Subject: HB222

Good Afternoon House Judiciary Committee Members,

Alaska Gun Rights opposes HB222, it is a back door Red Flag Law.

This bill if it became law would have the potential to create significant financial impacts on citizens with limited due process or recourse.

Is basically no different than the Red Flag Law. With little or no evidence a disgruntled coworker can file for an “Extreme Risk Protection Order” (ERPO) against a law-abiding gun owner. From there, an ex parte hearing (In emergency situations, an ex parte motion provides an exception to the rules of due process by allowing you to petition the court without having to notify or serve the other parties involved in your case) is held –where a judge can determine if an ERPO can be issued—this process happens without any notice or knowledge of it even happening. If the judge issues the order, law enforcement can seize legally-owned firearms without any warning. Worse yet, if the gun owner wants to get their rights (and guns) back, it will take significant time and money to prove their innocence in civil court.

“Red Flag” laws blatantly violate not only the Second Amendment, but also the Fourth Amendment’s due process clause as well.

Even with no semblance of a crime, the right to bear arms could be lost indefinitely.

Regards,

Rick McClure

Subject: Stop "Snitch and Seize" Gun Confiscation

House Judiciary Committee,

Below is a petition opposing Senate Bill 49 / House Bill 222.

Whereas: "Snitch & Seize" Gun Confiscation bills pits Alaskans against each other in an Orwellian surveillance state that strips Alaskans of their rights, liberties, property, and their firearms;

Whereas: SB 49/HB 222 incentivizes *targeting, silencing,* and *disarming* Alaskans by *anonymous accusers without trial* or *jury*;

Whereas: any "Pre-Crime Gun Grab" law will violate law-abiding gun owners' due process and Second Amendment rights;

Therefore: As your constituent, I urge you to *reject this unconstitutional and dangerous bill.*
