Subject: HB 25 - Styrofoam ToGo needs to go

Chair, Vice-Chair, Senators,

HB 25 will be heard in your committee this Monday, May 11.

It's not good commentary when legislators believe business profit is more important than prohibiting styrofoam, a known cancer-causing hot food to-go container. But, it's not unusual in these times when corporate capitalism makes those types of decisions on a daily basis and de-regulation happens without a thought to environmental and human harm.

But this is Alaska, we're small beans, comparatively. I hope you will pass this out of committee and get a floor vote to get this bill passed before the end of session.

Consumers everywhere would prefer it. Some of us avoid small business restaurants due to their use of styrofoam.

Thank you,
Therese Lewandowski
