Subject: Public Comments regarding HB 280

Dear Folks,

I am in favor of HB 280 for several reasons:

1. I believe companies that do business in Alaska should help support the state's infrastructure and services.
2. We already pay sales taxes on some on-line sales, depending on jurisdiction. Making this a state-wide requirement would be more equitable.
3. We already pay sales taxes on some local retail sales, depending on jurisdiction. Allowing on-line businesses to escape this puts an unfair burden on local businesses.

I urge you to pass HB 280 and in the event of a veto, override the veto.

Regards,

Janette Keiser

Please support passage of HB 280. This is not only an important revenue generator, it is most fair to our own corporations by leveling the tax playing field.

Subject: HB 280

Dear Members of the House Finance Committee:

Please support HB 280 to tax out of state internet companies based on their sales in Alaska. Why should Alaskan corporations pay corporate income taxes, but Netflix pays nothing?

HB 280 would modernize Alaska's corporate tax structure and generate as much as \$25-65 million in new revenue per year.

Alaska needs the money to help educate, train and prepare our students to enter the workforce. For the future of Alaska vote YES on HB 280.

Thank you,

Megan O'Neill

House Finance Committee,

I am writing in support of HB 280. This bill simply makes sense, and is a common sense solution to the State's budget situation.

Thank you for what you do.

Christopher Brown
