical interventions, and make a free and informed choice, without coercion.

Many people have valid reasons for declining vaccination.

Thank you for your consideration.

Steve Pearson

SB 156

Good evening,

Please let it be known that I am in staunch support of SB156 and the prevention of any type of vaccine regulation, ordinance, order, mandate or similar policy at the state level. Or at any level.

Thank you,

Megan L. Bauman

Tue 2/8/2022 6:25 P

Good evening,

Hello I called in earlier to the hearing but had to get back to work so I am writing this email. My name is Kristy Grimaldi. I am a Big Lake resident and I have lived in Alaska my whole life. I'm a single mother with 2 children that I solely support.

I went to UAA Matsig to complete my Nurse Aide certification last year. I chose to work for a small company called Willow PCA. Recently I got a call from the owner asking me about my vaccine status? And if I was not getting the vaccine I'd be fired..

The clients I care for know that I'm not vaccinated and do not care. I come into their home and help them with daily living and maintaining their independence. The last year at times I would work 7 days a week because I did not have someone to cover my shift.

I wish I wasn't getting fired.

I feel like I'm being forced out of doing what I love.

If the vaccine works why am I being forced to get the COVID vaccine!

Thank you

Kristy Grimaldi.

Good Evening,

I am writing to ask that you please protect the rights of Alaskans by passing this bill which would protect our freedom of choice. It is critical that Alaskans should not be made to turn against one another over the issue of being vaccinated vs not vaccinated. I and others like me, should not need to live in fear of losing our jobs or being denied entry into public buildings because of our beliefs against vaccination. If we cannot protect our basic freedom of choosing what we put into our bodies then we cannot say that we live in a free country.

Thank you for your time.
Ashley
