Subject: ICE detentions

I am absolutely outraged by the Soldotna family separation and deportations. These people are our neighbors who fled violence and were in the asylum process. Please get all the information about this case and others and support the constitutional rights of ALL people in our country. The use of ICE to terrorize, intimidate, and snatch people, including children, from their homes and cars is WRONG and needs to be stopped. Please do what you can to reunite that family to Alaska. We feel powerless.
