---

Dear Senators,

I am Cynthia Jones from Haines, am an Alaska Emergency Medical Technician 2 (EMT-2) and have been on the Haines Volunteer Fire Department for nearly 43 years.

I am writing in support of the EMS Compact (REPLICA) provisions in HB 352, SB 256, and SB 281 and urge you to please pass this legislation.

I have been in EMS for 57 years and during those early years lived and worked seasonally in AK and other states. I was lucky: reciprocity wasn't a huge issue back in the 70's so as an EMT I was on the Alaska Mt. Rescue Group in Anchorage and Ski patrolled in NH during winters. It has been a huge issue for decades now and impacts seasonal workers and Fire Departments all over the state. As the years pass, it has become harder to find willing volunteers to staff our ambulances, especially during the summer when we have larger call volumes. Given Alaska's huge tourism industry many seasonal workers flood the state during the summer. They are certified EMT's from all over the country and flood our system each year, trying to make sure they can legally provide care in AK. Fire Departments, on the other hand, have the same problem. These folks, being certified in other states, cannot join and help with our ambulance services. The EMS Compact would solve these problems and immensely help both the tourism industry and ambulance services statewide!

Joining the EMS Compact will not only strengthen Alaska's EMS and seasonal workforces, but also improve our disaster response capability, and support military-connected EMS families in our state.

Thank you for your service to Alaska.

Respectfully,  
Cynthia Jones  
Haines, Alaska

---

Dear Legislator,

My name is Liz Landes. I am an Alaska Emergency Medical Technician 1 (EMT-1) and I live in Haines. I have been an EMS provider for 5 years. I serve with Haines VFD.

We've taken on the training and duty of emergency medicine to be ready and equipped for helping people at any moment. Help us take this beyond our state borders, enabling more to help save lives in Alaska and across the country.

I am writing in support of the EMS Compact (REPLICA) provisions in HB 352, SB 256, and SB 281 and urge you to pass this legislation.

Joining the EMS Compact will strengthen Alaska's EMS workforce, improve our disaster response capability, and support military-connected EMS families in our state.

Thank you for your service to Alaska.

Respectfully,  
Liz Landes  
Haines, Alaska

March 30, 2026

The Honorable David Wilson  
Chair, Senate Health and Social Services Committee  
Alaska State Senate  
Alaska State Capitol  
120 4th St.  
Juneau, AK 99801

**RE: ATA ACTION SUPPORT OF SB 281**

Dear Chair Wilson and members of the Senate Health and Social Services Committee,

On behalf of ATA Action, I am writing to express our strong support for Senate Bill 281, the Rural Health Transformation Act. This legislation takes several meaningful steps to expand access to health care for Alaskans, particularly for those in rural and underserved communities, and ATA Action is pleased to support it.

ATA Action is the affiliated policy and legislative advocacy arm of the American Telemedicine Association. ATA Action is the leading advocacy organization dedicated to advancing policy and accelerating the adoption of technology-enabled healthcare. Working collaboratively with federal and state legislators and policymakers, our organization drives industry momentum by influencing legislative and regulatory developments in telehealth, virtual care, remote patient monitoring, artificial intelligence in health, health data privacy, private sector healthcare investment, and more. We represent a diverse membership – including hospital systems, technology companies, professional associations, direct-to-consumer digital health providers, payers, pharmaceutical manufacturers, digital therapeutics developers, and remote monitoring organizations.

SB 281 addresses one of the most significant structural barriers to telehealth access: the friction created by state-by-state licensure requirements. By enacting four interstate licensure compacts in a single bill, Alaska would dramatically expand its health care workforce and make it easier for providers licensed elsewhere to serve Alaska patients, including through telehealth. ATA Action strongly supports each of these compacts.

**Interstate Medical Licensure Compact (IMLC)**

The IMLC provides a streamlined, expedited pathway for physicians to become licensed in multiple states. For Alaska, joining the Compact means that physicians licensed in other member states can more quickly obtain an Alaska license and begin serving Alaska patients – including via telehealth. Given the state's vast geography and the difficulty of recruiting and retaining physicians in rural areas, the IMLC is a powerful tool for expanding the physician workforce available to Alaskans. The Compact has already been adopted by the majority of states and has facilitated hundreds of thousands of expedited licenses nationally.

**ATA ACTION**

13th St NW, 12th Floor Washington, DC 20005  
Info@ataaction.org

## **PA Licensure Compact**

Physician assistants are a critical component of the health care workforce in rural and frontier communities, and the PA Licensure Compact will make it significantly easier for PAs licensed in other states to practice in Alaska. Telehealth-delivered PA services will benefit directly from the Compact's streamlined licensure pathway.

## **Psychology Interjurisdictional Compact (PSYPACT)**

PSYPACT is of particular importance to ATA Action and to the goal of expanding telehealth access to behavioral health services. The Compact authorizes licensed psychologists to provide telepsychology services across state lines, as well as temporary in-person practice in other Compact states. Alaska faces a well-documented shortage of mental health providers, and rural Alaskans routinely face barriers to accessing psychological services. PSYPACT directly addresses this gap by allowing psychologists licensed in other states to deliver telepsychology services to Alaska patients without the delay and cost of obtaining a separate Alaska license. Joining PSYPACT is one of the most impactful steps Alaska can take to expand access to mental health care via telehealth.

## **Recognition of EMS Personnel Licensure Interstate Compact (REPLICA)**

REPLICA facilitates the movement of EMS personnel across state lines by enabling mutual recognition of licensure among member states. For Alaska, this means that EMTs and paramedics licensed in other states can more readily provide services in Alaska, including in response to emergencies and in support of rural health care delivery. REPLICA is particularly valuable for a state with Alaska's unique geography, where rapid deployment of EMS personnel from other states may be necessary during disasters or mass casualty events.

Taken together, SB 281 is a comprehensive and well-designed effort to strengthen Alaska's health care workforce and expand access to care for all Alaskans. ATA Action urges the Committee to advance this legislation. If you have any questions or would like to discuss the telehealth industry's perspective further, please contact me at [hyoung@ataaction.org](mailto:hyoung@ataaction.org).

Kind regards,

Hunter Young  
Head of State Government Relations  
ATA Action

Dear Legislator,

My name is Patty Brown. I am an Alaska Emergency Medical Technician 2 (EMT-2) and I live in Haines, AK, and volunteer for the Haines Volunteer Fire Department. I have been an EMS provider for 15 consecutive years, and for other land agencies for more than ten years prior to that time.

I am writing in support of the EMS Compact (REPLICA) provisions in HB 352, SB 256, and SB 281 and urge you to pass this legislation.

Joining the EMS Compact will strengthen Alaska's EMS workforce, improve our disaster response capability, and support military-connected EMS families in our state.

On a personal level, I would like to be able to work for the National Park Service or other land agencies in a capacity that includes emergency medical response. The states I would live in could vary year-to-year. Being able to be recognized as a skilled and knowledgeable responder by potential employers would be valuable and having this standard, NREMT, would indicate this. I am experienced and committed and believe I could be useful in remote situations.

Thank you for your service to Alaska.

Respectfully,  
Patty Brown  
Haines, AK, Alaska

---

Dear Legislator,

My name is Anthony White. I am an Alaska Advanced AKEMT and I live in Delta Junction. I have been an EMS provider for 30 years. I serve with Delta Medical Transport / Fort Greely FD.

I am writing in support of the EMS Compact (REPLICA) provisions in HB 352, SB 256, and SB 281 and urge you to pass this legislation.

Joining the EMS Compact will strengthen Alaska's EMS workforce, improve our disaster response capability, and support military-connected EMS families in our state.

Thank you for your service to Alaska.

Respectfully,  
Anthony White  
Delta Junction, Alaska

Dear Legislator,

My name is Amber White. I am an Alaska Agency Administrator and I live in Delta Junction. I have been an EMS provider for 12 years. I serve with Delta Medical Transport.

I am writing in support of the EMS Compact (REPLICA) provisions in HB 352, SB 256, and SB 281 and urge you to pass this legislation.

Joining the EMS Compact will strengthen Alaska's EMS workforce, improve our disaster response capability, and support military-connected EMS families in our state.

Adoption of this compact will strengthen accountability and transparency across Alaska's EMS system while establishing consistent, statewide standards of care. It will enhance workforce mobility and allow for more efficient sharing of personnel and resources, which is critical in a state where many communities face significant geographic and resource challenges. By reducing administrative barriers and enabling reciprocity, this compact supports faster response times, improves access to qualified providers, and promotes continuity of care. Ultimately, it positions Alaska to better serve its rural and frontier populations while ensuring a more resilient, coordinated, and sustainable EMS system.

Thank you for your service to Alaska.

Respectfully,  
Amber White  
Delta Junction, Alaska

Dear Legislator,

My name is Julie Anderson. I am an Alaska Paramedic and I live in Haines, AK. I have been an EMS provider for 29 years. I serve with Haines VFD.

I am writing in support of the EMS Compact (REPLICA) provisions in HB 352, SB 256, and SB 281 and urge you to pass this legislation.

Joining the EMS Compact will strengthen Alaska's EMS workforce, improve our disaster response capability, and support military-connected EMS families in our state.

As EMS Director of a service, I look forward to easier integration of (and fewer barriers for) seasonal and relief workers who come to Alaska.

Thank you for your service to Alaska.

Respectfully,  
Julie Anderson  
Haines, AK, Alaska
