**Subject:** HB 64 Please support and Pass this Needed Piece of Legislation...

February 4, 2026

Dear Chair Gray and Judiciary Committee members,

Thank you for your service to the beautiful state of Alaska.

I am writing today to ask that you introduce and support HB 64 as it is so that it can continue to move forward.

-HB 64 is written to provide a safe and warm place to drop off a baby privately in a secure Infant Surrender Box which will be responded to immediately.

-This bill has no fiscal note and at a time with our tight budget, that is a wonderful part of this bill.

-It also respects the privacy of a woman in crisis which is the whole point of this opportunity since women facing these circumstances can have a wide variety of reasons as to why they don't feel safe revealing their identities.

-Infant Surrender Bills are spreading across the United States of America and because we have the harshest weather of any other state, we should make this bill our highest priority before any other infants are left outside to freeze to death.

-This information inside of the drop box will help the mother with any questions she may have and guide her to get medical help for herself. This addition is compassionate and provides her with knowledge that she may have never known about had she not had the opportunity to use one of these Baby Boxes.

Everything about HB 64 from being free for the state, to respecting a woman's privacy, to protecting the baby and providing potentially life saving information to the mother, makes this bill a win for everyone, across all parties involved.

Please introduce and pass this bill so it can move forward.

Sincerely  
Debora Norcross

**Subject:** Support for SB9 and HB64

It has been 5 years since the 12 week premie was found in Fairbanks on the side of the road, wrapped in blankets with a note tucked in a cardboard box.

This infant survived the frigid temperatures & was safely rescued.

But the Infant Safety Device is a better proven way to assist Mothers and Families in crisis.

There are no further recorded incidents here in Fairbanks, thank goodness but there have been around the Nation this winter where these units by Safe Haven Baby Boxes, a non-profit organization have been installed. WI- October 2025, Texas January 2026 and Ohio- February 2026. These devices Are Saving Lives!!

Please support these bills SB 9 and HB 64.

And save lives in ALASKA.

JOSEPHINE M STACK- Fairbanks

**Subject:** HB 64 Surrender of Infants

Dear Representative

I am writing as a constituent to respectfully ask for your support of House Bill 64, which proposes expanding Alaska's Safe Surrender law to allow for the use of secure, climate controlled infant surrender boxes.

HB 64 addresses a critical gap in current law. While Alaska permits safe surrender of newborns, the requirement for in person transfer can be a barrier for parents experiencing crisis, fear, or trauma. Allowing for anonymous surrender through approved baby boxes provides an additional layer of protection for newborns while still ensuring immediate medical attention and oversight.

This legislation is focused on prevention and safety. Other states that have implemented similar measures have seen reductions in unsafe infant abandonment while maintaining safeguards for both the child and the surrendering parent. HB 64 offers a compassionate and practical solution tailored to Alaska's unique climate and geographic challenges.

I appreciate the bipartisan support this bill has already received and encourage you to support HB 64 as it moves through committee and the legislative process. Thank you for your time, consideration, and continued service to Alaskans.

Respectfully,

Kailah Butters  
Wasilla, Alaska
