**Note:**

In 2014, House Bill 161 did the first big overhaul of AS 16.05.343 since it was enacted in 1997. Among other things, the bill increased the number of harvest permits from two for each species to what is now in statute. It also added several more species to the list of permits the department could issue annually. After HB 161 went into effect in the fall of 2014, there is a noticeable increase in total and ADF&F Revenue
