

Alaska Chiropractic Society

February 28, 2022

Senator Peter Micciche
Room 111
Alaska State Capital
Juneau, Alaska 99801

Senator Micciche,

Thank you for introducing SB 193 to extend the Board of Chiropractic Examiners.

The Alaska Chiropractic Society supports SB 193. ACS is the largest members association of chiropractic physicians in the state and we regularly participate in the board process. Our members and staff also participate in national chiropractic organizations, so we are able to discuss and compare our experience here with professionals in other states.

We believe it is critical to have a state board to regulate the chiropractic profession. The board, working with the Division of Occupational Licensing, benefits the public and the profession. We believe the board conducts business in a professional manner, members are accessible and responsive to the public both individually and as a board. We also see board members participating in national organizations to stay current with the practice of chiropractic, as well as training, licensing, regulatory and disciplinary trends across the country.

We urge you and your colleagues in the state legislature to pass SB 193 and extend the Board of Chiropractic Examiners.

Sincerely,

Dr. Todd Curzie, President
