The Alaska State Legislature
Capitol Building
Juneau, Alaska 99801

Dear Alaska Legislature

We encourage your support of the Alaska Railroad's efforts to receive legislative authority to bond for \$60 million for the replacement of the passenger cruise dock in Seward. The passenger dock is an important part of the infrastructure and the economy not just in Seward but all along the Railbelt.

The current dock was built in 1966 and must be replaced in order to continue to serve the 200,000 passengers that cross over it every year during their visits to Alaska. The Seward dock provides opportunity for visitors to support the local Seward and Kenai Peninsula economy and is an important access point for visitor travel from Seward north to Anchorage, the Matsu Valley, Denali National Park and Fairbanks. Additionally, the bed taxes, head taxes, sales taxes, and other fees that those visitors pay support necessary services for the residents of Alaska.

Key to this proposal is that the bonding will not be done by the State of Alaska and the people of Alaska will not be paying the bill. The Alaska Railroad will use its bonding authority to raise the funds and the fees for the use of the dock will pay the bill.

Thank you for your support of this effort.

Sincerely,

A handwritten signature in blue ink that reads "Steve Judd".
