Subject: ICE in Alaska

Dear House Judiciary members,

ICE's extradition of a Soldotna family who has an application processing through the immigration process is abhorrent behavior that must be reversed and prohibited to allow all Alaskans to live in safety. I must state that I am not in favor of illegally entering our country - that is not what this is about. This family was here legally and that they were not safe here is what I stand firmly against. Please stand up for due process for all - citizens and non-citizens. Demand that ICE follows the law. Bring the Soldotna family home now.

Sincerely,
Cynthia Morelli
