Subject: Please Pass HB 314

Dear Rep. Olson,

I am an Eagle River resident and an interior designer. I am writing to express my support for HB 314 personally and as a member of the interior design community.

The registration of interior designers protects the health, safety, and welfare of Alaskans. NCIDQ-certified interior designers are trained and tested professionals whose work directly impacts building code compliance, life safety systems, accessibility, and occupant wellbeing. Formal recognition under the AELS Board ensures accountability and professional standards for the built environment.

Please pass HB 314, Extend AELS Board; Register Interior Designers.

Thank you for your time and consideration of this important legislation.

Sincerely,

Melissa Wiltfong

Interior Designer

Eagle River, Alaska
