9 No money appropriated in this appropriation may be expended for an abortion that is not a  
10 mandatory service required under AS 47.07.030(a). The money appropriated for Health and  
11 Social Services may be expended only for mandatory services required under Title XIX of the  
12 Social Security Act and for optional services offered by the state under the state plan for  
13 medical assistance that has been approved by the United States Department of Health and  
14 Human Services. This statement is a statement of the purpose of the appropriation and is  
15 neither merely descriptive language nor a statement of legislative intent.

16 It is the intent of the legislature that the Department continues to aggressively pursue  
17 Medicaid cost containment initiatives. Efforts should continue where the Department  
18 believes additional cost containment is possible including further efforts to contain travel  
19 expenses. The Department must continue efforts imposing regulations controlling and  
20 materially reducing the cost of Personal Care Attendant (PCA) services. Efforts must be  
21 continued utilizing existing resources to impose regulations screening applicants for  
22 Residential Psychiatric Treatment Center (RPTC) services, especially for out-of-state  
23 services. The department must address the entire matrix of optional Medicaid services,  
24 reimbursement rates and eligibility requirements that are the basis of the Medicaid growth  
25 algorithm. This work is to utilize the results of the Medicaid Assessment and Planning  
26 analysis. The legislature requests that by January 2009 the Department be prepared to present  
27 projections of future Medicaid funding requirements under our existing statute and regulations  
28 and be prepared to present and evaluate the consequences of viable policy alternatives that  
29 could be implemented to lower growth rates and reducing projections of future costs.

30 It is the intent of the legislature that the Department of Health and Social Services eliminate  
31 the requirement for narrative and financial quarterly reports for all grant recipients whose  
32 grants are \$50,000 or less. This is an unnecessary burden and is not a requirement of the  
33 federal grants.

3	It is the intent of the legislature that the Department of Health and Social Services make a		
4	single "upfront" payment for any grant award that is \$50,000 or less and includes a signature		
5	of the grantee certifying compliance with the terms of the grant with their approved		
6	application. Signature of the grantee would also certify that if a final report certifying		
7	completion of the grant requirements is not filed, future grants will not be considered for that		
8	grantee until all requirements of prior grants are completed satisfactorily. In the event a		
9	grantee is deemed ineligible for a future grant consideration due to improper filing of final		
10	reports, the grantee will be informed about the department's procedures for future		
11	consideration of grant eligibility. The department will establish procedures to consider		
12	retroactivity for specific grant consideration or express that the retroactivity cannot be		
13	considered for certain grants during the selection process.		
14	It is the intent of the legislature that the department continues to evaluate an asset test in		
15	Denali KidCare and other Child Care Benefits programs' eligibility criteria that includes the		
16	value of assets leased and not owned by the applicant. The department should report to the		
17	legislature, no later than January 20, 2009, possible asset test structures, their projected		
18	consequences on program participants and any necessary changes to statute, regulation or		
19	Alaska's Medicaid State Plan. The report should identify any federal restrictions on asset tests		
20	and any potential consequence of an asset test on the availability of federal funding.		
21	<b>Alaska Pioneer Homes</b>	<b>13,431,500</b>	<b>13,431,500</b>
22	It is the intent of the legislature that the Department maintain regulations requiring all		
23	residents of the Pioneer Homes to apply for all appropriate benefit programs prior to a state		
24	subsidy being provided for their care from the State Payment Assistance program.		
25	It is the intent of the legislature that all pioneers' homes and veterans' homes applicants shall		
26	complete any forms to determine eligibility for supplemental program funding, such as		
27	Medicaid, Medicare, SSI, and other benefits as part of the application process. If an applicant		
28	is not able to complete the forms him/herself, or if relatives or guardians of the applicant are		
29	not able to complete the forms, Department of Health and Social Services staff may complete		
30	the forms for him/her, obtain the individuals' or designee's signature and submit for eligibility		
31	per AS 47.25.120.

It is the intent of the legislature that the department continue developing policies and procedures surrounding the awarding of recurring grants to assure that applicants are regularly evaluated on their performance in achieving outcomes consistent with the expectations and missions of the Department related to their specific grant. The recipient's specific performance should be measured and incorporated into the decision whether to continue awarding grants. Performance measurement should be standardized, accurate, objective and fair, recognizing and compensating for differences among grant recipients including acuity of services provided, client base, geographic location and other factors necessary and appropriate to reconcile and compare grant recipient performances across the array of providers and services involved.

It is the intent of the legislature that the \$750,000 increment in the FY09 budget for behavioral health grants be used exclusively to provide additional base funding for existing core services of current grantee providers of adolescent and adult substance abuse intervention or treatment services, who have demonstrated successful outcomes documented in accordance with the Department's performance based evaluation procedures. The Department should continue work on implementing a provider rate rebasing process and specific funding recommendations for both Medicaid and non-Medicaid providers to be completed and available to the legislature no later than December 15, 2008.

It is the intent of the legislature that the \$750,000 increment in the FY 09 budget for Behavioral Health Grants be used to provide additional base funding for existing core services of current behavioral health grantees who have demonstrated successful outcomes documented in accordance with the department's performance based evaluation procedures, with an emphasis on increasing substance abuse treatment capacity for adolescents and adults.

It is the intent of the legislature that the \$500,000 increment in the FY 09 budget for

7	It is the intent of the legislature that the \$200,000 increment in the FY09 budget for the		
8	Suicide Prevention Strategy and Implementation Plan be dedicated to developing a best		
9	practices, evidence based multi-dimensional strategy and implementation plan to reduce the		
10	rates of suicide in targeted rural regions of the state with the highest current rate of suicide.		
11	The strategy and plan must specifically propose the means to reduce the rate of suicide and		
12	address various dimensions of the issue including differing age and social demographics of at-		
13	risk populations as well as implementation alternatives available in the targeted regions. The		
14	plan must be developed in coordination with stakeholders and relevant resources in the		
15	targeted regions. The Suicide Prevention Strategy and Implementation Plan must be		
16	completed and available to the legislature no later than December 15, 2008.		
17	It is the intent of the legislature that by providing \$500,000 in general funds for the "Planning		
18	and Design for Clitheroe Center Replacement", there is no further obligation by the State for		
19	continued funding.		
20	It is the intent of the legislature that, in accordance with AS 37.05.315, \$333,800 in general

10	providers:			
11	1. Develop regulations addressing the use of extrapolation methodology following an audit of			
12	Medicaid providers that clearly defines the difference between actual overpayment of funds to			
13	a provider and ministerial omission or clerical billing error that does not result in			
14	overpayment to the provider. The extrapolation methodology will also define percentage of			
15	"safe harbor" overpayment rates for which extrapolation methodology will be applied.			
16	2. Develop training standards and definitions regarding ministerial and billing errors versus			
17	overpayments. Include the use of those standards and definitions in the State's audit contracts.
