Subject: HB 21, Voter Preregistration for Minors

Please support HB 21, Voter Preregistration for Minors. This bill will encourage more residents to engage in their civic responsibility and to vote. If they are pre registered to vote, students are more likely to begin paying attention to government at all levels and engagement is crucial to a well functioning, representative government. Furthermore, it has the potential for students to engage with their families and to help them formulate their beliefs and values.

Sincerely,
Irene Bortnick

Please support the Voter Preregistration Bill. This will engage and motivate our teens, who are approaching the voting age. Excellent bill. Barbara Pastorino
