Explanation

This amendment adds a Permanent Fund Dividend into the operating budget. With current fiscal constraints unable to accommodate a full statutory dividend, the sponsor offers a dividend equivalent to a 25/75 which would be approximately \$1,511 per Alaskan. There also is waterfall language provided in a Legislative Legal amendment which details that should the 34th Legislature pass a revenue generating bill (or combination of revenue generating bills) that can cover the appropriation, an additional dividend would be provided making the total equivalent to a 50/50 split or approximately \$3,080 per Alaskan.

Explanation

This amendment represents a reduction of the Percent of Market Value (POMV) draw from the Earnings Reserve Account. This reduction would represent a difference in revenue of approximately \$399,686,509. With the revenue forecast projecting increased revenue above this amount, assuming oil prices maintain or improve during the fiscal year, the sponsor believes that these funds should remain within the corpus to improve the long-term stability of the Permanent Fund.
