Subject: Pass SB203 Immediately
Date: Thursday, February 12, 2026 3:01:02 PM

SB 203, a bill to prohibit glock type devices that easily pop into a gun to make it repeatedly fire. The kind of thing that would shred an animal or mass murder people at a school or event.

Only the military should be able to have weapons that fire repeatedly. Military personnel must store their guns locked in a storage facility on base.
