**Subject:** Support for SB 203  
**Date:** Sunday, March 1, 2026 1:25:33 PM

---

I am writing this morning to urge your support for Senate Bill 203, prohibiting possession, sale, and distribution of the Glock switch devices. As I am sure most or all of you know, these are small parts capable of converting a handgun into an automatic weapon. These conversions are not necessary for safety but instead risk safety. To be clear, neither I nor my family are anti-gun, but we ARE pro-safety. We are parents, grandparents, friends, who have taken seriously the responsibility of gun ownership, and while some of us no longer hunt or own guns, we do support responsible gun ownership. Please support the prohibition against possession, sale and/or distribution of Glock switch devices. Thank you
