Esteemed Education Committee,

I am writing to you to ask that you please do NOT vote for house bill 105. This bill will only hurt Alaskan children and is a despicable piece of legislation. Please advocate for our children, please help us, help all Alaskans by voting no on HB 105. Children will be hurt by this bill if it goes into effect. Trans youth are already at an extremely elevated risk of suicide and homelessness as it is and if they are forcibly outed at school due to this bill those rates will only increase. Please protect kids and vote NO.

Sincerely,

Claire Moreland

Dear House Education Committee,

Please support this bill and the parental rights of our precious Alaskan school children. I am a grandmother of nine Alaskan-born grandchildren, four of which are still school aged. We want to protect them from the dangerous agenda of the trans community. They deserve to be educated in a safe environment, free from pressure to conform to radical “gender affirming” propaganda and free from having their privacy violated by the opposite sex being in their bathrooms. Parents rights need to be strengthened and protected.

Thank you,
Terry L Palmer

Subject: Written support AGAINST HB 105 and Support FOR HB 99

Dear State of Alaska Legislators,

I am writing to strongly urge you to vote against any proposed bill that would put LGBTQ+ students at risk, including **HB 105/SB 96**, the so called "Parental Rights in Education" bill proposed by Governor Dunleavy. LGBTQ+ youth are some of the most vulnerable members of our society, and they face unique challenges and barriers to success that can be exacerbated by discrimination and stigma. The changes proposed in HB 105/SB 96 makes this population even more vulnerable.

In Alaska, these bills send a harmful message to LGBTQ+ youth that they are not valued or accepted in our communities, and they would put their health, safety, and well-being at risk.

Research has consistently shown that LGBTQ+ youth experience higher rates of mental health issues, including depression, anxiety, and suicidal ideation. Discrimination and stigma can exacerbate these issues and create additional barriers to success, including lower academic achievement, higher absenteeism, and social isolation.

As legislators, you have the power and responsibility to create policies and practices that promote equality, justice, and safety for all students, including those who identify as LGBTQ+. I urge you to use this power wisely and to vote against any bill that would put these students at risk.

Instead, I encourage you to support policies and practices that create safe and inclusive environments for all Alaskans, regardless of their sexual orientation or gender identity. This can involve adopting inclusive sex education requirements and anti-bullying policies that specifically address LGBTQ+ harassment, ensuring that school staff receive training on LGBTQ+ issues, and providing resources and support for LGBTQ+ students who may be struggling.

This also includes supporting legislation like HB 99, which would work to prohibit discrimination based on sexual orientation or gender identity or expression across our state.

By taking these steps, we can help ensure that all students, and all Alaskans, have the opportunity to succeed and thrive, regardless of their sexual orientation or gender identity. Thank you for your attention to these important issues.

Sincerely,

Kyla Hovda

I understand that the second public hearing for House Bill 105 is Thursday, April 13th at 5:15pm. I am writing in support of House Bill 105 which, as I understand it does three very simple things -

- 1) Prevents public schools from **hiding** a child's sexual identity or health records from parents,
- 2) Requires **parental permission** before educators discuss any sexual matters with students.
- 3) Ensures that schools **separate** locker rooms and restrooms according to biological sex at birth.

I am a long time RN and worked for many years in pediatric well care and school nursing. I am fully in support of the above three purposes of House Bill 105.

Dear Committee,

It's puzzles me as to why I even have to write a letter telling other adults that we need to support parental rights in our children's education. It is common sense that children should not be subjected to some of the wicked things that are happening in our schools today. It is my wish that you would support the passage of HB 105 the Parental Rights Bill. People entrust their children to be educated in government schools. Please do your best to ensure that they are being educated in reading, writing, and arithmetic, not that they be indoctrinated for political reasons. Unions and lobbyists generally do not speak for the parents. Please hear my voice as a concerned parent. These kids are our future.

Thank you for your time, Sydney Wetzel

Subject: HB105 Parental Rights - Please Say YES to Parental Rights

Dear Committee Members,

Thank you for allowing additional public testimony on this important HB105. I strongly support parental rights over our own children!! I have heard that it is 4:1 in not passing protection for the family unit. I have to ask how many **parents** are saying "Of course we want the government to have more and more control over every aspect of our lives" in that 4:1 ratio??? I hope that the committee is not just looking at the numbers but will strip back all the noise and clamoring of very loud voices to see the basic issue here. Whether one believes it or not, God created the family unit to partner with Him in governing our world. The enemy's job is to undermine that in every way. Look at what has happened since God was removed from this equation called life. Society's moral decay, where everyone is their own god and anything goes. So much pressure to know what is truth and how to vote . . . keeping it very simple and foundational . . . are these decisions in line with Biblical principles, will it help society draw closer to God by protecting God designed families and will these laws bring glory to God??

On another note, personally, I am so busy working, helping my family and their children that as much as I want to stay involved, there just isn't enough time in a day.

Subject: House Bill 105

Hello,

I am writing in support of House Bill 105. I have 4 children and I'm very concerned with the way our public schools are headed, not only in this entire country but Juneau seems to be following the same pattern. I have already taken two of my kids out and placed them in private. I have one more in public that I've considered taking out as well. I strongly support this bill being voted into law.

Many other parents that don't have the choice to send their kids to private schools I've heard are considering home schooling or creating a new private school. I believe if this bill is not passed, there will be a large number of parents taking action and the Juneau School District will be hurting even more. We must protect our children. I know of one instance where a little boy was changing with girls and the girls were very upset. This is NOT OK.

Best,
Paige Sipniewski

To: House Education
Subject: My thoughts on HB 105 (a voting parent).

To the House Education Committee:

I am so glad that this bill has been created. Please pass this bill.

What has been happening in our culture is one thing, and the parents are the last line of defense for children.

There is so much science to support that children are not developed enough to make major decisions for themselves - and these LIFE ALTERING decisions should NOT be made by children, or supported by those that children trust, for choices that CANNOT be undone.

The purpose of government is to maintain order and protect our borders, not to raise our children. I will answer to God for how I raise my children, and as a point of religious freedom, I do NOT consider that the government has a voice in my parenting.

Parents have a right to know everything that goes on with their children. Full disclosure must be required.

Parents must be allowed to opt in or out of sex ed, have a right to know what the curriculum will be and review it before they allow or disallow it.

Permission slips must be required for school activities.

School is an extension of the home, for helping educate and train developing humans. School is NOT an extension of government.

Safety should be of paramount concern, both physically and psychologically. I will not use public restrooms as an adult in places where opposite sex at birth is welcome, and children's natural inborn safety intuition should NOT be violated in this (or any other) way. Restrooms need to be available for the biological gender people are born with.

Families are under assault today. Please pass this bill to protect children's rights to safety.

I am a Realtor in the valley, and I know a lot of people. Most people do not support this blatant disregard for children's rights to safety that is being forced on us today. The only people who think these changes are a good idea, are the noisy few.

Don't give in to the pressure! Do the RIGHT THING! Please pass this bill.

Warmly,

Karen Ross

Sincerely,

Margaret Loew

Our legislators need to know Alaskans have a voice for our children! Don't let the minority overshadow the majority! Rally your friends for PARENTAL RIGHTS!

The bill's second public hearing is Thursday, April 13th at 5:15 pm. It does three very simple things -

1. Prevents public schools from **hiding** a child's sexual identity or health records from parents,
2. Requires parental permission **before** educators discuss any sexual matter with students.
3. Ensures that schools **separate** locker rooms and restrooms according to biological sex at birth.

Testimony at the first public hearing in the House Education Committee was overwhelmingly opposed to the bill, thanks to educational unions, LGBTQ activist organizations and groups like Planned Parenthood urging their supporters to call, email and write against the parental rights bill.

If you are able to call in for the next hearing this Thursday, that's great, but a written email is just as effective and can be done at your convenience. The

Committee members simply need to know there is widespread support for parental rights in Alaska and that H 105 is the vehicle for making that happen.

From: Roger & Tammy Rowland <[REDACTED]>
Sent: Wednesday, April 12, 2023 10:39 AM
To: House Education
Subject: HB105

Hello,

I ask that you not strip parents of their rights to know what is going on with their children at school. It is important that schools not teach children to lie and hide things from their parents. Once children are taught to lie and hide things, they will lie and hide things the rest of their lives.

If parents don't know what is going on with the health of their children, how can they get them medical help. Additionally, if a child is trying to change gender, the parents have a right to know.

I ask that you require the schools to get parental permission before speaking about sexual matters with the children. After all, they are children and should be protected from being over-sexualized at a young age. Instead, they should be learning to read, write, & do arithmetic. If we are so concerned about teenage pregnancy, date rape, etc., why are we teaching sex ed to children. My husband and I were the ones that explained sex to our children when they asked questions & were ready to emotionally deal with it.

Children should have separate locker rooms according to the sexual gender at birth. Children have a right to feel safe & secure.

Parents need to know what is going on with their children so they can better equip them to make wise decisions and guide them as they become an adult.

Please support HB105.

Regards,
Roger & Tammy Rowland

Subject: Support for Parental Rights in Alaska via House Bill 105

Good day,

As today is the second public hearing regarding an extremely important topic, I wish to voice my absolute support for HB 105, which would protect and affirm my rights as a mother of three children residing here in Alaska. This bill introduced by Governor Dunleavy is in accordance with the values of the state of Alaska and seeks to protect the rights of parents and children in the midst of an ongoing assault against the family taking place all over our country.

Parents ABSOLUTELY have the right to know if their child is struggling with sexual identity or sexual health issues. Schools do NOT, under any circumstance, have the right to hide this from parents and/or counsel students privately regarding issues which are this significant and potentially life altering.

Schools SHOULD require parental permission before educators discuss ANY sexual matters with child(ren). At the very least, notification must be provided beforehand and parents given the option to opt their child out of such curriculum or discussions.

Schools MUST ensure that there are separate locker rooms and restrooms according to biological sex present at birth to protect the privacy of students and keep them safe. Students identifying as anything other than their biological sex present at birth may be offered private single spaces for these purposes; but they must not be granted access to male or female only spaces if it is not in accordance with their biological sex.

While educational unions, LGBTQ activist organizations, and groups like Planned Parenthood are lobbying hard against this bill, please be certain that the VAST majority of parents within the state of Alaska, including myself, adamantly support this bill and believe it MUST be passed in order to protect the rights of mothers and fathers to raise their children free of the threat of indoctrination with ideologies that do not agree with their worldviews and viewpoints.

This is the absolute least that should be done to safeguard our children and parental rights. There is literally no valid reason not to pass this bill, if this committee does in fact believe that parents should be able to have a say in their children's education. Also, the committee must support this bill if the members believe that students should have safe spaces in their school where they can be comfortable in vulnerable states, such as in restrooms and locker rooms.

Thank you for your time and consideration.

Respectfully,
Kristin McBride

Subject: HB 105

Good day,

I am in support of house bill 105. This bill would protect and the rights of parents to control what their children are taught and exposed to in the school and classroom, primarily in the subject of sex education. The opinions people do differ greatly in how this subject is handled, to what is acceptable to be taught and at what grade level it is even appropriate and acceptable for the subject of sexual reproduction to be introduced. This is the sole right of the parents! And for them to decide for their children and families on how to handle this subject, when and to what extent it is appropriate to introduce to their children. Not the government, not the school district, not the school board or even a teacher!

Subject: HB105 Support

To Whom it May Concern:

I am a mother of several elementary-aged children.

The purpose of my email is to express my deep concern regarding the promotion of gender ideology that is permeating public schools across the nation, including Alaska.

In 2017, the American College of Pediatricians, stated that gender ideology harms children and “urged healthcare professionals, educators and legislators to reject all policies that condition children to accept as normal a life of chemical and surgical impersonation of the opposite sex.” The ACP went on to state that “conditioning children into believing that a lifetime of chemical and surgical impersonation of the opposite sex is normal and healthful is child abuse. Endorsing gender discord as normal via public education and legal policies will confuse children and parents, leading more children to present to “gender clinics” where they will be given puberty-blocking drugs. This, in turn virtually ensures they will “choose” a lifetime of carcinogenic and otherwise toxic cross-sex hormones, and likely consider unnecessary surgical mutilation of their healthy body parts as young adults. What compassionate and reasonable person would condemn young children to this fate knowing that after puberty as many as 88% of girls and 98% of boys will eventually accept reality and achieve a state of mental and physical health.”

In closing, the gender ideology which is currently being promoted by public schools seeks to promote sexual ideologies which are unfit for the minds of our children. These themes should not be introduced to children and these adult subjects have no place in public schools.

I support HB105, the parental rights bill for the following reasons:

- 1) I support HB105 because it prevents public schools from hiding a child’s sexual identity or health records from parents.
- 2) I support HB105 because it requires parental permission before educators discuss any sexual matters with students.

3) I support HB105 because it ensures that schools separate locker rooms and restrooms according to biological sex at birth.

Respectfully,

Whitney Wigren

Subject: HB 105 support

Hi, my name is Laura Mikkelsen. I am a life long Alaskan mother and grandmother and just adopted a 7 year old. I have been through the school system myself, raised biological children and am back into the system with my youngest. I am in full support of HB 105! I think it is such a basic bill that there should be no question! Protect our families!!!! Families have their rights and parents should have full input and say in raising their children. We trust schools to educate our kids in reading, writing, and arithmetic. It is an abuse of trust to dabble in distortions. Sexual orientation issues are mental health disorders and I strongly believe they need to be kept away from children. I am appalled that we are at this place in our society. Please protect our children and the rights of parents!!!!

Subject: Protect our children

Hi,

I am a life long Alaska Resident, and I am in support of the parental rights bill HB105. I do not have any kids of my own, so this is unbiased, yet I have cousins, nieces, and nephews. I believe that parents should be 100% involved in every aspect of their child's education as they have put the most sacrifice and investment into their children and in most cases, know what is best for their kids. Truth is that there are two genders assigned at birth by undeniable biological differences, male and female. Any additions or changes to this truth are false and only add confusion which slow and degrade our society. The education system should be teaching facts and not opinions and if they are tempting to hide anything from parents, that should be the first red flag of an immoral system.

Thanks
Caleb Mikkelsen

Subject: HB 105

Hello,

I support HB 105.

There has been a call out for people to call or send an email to oppose this bill. From what I see on social media it seems very few have actual read this bill. Based on Planned Parenthood of Alaska this is a horrible/harmful bill and kids need to have Joy at school.

This bill appears to provide transparency between parents/students and their teachers. It is not a schools or teachers job to give kids "joy" or teach them about sex or teach them to hide things from their parents. It is their job to teach them math, reading, and English to name a few. Which most schools in Alaska appear to be doing a poor job at. The parents ultimately are responsible for their children and need to have a say in their children's education and know what a school is teaching their children.

Additionally, there should be separate locker rooms and restrooms based on a student's biological sex. This bill allows for a single use space. Which as an addition would be fine. Teenage girls need to have safe space. Don't bow down to the hate and noise of those opposing this. Please pass this bill!

Sincerely,
Brenda Cox

Subject: Please Pass HB 99/SB108: LGBTQ+ Equality and Oppose HB 105/SB96

Dear Alaska House Education Committee,

Please pass HB 99/SB 108: LGBTQ+ Equality and oppose HB 105/SB96, Governor Dunleavy's attack on LGBTQ+ youth.

All students deserve to be given info to make their own choices. Parents can and should participate in family discussions. I led these discussions for many years, the day before classes were to be held--so that parents could educate themselves and know what the discussions would be in school so that they could follow up at home. Please don't take this away from children and families - who often feel uncomfortable otherwise, bringing it up at all til a crisis occurs.

Also, LGBTQ+ Alaskans deserve equality, period. LGBTQ+ Alaskans are our friends, neighbors, family, and coworkers. When it comes to being able to earn a living, having a place to live, or being served by a business or government office, they should be treated like anyone else and not be discriminated against.

I urge you to pass HB 99/SB108: LGBTQ+ Equality.

Governor Dunleavy's HB 105/SB96 is an attack on LGBTQ+ youth and will undoubtedly increase bullying, harassment, and stigmatization towards trans students in particular. Through this bill, Dunleavy is attacking Alaska students' sense of safety, making it extremely difficult for LGBTQ+ kids to live healthy and safe lives. All kids deserve to be safe at school. Trans youth should be treated with dignity and respect and should have the opportunity to live a healthy life.

To protect all students' privacy and health, I urge you to oppose HB 105/SB96.

Thank you for your time.

Sincerely,

Sharon Whytal, RN

OMG i am dyslexic HB 105

On Thu, Apr 13, 2023 at 12:27 AM Sarah DM Short <[REDACTED]> wrote:

Support HB 150 the parental rights protection. Support this bill. I love that you are working hard to lead us to a future where all are protected starting with our children. Help families protect their rights as your parents had theirs protected. I know you care about growing our economy and protecting our families. Not exposing our "children" to sexuality is not going to hurt our LGBTQ loved ones. I have two daughter who think they are. I love them still even if this was not my dream for them. I am glad they had their childhood. Would you want me or some stranger teaching your kids complicated birds and bees at an age when you are still their guardian? I kind of doubt that We can do better to protect this community without placing it in the hands of children who do not want or need this information and without stripping parents of their rights. I do not expect all people to follow my faith but I do expect my God given rights to parent to be mine before they belong to any government or school. We can find ways to protect kids who ARE being bullied or hurt because of sexual preference without confusing the ones who are raised differently.

HB 77 is a catastrophic blow to low income families, the community and discriminatory against those who have not had access or time to enrich their lives through education so they can do a better job taking care of the property they may own. It is horrific that we are going to give tax breaks to commercial properties or newer properties while we tax the poor. Let's just think about this for a moment. Taxing the poor and enriching the rich will result in more potential homelessness. This is so similar to what the Boston Tea Party was for Did we not become a free country to avoid stuff like this? If you can do something to stop this you should. There are lots of people who have lost businesses and ways to earn a living over the last few years. Do we really need to allow people with money to be able to come scoop up a home because someone could not paint or make repairs and then got taxed on top of them experiencing a financial hardship. HOW does that help our community? I am appalled. This has got to stop and we have got to start helping people. These are taxpayers most who may be struggling. How is it that we can pay millions of dollars to house the homeless but we cannot help TAX PAYING RESIDENTS by giving them some resources to make improvements. Please take a look at Anchorages muni.org tax appraisal and see 207 Muldoon rd. The old Ramada Ltd now a low income condo with I believe 12 units. Last year it was valued at \$980,000 and this year it dropped to \$280,000 which is less than the value of my single family home but earns a heck of a lot more for the director Nick Tschibaka being one. It has been recently renovated and is beautiful. My 1970s home with no view went up in tax appraisal value 36,000 in one year. Forest Dunbar's much newer condo went down in value 1900. This type of equality is killing our country, state and city. I take good care of my property and yes sometimes I wish my neighbor down the road did a better job but maybe instead of being taxed he needs a hand. Private property is just that. Forrest Dunbar is thinking like an arrogant assembly person not like a true resident of the wild frontier or Alaska and he is ignoring the economic hardship this will place on the most at risk families.

Alaska is in dire straits after the pandemic. We have lost jobs, homes and more. More people than ever are combating the fallout effects of loss with substance use. A huge portion of our homeless population is dealing with substance abuse and addiction. We need more Licensed psychiatrists and counselors and some good treatment centers. They need to be signed in and commit to 8-12 weeks lockdown treatment and then offered another 8-12 weeks of in-patients. The first 72 hours they will want to leave due to drug induced paranoia and psychosis which is why the initial

lock down is a must. Once they sign that paper they might have a chance at a real life. We have lost our faith and have taken so much away from parents, tax payers and communities and yet we are unwilling to do something to address the root cause issue. We have to deal with what causes people to become homeless, not add more taxation to them so they lose more of their pursuit of happiness. Please consider a town hall or a week of town halls throughout Alaska. We need you to step up and say no to some of these frivolous laws and yes the things that make Alaska great for raising well balanced families and protecting parental rights. Do unto the people as if it were your family. Imposing hardships is not the right thing when people who do not pay taxes are being housed at the cost of millions to taxpayers. address the root cause issues please. Set up an advisory council for the drug issues and family impacts this will have. VOTE NO

I have a daughter who is one of those homeless addicts. Housing will not save her only treatment IF she asks for it will. SO please give my daughter and others like her a chance and set up some good treatment centers. They need assessments within hours not months, and a bed within a day or so. No more money for free housing without gates. Thank you.

Dear Representative Allard,

I am in support of HB105 and I wish to express my desire for this bill to pass. It is important that parents take back their rights in choosing for their children and those they are responsible for.

It should be up to the parents to provide authorization for anyone to be speaking about anything related to sex ed to their minor children. The school district's overreach has gotten out of hand and needs to be curtailed. HB105 is trying to protect our children.. something the school districts are not doing.

Thank you for taking the time to read my email. I unfortunately will not be able to call in tonight but wanted to express my opinion on this matter.

Dear Representatives and Senators

Thanks for your service in Juneau. A capital city not for most Alaskans.

Support HB105

HB105 requires parental notification and permission to participate in sexual education, including gender identity, and to change a student's name. HB105 protects all children by establishing that parents, not school personnel, have the authority in a child's education.

This is the right action to take and the right time.

Sincerely,

Steve Carhart

To: Rep. Jamie Allard
Subject: A letter in support of HB 105

Dear Jamie Allard,

I have been an educator for over 30 years in the Alaska public school system. From my early days as a teacher in bush Alaska in the Northwest Arctic School to my latter days as a principal within the Anchorage School District, I have been an advocate for what is best for students and families. House Bill #105 is designed to help protect one of the most important pieces of the educational triangle (school, student, parents) — the **parents** role in being involved with their child's education. I am speaking not only as an educator, but as a parent of 4 children that were products of the Anchorage School District. Fundamentally as an educator I value providing access to all, but especially parents, to what is being taught within the walls of our schools. Without that, we wind up with a much weaker and less robust educational body.

Please read this letter as being 100% in favor of House Bill 105!

Sincerely yours,

Gregory Balcao, retired Alaskan educator
