Some policymakers are proposing that Alaska Native entities be included in a co-management and cooperation agreement with state and federal governments on some lands conveyed to Alaska Native corporations through the Alaska Native Claims Settlement Act (ANCSA).

**[9]** Trawling is an industrial method of fishing that involves pulling a vast net behind a boat. Trawling accounts for the majority of Alaska's commercial fishing volume, mostly pollock. Trawling can catch or hurt non-targeted species like salmon and whales.

Do you support or oppose federal legislation to **ban** trawling in the waters off the coast of Alaska?
