Subject: SB230 - Jonesville
Date: Sunday, March 15, 2026 6:21:04 PM

Senator Rauscher,

I am writing to you today to support SB230 amending the boundaries of the Jonesville Public Use Area (JPUA). As a resident of Sutton, who also served as chair of the Sutton Community Council for a portion of my 8 year term on that council, I know a bit about the efforts and support of the Sutton Community for more than 15 years to see management and safety become a reality to JPUA. SB230 addresses a crucial piece of land originally, but not intentionally, omitted from the legislation creating JPUA. The parcel in question provides a current access point and parking that is part of the regularly used area and needs to be included as part of JPUA in order to provide the same level of management to the entire currently used recreational land. I would ask that you share my letter and thoughts at the upcoming meeting on this bill. We do not want this technical oversight to leave out this crucial piece of property and undermine the intention of our efforts.

Respectfully,
Frank Buzby, Sutton Resident
