Subject: Support for SB 203
Date: Saturday, February 28, 2026 5:12:31 PM

I support passage of SB 203. I want Alaska to prohibit the possession, sale and distribution of so-called "Glock switch" devices, which are small, easily concealed parts that convert a handgun into an automatic weapon. I personally feel no private citizen should own an automatic weapon. Such a weapon is not used for hunting, as it is prohibited for hunting use in ADF&G regulations. An automatic weapon is used for killing humans, as we have seen time and again in schools and other public places where mass shootings occur. There is no good reason why anyone would need to convert a handgun into an automatic weapon, only nefarious reasons. Protect the people of Alaska from mad men by stopping their access to items that make it easier to kill high numbers of people. This should be an easy bill to pass.
