## FISCAL NOTE

STATE OF ALASKA  
2011 LEGISLATIVE SESSION

BILL NO. HB125

### Analysis

HB125 moves the Alcoholic Beverage Control Board to the Department of Commerce, Community and Economic Development (DCCED). This move will require significant Information Technology resources to migrate the existing Written Orders and Licensing Application from the Department of Public Safety to the DCCED environment. In addition, additional Fiscal resources will be necessary to address on-going accounting tasks involved with the collection and processing of fees and the general day to day business of the ABC Board.

Personal Services includes costs for ongoing fiscal and network services costs. These costs are estimated at 1/2 time Accounting Technician III and 1/2 time IT position. Accounting tasks include deposits, refunds, credit card and revenue reconciliations, and certification of auto-pays and bill payments.

Services include the cost of migrating two systems to the DCCED environment. Of particular challenge are the differences in security and the environment these systems currently exist in. DPS has its own Active Directory system that is not integrated into the state system. In addition, DPS has a firewall that essentially walls off the department, and its systems, from the rest of the state. The new models will need to be designed and developed for integration into the DCCED environment. The migration to the DCCED environment will require analysis, planning, testing, remediation and implementation.

Capital Outlay includes costs associated with the need to replace equipment that is currently integrated into the DPS network.
