I support, and encourage Alaska Legislative Support For House Bill 108. The benefit of encouraging High School students to consider & possibly pursue Trade skills beyond High School is an idea the State of Alaska should invest in. This Bill recognizes that not everyone is cut out to attend college. Bill 108 is a realist approach to guiding young adults to Life skills that would, no will, become professional careers.

Sincerely,
Jack E. A, 1 Apr 2021

Attn: Rep McCarty,

It is my understanding that there is a current bill, HB108, to aid high school students gain trade work experience. This is vital to our economy, our industry and our population as a whole.

Please pass this bill, HB108.
