FISCAL NOTE ANALYSIS

STATE OF ALASKA
2022 LEGISLATIVE SESSION

BILL NO. HB 347

Analysis

This bill exempts certain animal records maintained by the Department from the Alaska Public Records Act, yet allows sharing the records with other government agencies in the event of an animal disease outbreak response or investigation. The bill allows the Department to continue disclosing animal disease records to the public, so long as the information is presented in a manner that prevents the identification of individual animals, people, or businesses. The duties related to the Office of the State Veterinarian within the Division of Environmental Health are unchanged with this legislation, so there would be no fiscal impact to the Department.
