Anthony Messina	Anchorage	AK	99518	1/3 of Gen Z has been lost due to Abortion and 2024 1.4 Million children were murdered In their mother's wombs before they had a chance to live. Abortion is the single greatest human rights abuse because it denies a person the most essential right: the Right to Life. Without defending this right, you by signing this bill, perpetuate violation against natural and divine Law which leads to all other human rights abuses. Life is about choices, and those choices must be made in accordance to just law, and those cannot be allowed to harm and deprive others of their basic rights. We The People implore that righteous judgment be cast and this bill denied victory over the most innocent among us.	2026-05-16 13:48:11

Wendy Monrad	Anchorage	AK	99516	Abortion pill expansion to pharmacists is not in the best interests of Alaskans. It is very dangerous practice to prescribe these medications without proper medical evaluation (+ pregnancy test and ultrasound confirming gestational age) - neither of which is within the scope of pharmacists. These are legend prescriptive medications that require a medical provider to prescribe. Pharmacists fill prescriptions - they don't, nor should they be allowed to write them. SB147/HB195 are dangerous and unnecessary legislation. Please do not support or vote yes on these bills.	2025-07-06 17:01:25

Grace Satulla	Wasilla	AK	99654	Abortion pills kill. Yeah they kill babies but they also kill moms. They are not safe to be taken at home without supervision of a doctor. I don't think making aborting your baby this easy is good for humankind. It's a decision that should be well thought out and should at least be done with a caring doctor around who at least cares about the mom because we know they obviously don't care about babies. These pills do more harm than good. Not worth the risk. Moms need to be taken better care of than this	2025-06-04 23:13:11
Nickole Stalnaker	Big Lake	AK	99623	Alaska has two places to access abortions. This bill is wrong.	2026-02-17

Shanna Courson	Anchorage	AK	99504	All life is precious and a gift from God. We should not be poisoning babies to death with chemicals. This is evil.	2025-12-30
Cathy Medland	Eagle River	AK	99577	Allowing abortion pills to be sent by mail is a horrible idea! There are groups that want this to be done without a pregnant woman ever seeing a physician, or having an ultrasound to confirm the pregnancy is in the uterus, (which could result in ectopic pregnancies never being treated correctly with surgery), and women WILL die!	2026-04-20 06:04:21
				Also, without having an ultrasound, there is no way of knowing how far along the pregnancy is, and babies can be aborted at any time, at any gestation, which is truly dangerous and a horrific experience for a woman to do at home, in a hotel room, or at school, without any medical help available.	
				This is not healthcare, this is not compassion, and in addition, guess where those aborted babies end up? In our water system, and clogging, drains and sewers, and what are the environmental hazards of having dead babies in your drinking water?	
				This is a horrible idea, and should never be allowed to happen in our society! Please stop this heinous proposal now!!	
Maria Combe	Fairbanks	AK	99709	Allowing pharmacists to prescribe dangerous drugs is a recipe for disaster. If it should become mandatory, conscience rights will be violated. Meanwhile, unprincipled pharmacists could use their power to prescribe narcotics to their friends, or honest ones could be compelled to write such prescriptions by force. Abortion-inducing medication could be prescribed without a doctor's oversight and with no follow-up care, endangering not only the fetus but also the woman. Please vote NO on SB 174.	2025-05-09 16:58:51

Can you honestly say that is representing the best interest of your constituents???? NO You can do something to stop this . Remove your sponsorship of SB174 Do the right thing Cathy. Jan Deland	Anchorage	AK	99507	Chemical abortions are essentially human pesticides and letting pharmacists become abortionist would greatly increase the harm and even death of women. Already Alaska has paid for more native babies to be killed than other races relative to their numbers in the population which is genocide and this bill would expand. Ryan Hokuf	Sutton	AK	99674	Every Mifepristone tablet kills a baby. One in 10 Mifepristone tablets cause serious or life-threatening complications for the women that take them. The risk to women in rural and remote Alaska is too great - serious complications where women are separated from emergency rooms and hospitals by boats, ferries, and planes may prove fatal for those women. Expanding Mifepristone access is deadly to babies and dangerous for mothers. Expanding pharmacist authority in any way that could expand access to Mifepristone or any other abortion inducing drug is unacceptable and this bill must fail in the Finance Committee. The only advocates for HB 195 are BIG Abortion and BIG Pharma - who will risk losing the all of the bill's promised benefits for Abortion Pill expansion.	2026-04-13 11:54:25

James Kvidera	Anchorage	AK	99502	First these drugs simply put do cause HARM to the women they are 'prescribed' to. (why are we circumventing the DR's authority to prescribe medicine? Does this not open a slippery slope and set a terrible precedent?) After care is not available here as these women are not followed-up with any kind of continual or ongoing care (they are left to hemorrhage on their own and hopefully not have any issues). Individually these drugs are just DANGEROUS - 1 in 10 have side effects - allowing the distribution of drugs of this nature like this is just EVIL. (Full Stop) PLEASE STOP PROMOTING THE CULTURE OF DEATH AND LETS TALK ABOUT THE REAL ISSUE - LACK OF KNOWLEDGE WHEN IT COMES TO REPORODUCTION, LACK OF SELF CONTROL, LACK OF SELF RESPECT AND SELF AWARENESS. You cannot litigate your way to morality - that is a CHOICE each one of us make on our own and we need to communicate this to the next generation - All choices have consequences and we are not immune from them - Choosing to support HB 195 or SB 147 make you, (and now pharmacists too) accessories in the killing of the unborn and additional harm to Alaskan women. If you support this effort in any way - look in the mirror - you are promoting the culture of death.	2026-03-11 11:28:09

Stephen Simmons	Anchorage	AK	99508	For fifty plus years we as a nation have had to live under a tyrannical opinion of a court that supported a lie. Many different euphemism's, lies, and excuses were given to support the misconception and bury the truth. The lies have been exposed. And finally, in 2024, the supreme court affirmed what everyone already knew that there is not basis in the foundational documents of the United States to support murdering the pre-born. Yet here we are again, with proposed legislation from an Alaska Senate Majority Leader pushing more ideology directly linked to the culture of death. Cathy Geissel, you should go out and get yourself a Nazi Death Head pin you can wear on your lapel. That way everyone can see where you stand. The majority of the nation is opposed to abortion, but here you are trying to peddle a dangerous and deadly snake oil. Approval of such a measure will have devastating effects on the people you serve, but then maybe that is the purpose. Maybe this is just another attempt to kill the Indian, but not save the man. People suffer tremendous hardships, complications, and even death from complications that arise from the use of these drugs, but those stories get buried in the mainstream. The full facts and risks to the Women are never fully revealed. Cathy Giessel, I oppose your efforts to impose the culture of death on the people of Alaska with this and any legislation that promotes killing our most vulnerable and the future of Alaska, our children. You should resign. Law making of this nature is immoral and unjust, and therefore is not a law at all. You are wasting our time and resources on phony legislation.	2025-12-14 17:35:41

Cathy Medland	Eagle River	AK	99577	Giving pharmacists the ability to kill babies without even evaluating the mother is insane and dangerous! As a former Obstetrics RN, beyond a shadow of a doubt, from the moment of conception, it is a human life, as any kindergartener could tell you by looking at the baby. The abortion pill is causing many issues, including killing babies way past the "intended"range (for which the pill was approved), being used as a murder weapon for fathers who do not wish to be fathers, who put it in the pregnant woman's drink or food so that they kill the baby without even knowing they've taken something; it also creates huge plumbing problems when there is a baby in the drain that has to come out! I feel for the poor plumbers! 🙄😞🙏 Also, what are all these dead babies doing to our drinking water? Can you imagine anything more gross and horrible than drinking water that has had dead babies in it? Obviously, there is not a single good reason to pass this bill. Kathy Giselle should be ashamed of herself for even putting it forth. Planned Parenthood is an evil organization seeking to make money by killing babies, and should be defunded immediately!!	2025-05-09 16:31:03

Andrea Peterson	Palmer	AK	99645	Having taken misoprostal myself after a miscarriage, I can attest to the fact that nothing about this drug is safe or gentle and it should not be easy to get. Plus unborn lives are precious to God and we should not have the power to end any life. When I took misoprostal, I experienced extreme cramping for 10 hours straight, vomited twice, and had a lot of bleeding. I was only 6 weeks pregnant when I miscarried. This drug can be give up until 9 or 10 weeks at which point the side effects would be even worse. Not to mention the empty damage of losing a baby which is always hard whether you miscarry or end it with abortion. I oppose this bill!	2025-05-09 14:43:49

Steve Maillly	Glennallen	AK	99588	How does one define a traitor? Showing examples might be the easiest way to describe one: A conservative, patriot, or "Alaska first" politician/representative who looks the other way while an abortifacient is snuck into a bill under his/her nose. No apologetic is needed to conclude that the Christian influence of our forebears informed their intent to live as a people who do all before the face of God, not in His face with murderous intent, which He will never bless. I think many of us can see that now. Nothing gained by conveniently looking the other way because an abortifacient is more "low key" than an abortion with murderous instruments in a facility. Multi-cell humans die either way and the authors of our republic and respective states explicitly stated that God Himself judges nations in this life, for a nation has no next life. So what is that last sentence? Its called "intent" and more law makers need to embrace it or else the God of heaven and earth, not me, has an ultimatum to deliver. Also, just like terms such as "plausible deniability" and "evidence based" and "teleology" and "historiography" and "ultimatum", "intent" is a hated or at least unknown term in our ignorant society (but we are waking up, right Governor Dunleavy)? Term "liberty-in-law" is also an understated term in our woke and RINO society. It implies a transcendent, divine law which can be either a source of true liberty, or else true judgement. The pro-choice people and their sleepy accomplices out have no problem embracing that. Choose life and/or wake up and stand in the truth.	2025-07-06 19:18:40

Kristy Harrington	Anchorage	AK	99508	Human life should not be extinguished so easily. Not even having a Dr involved to make sure beforehand, that other than the psychological aspect of how killing her baby may harm her for life, that no physical harm will come to her, So how would you even monitor how far along a baby is if pharmacists are just allowed to hand out pills. You cant even purchase contraceptive pills without a Drs prescription. I want no part in the industry of killing babies. My tax money should not be going to ABORTIONS. If someone makes that choice they can should be the ones paying for it...I am ashamed to say we in Alaska are one of the few states that allow abortion up to birth. Changing the legislation that allows abortion needs to be brought forward, not trying to make it easier.	2025-05-09 12:09:10

Barbara Tyndall	Fairbanks	AK	99708	I am urging you to vote NO on SB 147 and or HB 195, opening the way for chemical abortions across our state. Last summer, a young woman I know well, was given the abortion pill when it was discovered her baby had died in her womb. That night, she woke up with tremendous pain and bleeding. Her husband rushed her to the hospital where she was kept for several days. If she had not gone into the hospital that night, she would have bled to death. When I think of these pills going anywhere, but especially to our rural towns and villages, far from medical care and blood supplies, I am appalled that you would consider this for a moment. I am strongly opposed to killing babies in the womb but I am also emphatically opposed to murdering pregnant mothers. This bill has law suit written all over it.	2026-02-16 12:11:03

Carol Allums	Wasilla	AK	99687	I am writing to urge our legislators to vote against SB 147. As I read down the list of bills introduced in this legislative session, I saw just about every subject possible covered, except for the most important one. The most pressing issue we face in this state is a lack of unified respect for life. If we cannot cultivate basic respect for life, then we are wasting our time with everything else. Ask yourselves something. Why is it important to have, for instance, education for the visually impaired or anti-discrimination laws, or any law for that matter? We have laws to establish the standards of our culture and to maintain a moral and financial environment for our citizens. I cannot figure out why we leave basic respect for all humans by the wayside. In this state, for years, legislators have gone to work and claimed they are working to improve life for their constituents. But an important group of constituents is not being considered, and that is our preborn children. That is blatant discrimination and also constitutes hypocrisy on the part of any legislators who supports pro-abortion legislation. I ask that each legislator, before voting in support of this bill, go home, look at their children, and try to find a reason that their children deserved to live. If you can find a reason, then you must vote against abortion, or you are guilty of discrimination. The one absolute attribute of a fair law is that it applies equally to all. If it is wrong to kill one person, it is wrong to kill another. The age or location of the person is not relevant, and shifting the issue to pharmacies does not erase the culpability of anyone participating. Life is life, and presuming the authority to end a life at will is wrong.	2025-05-28 21:30:23

Margaret Reitter	Kenai	AK	99611	I beg you to vote NO on this tragic bill to allow such horrible treatment of pregnant women and unborn babies here in Alaska. I feel it is aiding and abetting willful murder, and results in mental cruelty for the mothers to have to live with knowing they have killed a human being. There are many many families who are more than willing and wanting to help them raise their child, or if that's not an option, to adopt them and give them a chance to live a fruitful life. Thank you	2026-02-16 20:59:53

Gina Senko	Anchorage	AK	99515	I call on every elected official in Alaska to: OPPOSE HB 195 / SB 147. It's a poison pill for ALL Alaskans. Vote DO NOT PASS or NAY on HB 195 / SB 147 until the bill(s) completely eliminate any authority for progesterone receptor modulating drugs such as mifepristone to be prescribed, administered, OR dispensed in Alaska. Defend the most vulnerable—without apology, exception, or compromise.	2026-04-12 18:50:23
Sherry Wright	Anchorage	AK	99508	I can't imagine how a woman will cope with not only the loss of her child, but also having to dispose of their body. If you want to see the suicide rate increased, which it will, by all means support this death bill. But if you truly care about women's health, which includes physical, emotional, mental and spiritual, you will oppose it with all your might.	2025-07-04 11:10:45
Sherry Wright	Anchorage	AK	99514	I can't imagine how a woman is going to process the aftermath of seeing her own child in a pool of blood. And then having to dispose their little body. There is enough trauma with abortion when someone else does the dirty work. You need to think long and hard about passing anything that promotes abortion. Look online - there are literally MILLIONS of web pages dedicated to post-abortive women's issues. The sheer volume of that should cause you to pause and reflect. There is enough trauma in this world without this very personal one, that MANY women carry silently for years. It can affect bonding with future children, sterility, create suicidal tendencies, depression, anger - a host of unwanted consequences.	2026-05-06 11:13:00
Pam May	Copper Center	AK	99573	I disagree 1000% with her agenda!	2025-05-13
Ashley Viens	Wasilla	AK	99654	I do not agree that this is a benefit to woman and should not be allowed.	2026-02-17
Destiny White	Willow	AK	99688	I do not agree with setting into place a situation where pharmacists that are pro life would be coerced into having to dispense the abortion pill. I also think if abortions are as easy as taking a pill then society will suffer greatly. I also think that the side effects of such pills are dangerous and the pills should not be prescribed.	2025-05-09 09:08:45
Janet Beier	Anchorage	AK	99507	I do not agree with this at all! Pharmaceutical companies should not have their power expanded. Doctors are the ones that should be prescribing anything.	2026-04-13 15:58:23
Norman Westdahl	Barrow	AK	99723	I do not favor any abortion pill attempts across state lines in any aspect that kills or removes life in the womb. I oppose this bill.	2025-05-11
Benjamin Hulst	Anchorage	AK	99508	I do not support further expansion of distribution of the abortion pill.	2026-02-16
Alma Lynn Covlasky	Wasilla	AK	99654	I do not support SB 174, and I expect representatives and senators to vote against it.	2025-05-20
James Perkins	Anchorage	AK	99516	I do not support this bill and expanding the opportunity for babies to be killed.	2026-02-16
Melissa Allsup	Anchorage	AK	99502	I do not understand why Alaskans would want to eliminate their greatest resource by killing their future generations. Making this abortifacient easily dispensable puts blood on the hands of the prescribers and the pharmacist who dispenses it. This is just making murder more palatable. Please stop SB 147.	2025-05-07 11:12:58
Yaquina Repnow	Palmer	AK	99645	I do not want this pill to be accessible to people in pharmacies.	2026-02-17
Patrick Flores-Muller	Anchorage	AK	99507	I do support this bill.	2025-05-07
Sally Noe	Palmer	AK	99645	I don't want my taxes going to killing an innocent life, it's hard enough to hear about it. But I went to college and saw it first hand	2025-05-07
Christina Bennett	Chugiak	AK	99567	I do not approve of the expansion of the abortion pill in our Alaskan pharmacies. Please withdraw and promote either abstinence or save babies. Too many lives are being disrupted both the momma the dads and their babies	2026-04-25 19:39:17
Nancy Burton	Palmer	AK	99645	I feel that the results of this bill will be detrimental to women's health. This prescription has too high of a percentage of health risks for serious complications. Please do not support SB 147. Thank you	2025-06-07 20:07:14
Caleb Felpel	Palmer	AK	99645	I fully support this	2026-01-26
Carolyn Harrison	Palmer	AK	99645	I hate abortion. It is murder. It is a ticking time bomb in a young woman. The guilt and sadness and the realization of destroying a human life inside of her is almost more than any woman can deal with. Thank God for Jesus and His forgiveness. We really have to pray to defeat this evil.	2026-04-11 00:18:31
Robin Jennings	Anchorage	AK	99501	I have lived in Alaska for over 50 years and it has been a good 50 years. I am shocked to learn the our state actually does not oppose the killing of its citizens or the terrible damage I believe it will do to have abortion pills available for every naive, trusting woman who is in a difficult situation. Killing unborn children is not the answer to our Stat'es problems. We need to take better care of those vulnerable women and support their pregnancies. I find it appalling that you should not see the truth in this matter!	2026-02-17 11:43:25
John Hawkins	Anchorage	AK	99502	I implore you to block this bill to prevent the murder of the most innocent and defenseless among us!	2026-02-15
Kathleen Sheaffer	Anchorage	AK	99507	I object to any abortions unless there is a medical emergency and a doctor advises it. Period. Stop pushing this issue that kills the unborn. Any woman who is thinking about killing her baby should be required to watch a video of an abortion first. This should go without saying and a pharmacy in no way should be involved.	2025-05-20 00:22:49

Desiree Terry	Palmer	AK	99645	I oppose both HB 195 and HB 147. I do not support abortion expansion bills that will increase the loss of life for both the mother and the baby. Chemical abortions are unsafe for both parties involved. There is no evidence that abortion benefits women's mental health; in fact, numerous studies indicate that many women experience negative mental health consequences post-abortion. Additionally, there is specific evidence that chemical abortions pose particular risks to women's psychological well-being.	2026-02-16 18:11:06

Teresa Balboni	Chicken	AK	99732	I really dont think health care is in the hands of a pharmacist, i see pharmacists as a way to help in health care of a persons body thru a physician who tends to the care of their patient. I feel that mifepristone is a dangerous chemical, and any one interested in taking this is not concerned much about a healthy body. Please think deeply about what and who devised this pill. No matter who or when you think life began, and how we were created, an amoeba or an almighty God, these two drugs, mifepristone and misoprosol were not a part of the web of life. They are death. To be giving a pharmacist this type of control, is LUDICROUS. Not in my world please! It aint health care. Thank you	2025-05-07 09:32:44
Lois Repnow	Palmer	AK	99645	I respectfully urge both the house and senate to NOT allow HB195 and SB 147 to pass. These bills, if passed would expand Chemical Abortion (mifepristone) access from Anchorage and Fairbanks Planned Parenthood sites to virtually all of the states. This at first could sound positive to many members thinking they are encouraging equal access to "women's healthcare availability" to more women of the state. While Danco Laboratories markets this drug as "safe" and planned parenthood claims it is "safer than Tylenol," the ETHICS and PUBLIC POLICY CENTER (EPPC) conducted the LARGEST known study on Mifepristone last year based on 6 years of insurance claims that included 865,727 Mifepristone abortions. This study found that 10.93% of women suffer sepsis, hemorrhaging, infection and other serious complication within 45 days of this procedure. If these bills are passed, expanding mifepristone access is deadly to unborn babies and dangerous to their mothers. Expanding the pharmacists' authority in any way that expands the increased availability and use of chemical abortion throughout the state is dangerous for the babies and potentially lethal to the women who use it. What happens to these women who take would be able to conveniently be able to take mifepristone to have a chemical abortion in a village in rural Alaska? What happens if there is no emergency room, no hospital, no highly skilled medical staff to stop a hemorrhage or treat against life threatening infections? The catastrophic reality is that not only would more unborn babies DIE, but that these women would likely also DIE or be fighting for their lives. Therefore, I OPPOSE this bill and URGE that this bill in BOTH HOUSE AND SENATE must fail in the Labor and Commerce Committee or be withdrawn for the sake of the lives of the unborn babies and women all over our state. Thank you.	2026-02-16 11:21:39

Brenda Vincent	Anchorage	AK	99516	I strongly encourage the committee to research the risks of these medications being prescribed without having definitive knowledge of the women's pregnancy status. There are facts that MUST be known before giving these medications. What is the gestation of the pregnancy? Is the pregnancy in the uterus? Having a pharmacist prescribe a medication just based on the word of a customer can be life threatening to the women.	2025-05-07 09:59:43
Clint Adler	Palmer	AK	99645	I strongly oppose SB 147.	2025-05-23
Darrell Helton	Chugiak	AK	99567	I support LIFE from CONCEPTION. Proliferation of abortive medicines is an abomination and unacceptable.	2026-05-06
Timothy Comer	Craig	AK	99921	I understand the trauma of an unplanned pregnancy and the ramifications that go through a young girl's mind. I don't understand the enthusiasm of mostly older women anxious to help that young girl kill her unborn child. That is an evil anomaly. The abortion pill must make the Planned Parenthood and their political ilk just giddy. God has love, healing and help through his faithful that want to help the young mother. Politicians, whose hearts are hardened, are obeying their true master.	2026-02-17 01:07:07
Patricia Wilson	Chugiak	AK	99567	I urge all Alaska legislators to vote NO on SB 147 to prevent pharmacy providers from dispensing chemical abortion drugs. Sherry Wright	Anchorage	AK	99514	I was told at the Russian Jack Community Council meeting by Genevieve Mina's staffer that HB 195 does NOT include language about the chemical abortion pill, but apparently it is worded SO BROADLY, that it is exactly what it does include and I am appalled at the deceitfulness. That is not any way to govern OR represent people. Please do not pass this horrific bill. There were amendments that would ensure chemical abortion pills were NOT included, but the amendments did not pass. This is not clever, this is deceitful. And abortion does in fact hurt not only the child it kills, but also wounds many of the mothers that have experienced this traumatizing infanticide. Please take the time to look up online "post-abortion trauma" and see just how many web sites are dedicated to this topic. The sheer volume of this should convince you it is in fact a real problem for many men, women, grandparents, siblings, etc. What seems right to a man is abomination in the sight of God. Your decisions on this issue will be accountable one day. I beg you, do the right thing - protect every life.	2026-05-16 17:00:48

Scott Thompson	Wasilla	AK	99687	In our country abortion has become an acceptable practice which is sad because people have become numb to the fact that in the act or abortion a human being is being killed. For the sake of convenience or protecting our right to live life the way we chose the human infant is sacrificed on the alter of convenience. One day we will all be held accountable for the choices we make. Consider that truth when some one you know wants to abort a human baby.	2026-04-17 17:21:23
Jon And Ruth Ewig	Fairbanks	AK	99701	In studying this 2 step process of abortion, the first pill strips the preborn baby of all of its nutrients. After the first pill, you still can rescue your baby. The 2nd pill kills the baby and out of you comes a dead baby. You may be alone when the dead baby comes out and you view the baby. There is a rescue group on the internet that will help you reverse the affects of the first pill, if you are having a change of mind. STOP SB 174 which will increase abortions in Alaska. Any Alaskan legislators that are pushing abortion belong to the "death cult" which has surfaced at various times through evil-doers. This cult surfaced at the Democratic Convention. Bill Gates is part of this cult. The abortionists are part of the death cult. The abortionist and Planned Parenthood are making money doing these abortions and then selling the preborn baby parts in Pennsylvania and California. The truth is that America is dying. We were indoctrinated with the false idea that we are overpopulated, but the truth is that we do not have enough babies being born to reproduce ourselves. Elon Musk put a msg on the NY billboard building to have more babies because the amount of babies being born is less than those of us who are alive now.. Legislators who sponsor and support this bill are not in favor of families. The stability of Nations is dependent on stable families.	2025-05-13 17:59:51
Paul Hafele	Anchorage	AK	99515	It all comes down to murder no matter how good the reason. Murder is morally wrong but also legally wrong.	2026-02-15
Christina Sikkenga	Chugiak	AK	99567	It has recently come to my attention that these bills are currently being discussed.... One of the proposed changes is to allow mifepristone to be provided by pharmacists across the state. That this is even being considered is extremely concerning. The study just released showed that the abortion pills result in 11% of women with serious medical complications for the women (not even mentioning the resulting deaths of the unborn children). I urge you to protect women and children. We should absolutely not be making it easier for women to get "the abortion pill"... especially without proper medical oversight. Carol Allums	Wasilla	AK	99687	It is hard to believe that I am once again urging state lawmakers to advocate for life. In a just world, legislators would be the smartest and wisest and would be working themselves to death for the good of their constituents. Our Alaska legislators are not doing this. It does not take a rocket scientist to be able to comprehend what is alive and what isn't alive. It does not take a genius to figure out that preborn humans need as much protection as embryonic salmon. If I shoot a moose out of season, I get to go to jail. If I kill a preborn child, I'm lauded as being progressive, sensible, liberated. Can anyone in the Alaska State Legislature tell me what is wrong with this picture? Our State Constitution states "all persons have a natural right to life... are equal and entitled to equal rights, opportunities, and protections under law;". Our elected officials are in their jobs to protect Alaskans and protect our way of life. If you cannot see your way to ban abortion in Alaska, you do not belong in your job. Nothing you do will mean anything as long as you tolerate the murder of innocent children. Not one thing.	2026-03-02 13:25:53

Rosemarie Henn	Wasilla	AK	99654	It is unconscionable to pass legislation that approves the use of drugs dangerous to the safety of mother and child. Approving medication that inflicts indescribable pain and fear upon a woman at home in isolation and death to her child is approving barbaric practice in drug administration. This kind of practice cannot stand in the administration of health care. Health care is administrating practice that benefits the health of all persons affected by particular administration of drugs or procedures. Mifepristone and Misoprostol and similar drugs inflict pain and/or death. Approval of legislation that does not correspond to "Do No Harm" is not Health Care.	2026-02-16 11:39:06

YET THIS WAS THE KID WHO HELD HER HAND WHEN SHE DIED. AND WHO HELD THE HAND OF HER HUSBAND WHEN HE DIED. THAT GIRL NEVER KNEW HER FATHER TOLD HER MOTHER IT WAS WRONG AND THE WOMAN LOVED HER HUSBAND ENOUGH TO HONOR HIS WISHES AND HAD THE BABY. Felicity Young	Wasilla	AK	99623	I've taken mifepristone twice after missed miscarriages. Both times I ended up in the hospital with a retained placenta. The second time I was in the hospital for monitoring while I took it, and I crashed. I needed immediate surgery and a blood transfusion. This was a common story in a miscarriage group I am in. I cannot believe they want to make this available without doctor oversight. Not only will it kill living babies when used as an abortifacient, but it will kill the mothers who don't have local hospital access or lose blood faster than they can get help. That would have been me. Don't send this drug out unmonitored into our state!	2026-02-16 06:45:46

Teresa Balboni	Chicken	AK	99732	Life is precious. Its too late to ask you not to present a bill that kills a baby, but that you are pushing this Bill on to so many innocent lives, this is not what government is called to do. Govt is supposed to make government work, keeping law and order, yet now you are following the Kill Crowd, and pushing a very dark, evil solution to someones personal problems. I dont understand how you think passing a bill that allows a person to self abort a baby is an accomplishment? How will you, if you sign yes to the bill, know the intended for person is the one who takes this pill? How can not wonder if someone else orders the pill, and maliciously gives it to a pregnant woman. You cannot because there is no accountability. Not only could this be used deceitfully, but the pills ingredients are harmful to humans! Its a very bad call, all around. How about you stop being in the kill industry and start thinking about life, goodness and a future for all Alaskans. How is it that a government feels it should step in and decide who lives, or who dies. You are playing with fire.	2025-07-04 12:32:48
Larry Clement	Anchorage	AK	99515	Many Women are going to suffer botched chemical abortions not to mention their child will die. Sherry Wright	Anchorage	AK	99514	Many women have regrets about abortion. Denise Koehrer	Palmer	AK	99645	Mifepristone is NOT a safe and effective drug. Infections, hemorrhaging and ER visits directly related to the administration of this toxic drug occur in over 10% of the women who take it, in addition to ending an innocent, God-given life. The emotional ramifications are lifetime. The arrogance of a few annihilates many.	2026-04-17 20:33:55
Elise Blake	Wasilla	AK	99654	Mifepristone should not be given out widely in Alaska especially since so many women in Alaska, due to residing in rural Alaska, do not have immediate access to hospitals. Over 10% of women suffer complications from Mifepristone-induced abortions. Increasing access to Mifepristone is not safe or ethical for women, especially those living in rural areas. When (not if) complication arise (including sepsis and hemorrhaging), the lives of these women will be in critical danger, and they will not have immediate access to hospitals for treatment. The medical clinics present in rural Alaskan villages have a very limited scope of practice that cannot ensure the safety of women experiencing complications from chemical abortions.	2026-02-16 11:10:05

Many women have terrible complications from it and two deaths could result from the one pill. And what's to prevent a woman from claiming to be pregnant and "needing" the medication so as to cause someone else's abortion without her consent? Will a man be able to claim his girlfriend sent him, and then trick her into killing his child? Please vote NO on HB 195/SB 147!	2026-04-17 14:53:22

Jonathan Palsma	Anchorage	AK	99504	Please do not advance/approve HB195/SB147 as per the Alaska State Medical Board, HB195 & SB147 would: "effectively expand the prescriptive authority of pharmacists to prescribe and administer any medications, including controlled substances and abortion medications. The authority to broadly prescribe any medication would mean pharmacists would have the ability to diagnose and therefore treat any medical condition. The diagnosis and treatment of medical conditions is the practice of medicine. The State Medical Board opposes pharmacists being granted the ability to practice medicine in Alaska." Please do not advance these bills as its authorization sets far too wide of a definition for "patient care services" that would drastically expand access to life-terminating chemicals like abortion medications.	2026-04-13 09:47:48

Imat Naje	Healy	AK	99743	Please do not allow pharmacists to practice medicine with out the proper training and qualifications to diagnose patients. Furthermore, do not subject our (especially young) female population to this unqualified diagnosis and treatment regarding the dispensing of Mifeprex and misoprostol, that puts women at risk of hemorrhage, and other complications, alone and removed from the care and oversight of a real doctor. This may also lead to further social isolation, depression and deterioration mental health, increasing the rate of suicide in this sector of our population. We are already losing so many young people from our state for many reasons. We do not need to lose more because of mismanaged policy and a disregard and disrespect for our trained, qualified and licenced medical professionals.	2026-04-26 22:03:04

Nils Degerlund	Fairbanks	AK	99710	Please do not support abortions. The only time they should be legal is in the case of the unborn baby's presence jeopardizing the life of the mother and there is no medical means to protect the life of both. Everyone has a right to self-defense.	2026-02-16 14:25:16
Imat Naje	Healy	AK	99743	Please do not support or pass such a horrendously unsafe and delinquent piece of legislation. It is not even worthy of the space it takes up. Not only does it allow women to make irrevocable decisions with out the consultation of their physicians, it puts them at risk and isolates them from those who could help, especially giving the high percentage of hemorrhaging, infection, guilt, depression and suicide. These are facts in the statistic books. This is a harmful chemical that should not be put in the hands of anyone who is emotionally unstable and risking irreversible consequences for their momentary actions. The people and organizations backing this have no concern for the women who will be harmed from this and will be removed and unaccountable for the harm they create. This whole thing is a very bad idea and will cause more harm and heart ache, than any perceived benefit offered to women. Do not support the death culture! Look into the future and think about what it will be without children. Our species is at risk. Thank you for you time and consideration.	2025-06-13 23:18:01
Gail Edgerton	Palmer	AK	99645	Please do not support this bill that will kill innocent Alaskan children & risk the mother's health. Nothing as serious as terminating your pregnancy should be done at home with no medical professionals to assist in case of complications. I am so discusted in our Alaska Republican delegation that keeps supporting these issues & yet call themselves "conservatives". How about "conserving" the lives of the unborn who have no voice?	2025-06-05 07:43:37
Ann Mattson	Juneau	AK	99801	Please do not support this bill which will open up abortion throughout the state. In no way can our state prosper when we are allowing the deaths of our most innocent	2025-05-10 14:37:33
Joshua Courson	Anchorage	AK	99504	Please do the right thing by NOT expanding access to the abortion pill. For the love of Peter, Taryl, and all your grandchildren, stop supporting these atrocities.	2026-02-17 00:24:52
Windy Pekins	Anchorage	AK	99516	Please don't allow the expansion of abortion through the easy assess in pharmacy's. This promotes human trafficking, and the devastation of abortion to continue at record rates.	2025-07-08 10:10:58
Teresa Anderson	Anchorage	AK	99508	Please don't allow this bill to past making legal to get abortion pills.	2025-10-26
Samuel Reed	Anchorage	AK	99518	Please don't allow this chemical abortion evil into our state. Lives should have the chance to go on. Life is precious and should be cared for not easily destroyed. This is pill form murder.	2025-05-09 11:44:39
John Streit	Anchorage	AK	99504	Please don't expand the chemical abortions	2026-02-15
Patrick Klump	Anchorage	AK	99503	Please don't let this bill pass.	2025-05-07
Amy Woods	Willow	AK	99688	Please don't support SB174!!! Abortion drugs easily available hurts not only the unborn but woman using them as well. The drugs have more dangers then told. Women are not being cared for enabling dangerous drugs at a pharmacy disposal!! Thank you for considering the health of the women and children over a legal battle for " women's rights" I believe in woman's rights but not " woman's dangers" Thank you, Amy Woods	2025-05-08 11:12:18
Joy Stouffer	Wasilla	AK	99654	Please don't support this. Women need to be under medical supervision before, during and after an abortion. This will be putting women in danger. New study shows one in ten women who take the abortion pill will suffer from serious complications including hemorrhaging, infection, sepsis and death.	2025-05-07 18:54:47
Beverly Berdahl	Kenai	AK	99611	Please don't vote to murder the unborn!	2026-02-16
Susan Tullo	Fairbanks	AK	99701	Please don't do this terrible thing!!!	2026-02-16

Abortion Pills claimed **730 babies' lives** in 2025;

Insurance data shows that 1 in 10 women that take abortion pills experience serious or **life-threatening** adverse events;

HB 195 / SB 147 would allow pharmacists to **Prescribe, Administer, and Dispense Abortion Pills**;

THEREFORE: I urge ALL of Alaska's Elected Representatives to **OPPOSE**, vote **DO NOT PASS** or **NO**, and **DEFEAT HB 195 / SB 147** without apology, exception, or compromise.

I call on every elected official in Alaska to **OPPOSE HB 195 / SB 147**. It's a **poison pill** for ALL Alaskans.

Stephen Wahl	Metlakatla	AK	99926	Please dont forget that our laws should not discriminate against any persons. We must never get confused by xenophobia and accept the lie that humans in embryonic stage of life are not humans simply because they dont look like adult stage humans. Neither should we accept the lie that whether you can feel or think like an adult stage humans makes you human or not, soon we will question if the person with Alzheimers is still human!. Any law facilitating the taking of human life without cause must be immediately and decisively opposed and eliminated. Remember the wisdom that was taught us when we were smaller: "A person's a person no matter how small!" Stop this bill which will facilitate and legitimize killing preborn people!	2025-05-09 12:59:34
Rudy Poglitsch	Wasilla	AK	99654	Please don't make abortion pills accessible through drug stores. Let's build a culture of life.	2025-06-07
Stephanie Bakk	Wasilla	AK	99654	Please don't provide a drug that can seriously harm the users, cause mental, life-long emotional distress because they didn't think it through and because it ends the life of a baby. This is too dangerous for the mother to be available for anyone desiring to end the life of their unwanted baby. Also, it's wrong to kill an unborn baby for any reason. Your life started the same way and no one could argue that you weren't you, even in utero.	2025-05-07 09:36:21
Laura Brank	Fairbanks	AK	99712	Please end all abortion in Alaska.	2026-02-13

Mary Juday	Fairbanks	AK	99709	Please kill the Abortion Pill Expansion Bill. These drugs are not safe for women. Over 10% of women taking these pills will suffer life threatening effects on top of the fact that many women are coerced or tricked into taking these pills without their consent. When a man and a women make a conscious choice to engage in a baby making act, sexual intercourse, no baby should be sacrificed/killed as a result. by any means.	2026-04-28 21:22:27

Be assured, God will not be mocked!	2025-06-06 18:57:15
Mary Juday	Fairbanks	AK	99709	Please vote AGAINST SB147/HB 195. Abortion pills should never be prescribed/given without a physical exam to determine gestational age (Inot more than 10 weeks) and the absence of ectopic pregnancy. Emergency followup care including surgery should be easily and quickly accessible because over 10% of women using these pill suffer serious complications that can lead to death without prompt proper treatment. These pills should never be given to anyone other than a women who requests them because there are those who will force women. If you are really concerned about the health of women defeat these bills!	2026-02-15 23:05:09

David Durst	Palmer	AK	99645	Please vote to not allow the expansion of mifepristone in Alaska. This is not a safe drug, rather it harms many women who take it, with upwards of 10% having serious medical issues directly related. Given our state's rural nature, it is an undue risk, especially for those who live in the bush. These women are already quite vulnerable and adding this would increase their vulnerability, rather than decrease it. Our job as a society is to look out for the vulnerable, not make their situation worse.	2026-02-15 21:10:23

Carol Dorman	Palmer	AK	99645	Scientific inquiry can happen when doctors examine their patients. Science never takes someone's word for symptoms they may claim to have without any investigation. Craig Gilliland	Eagle River	AK	99577	Senator Cathy Giessel, It must've been 16 years ago, maybe 18, your husband Richard was a mentor to my son who became an engineer. I still appreciate that.I also remember my son helped you set up a campaign booth at the Bear Paw festival in Eagle River. I was pro-life then and now. And my son is now as well. I'm embarrassed to admit he helped you with your campaign efforts because you certainly changed your stripes, or maybe you simply hid them. Might as well have a (D) after your name the way you support chemical abortions with the increased availability and use of Mifepristone. Instead of killing children and harming mothers you should be advocating against HB 195 / SB 147.	2026-02-16 08:43:00

Maurice Berger	Chugiak	AK	99567	<p>Subject: Strong Opposition to HB 195 and SB 147 – Protect Alaska's Unborn Children</p> <p>Dear Members of the Alaska State Legislature,</p> <p>I write to demand your firm opposition to HB 195 and SB 147. These bills are not about healthcare. They are a direct assault on the unborn and a reckless expansion of chemical abortion in Alaska.</p> <p>The facts are unmistakable. The number of chemical abortions in Alaska has more than doubled in five years—from 307 in 2019 to 720 in 2024. That is 720 babies killed by abortion pills such as mifepristone and misoprostol, with the number rising every year. Every single one of those pills ends the life of a child in the womb. That fact alone is reason enough to kill these bills.</p> <p>These are not "safe" abortions. One in ten abortion pills sends a woman to the emergency room with serious or life-threatening complications. Every pill harms the mother. Every pill kills the child.</p> <p>A 2024 Alaska Superior Court ruling already opened the door wider by allowing nurse practitioners and physician assistants to perform abortions up to 16 weeks. HB 195 and SB 147 now shove that door wide open by turning pharmacists into abortionists and corner drug stores into abortion pill mills. The bills do this by:</p> <ul style="list-style-type: none"> • Authorizing abortionists and pharmacists to diagnose pregnancies and other health conditions under Collaborative Practice Agreements; • Redefining patient care services to include prescribing, administering, and dispensing abortion pills such as mifepristone; • Eliminating much of the Department's and Board's approval and oversight of those agreements; and • Relaxing state law to mirror the weakened federal REMS rules that now let pharmacists dispense mifepristone without an in-person examination. <p>This is not healthcare. It is the industrialization of abortion on demand.</p> <p>I call on every elected official in Alaska to OPPOSE HB 195 and SB 147. These bills are a poison pill for all Alaskans.</p> <p>Vote DO NOT PASS or NAY on both bills until they completely eliminate any authority for progesterone receptor modulating drugs—such as mifepristone—to be prescribed, administered, or dispensed anywhere in Alaska.</p> <p>Defend the most vulnerable without apology, exception, or compromise!</p> <p>I expect your vote to reflect that duty.</p> <p>Sincerely, Maurice</p>	2026-04-17 17:08:22

Lori Wilson-Ortega	Gustavus	AK	99826	The abortion pill needs to be banned in Alaska (and everywhere). Not only do unborn babies die but many mothers do as well. They suffer alone at home with no one to help them. Also, unscrupulous boyfriends sometimes spike the mothers' food/drink with abortion pills resulting in abortions against their will. Abortion pills are a tool for abusers to enable their manipulation and abuse-they only lead to bad results for women and children.	2026-02-15 21:13:45
Pamela Samash	Nenana	AK	99760	The abortion pill not only kills children, but it can also kill women, especially in rural communities, if they were to hemorrhage. Please save lives and do not allow the distribution of Mifepristone in Alaska.	2026-02-15 22:41:03
Lorel Rockley	Wasilla	AK	99654	The abortion pill regime is extremely dangerous. Do not expand this, reducing the oversight that provides at least some protection for women.	2026-04-26 10:50:16
Esther Huddleston	Wasilla	AK	99629	The abortion pill takes a human life away and brings emotional trauma to mothers. The abortion pill also, has potential damaging effects to women. Please vote NO on the abortion pill, give a baby a chance to experience life, go to school, play sports, go to college, have a career, possibly get married. By voting NO, you're saving a life and you have the power to make a life saving change. Who knows, it just might be the baby who finds a cure for cancer.	2026-02-15 19:47:15
Laura Christiansen	Palmer	AK	99645	The abortion pills are simply a chemical means of murdering previous babies in the womb, and are very dangerous for the precious mothers' lives. Please help stop the killing!	2025-05-22 09:51:12

Josiah Schauerermann	Palmer	AK	99645	<p>According to the study, 10.93% of the 865,727 women prescribed chemical abortions using the drug mifepristone suffered a serious adverse event like sepsis or hemorrhaging within 45 days after taking the drug. This 11% IS ENOUGH TO SAY NO to abortion pill expansion. And the 11% is just the small percentage of adverse events that we are aware of. The actual number of serous adverse events is much larger. NO! No! No!</p> <p>The further wide spread availability of the abortion pills will not solve any problems, but rather cause more. Why should we allow more blood shed of the unborn? Wouldn't you want someone to fight for your life if it was threatened? Fight for the lives of these young people who would make up the next generation were they given the right to live.</p>	2026-05-16 08:18:13
Deeann Steffensen	Kenai	AK	99611	The health and welfare of women is being severely compromised when abortion pills are administered. Please protect women and the children that are aborted.	2026-02-15 23:19:37
Lisa Cookson	Eagle River	AK	99577	The horror of chemical abortion should be stopped. To give a woman something so powerful that it ends a life cannot be good for her own body, either. Please think deeply about what is happening here.	2025-05-12 09:56:46
Bonnie Hill	Palmer	AK	99645	The joy of bringing life onto this earth is immeasurable and I hope they outlaw abortion/pills everywhere because it is such a despicable act. It is unnatural and abortion doctors are equivalent to mass murderers. Young mothers thinking it's ok need to know they are not giving their emotionally and physically connected offspring their right to life. Killing the ones that will love them most and vice versa is the most emotionally damaging choice they will ever make. Leaving a hole in their heart they will never fill. My best memory is the first time I held my son and nothing compares.	2026-04-17 20:35:27

Benjamin Mcentire	Palmer	AK	99645	The risk of physical harm to the women who take abortion pills has become clearly established. In the state of Alaska, there is too great a risk of someone in a remote area needing emergency medical care after taking such pills yet being too far away to get the level of care needed in time. The potential cost in lives and health isn't worth accepting such risks.	2026-04-25 20:43:31
Alma Covlasky	Wasilla	AK	99654	The risk to women with this pill is unacceptable. One in 10 mifepristone tablets cause serious or life-threatening complications for the women that take them. That risk is too high for women in rural Alaska, who do not have access to a hospital, except by plane, boat, or ferry. I lived in Emmonak, Alaska for 29 years, and I have seen people die because the weather stopped or delayed them from traveling to get emergency medical care. Losing even one Alaska Native woman to this medicine is too many! We already lose too many Alaska Native women, and I do not support any medicine that will increase that number. Expanding pharmacist authority in any way that increases access to Mifepristone or any other abortion inducing drug is unacceptable. 10% of women will need medical care after taking Mifepristone. That is too many women who may not get the care they need in time. Every Mifeprisone pill is deadly to a baby. Your responsibility as legislatures is to protect the people of Alaska. Passing House Bill 195 through committee puts too many Alaskan lives at risk. This bill must fail in the Finance Committee.	2026-04-20 11:54:14

Steve Willis	Wasilla	AK	99623	The total disregard for the lives of the unborn children is unfathomable. Anyone complicit in this should seriously consider the consequences of their actions.	2026-05-15 18:12:48

Marvin Cox	Eagle River	AK	99577	The US Declaration of Independence declares we all have the right to life. Abortion is the intended death of a human being. The child in the womb didn't commit rape, or incest, and should not be punished for the act of those who did the crime. Nor should it be killed because it inconveniences the mother. STOP SB 174. Stop the murder.	2025-05-13 09:25:59
Theresa Tomlin	Anchorage	AK	99509	There are many people like myself who abhor anything to do with abortion and the entities behind the practice. Some say it's "women's health care", but anyone who has any amount of decency should be able to see that this statement is one-sided; it kills children! I'm not sure how things got so out of hand but believe me when I say that even though the govt and other officials allow it, it is NOT right and it never will be. Thank-you for reading my statement.	2025-05-09 07:51:26
Angela Davis	Anchorage	AK	99516	There are so many medical reasons why this is dangerous for women. It needs a doctor's approval first!	2026-04-15

Abortion Pills claimed **730 babies' lives** in 2025;

Insurance data shows that 1 in 10 women that take abortion pills experience serious or **life-threatening** adverse events;

HB 195 / SB 147 would allow pharmacists to **Prescribe, Administer, and Dispense Abortion Pills**;

THEREFORE: I urge ALL of Alaska's Elected Representatives to **OPPOSE**, vote **DO NOT PASS** or **NO**, and **DEFEAT HB 195 / SB 147** without apology, exception, or compromise.

I call on every elected official in Alaska to **OPPOSE HB 195 / SB 147**. It's a **poison pill** for ALL Alaskans.

Silas Firth	Homer	AK	99603	There is no justifiable reason for this bill. It is our moral duty as people, and especially you as legislators, to protect the vulnerable and innocent. Human life begins at conception. Ending the lives of the most vulnerable by casually supporting this bill, is an injustice that history will prove shamefully wrong. It's time to start doing what is right.	2026-02-16 14:59:11

Jessica Wagner	Fairbanks	AK	99712	<p>This bill and pill are not in the best interest of or way to care for women and their children. Life is difficult for everyone, but it's worth living. Life is the Ultimate Gift and we should not be taking that away from anyone, and encouraging everyone to live out theirs. Living life usually makes us stronger, more humble, brings unfathomable joys especially from the hardest of times. By making it easier for a woman to end the life of their child you've not only prevented that child's opportunity to experience life to its fullest you've now assisted a woman of choosing the "easy way out" which won't bring unfathomable joys but unfathomable sorrows, that death brings.</p> <p>NIH 2020 study found that nearly 2/3 of pregnancy that the child tested positive for Down syndrome were aborted. My son Asher who has Down syndrome is 8 years old today. Life may look different for us and certainly for him but the joy in life he finds and shares with everyone would not have been so have I chosen to end it. If I had chose to end his life my life would look different, but it would have been void of those unfathomable Joys that Asher and only he could have brought to my life and others. Choose life to its fullest for everyone.</p>	2026-02-16 10:43:48
Kimberly McClure	Wasilla	AK	99654	<p>This bill contains very broad language that gives too much authority to pharmacists to prescribe drugs which could include abortion drugs. Abortion and abortion drugs are wrong. This bill undermines and degrades the years of schooling, training and knowledge a doctor is required to obtain to achieve their degree. Alaska is unique in many ways but also limited in offering highly skilled medical services and facilities. Allowing pharmacists to prescribe opioid and/or potential abortion drugs without a hand written prescription from a medical doctor is wrong and should not be allowed. Additionally, amended section "Sec. 7. AS 08.80.337 is amended by adding a new subsection to read:</p> <p>(e) A pharmacist prescribing or administering a drug or device under this section shall recognize the limits of the pharmacist's education, training, and experience and consult with and refer to other practitioners as appropriate." sounds self-regulating. Determination is left to the prescribing pharmacist to determine if he/she is outside of their medical expertise. A person's life, to include an unborn baby, can depend on administration of drugs - the ability to prescribe drugs should never be left to unqualified persons.</p>	2025-05-09 11:07:53
Nancy Winniford	Anchorage	AK	99507	<p>This bill greatly increases the dangers women in our rural areas face. Not requiring the input of a physician before administering abortifacients to people who live where medical care is not readily available is creating a foolish avoidable situation. Creating a system where women can easily kill their babies with a pill is evil. And those are only two reasons this bill is wrong.</p> <p>It will exponentially increase the amount of blood our state has on its hands. We already allow the murder of CHILDREN (not fetuses, not tissue) under limited circumstances through abortion. This would open the door for wholesale killing. And women would suffer too. Please stop causing our state to be accomplices to murder. Such casual disregard for human life is not done in a vacuum. People wonder why mass shootings have increased and other atrocities as well. IT STARTS WITH THIS CASUAL DISREGARD FOR HUMAN LIFE.</p> <p>Please wake up and value our most vulnerable humans.</p>	2026-02-16 07:15:28
Rebecca Hinsberger	Kasilof	AK	99610	<p>This bill is a disaster waiting to happen. Besides the obvious threat of nonclinically derived prescriptions causing potentially significant negative health consequences for clients requesting them, there are the deaths due to RU 486 prescriptions (babies and likely some mothers too) that will climb because of unsupervised accessibility to this deadly drug.</p> <p>All controlled medications need to be administered by doctors and of course, RU 486 should never be prescribed to anyone under any circumstances.</p>	2025-06-08 17:22:54
Robert Whitney	Anchorage	AK	99504	<p>This bill is a disgrace and a flagrant violation of human dignity. I am ashamed that it's even being considered.</p>	2026-02-17
Chuck Szopa	Anchorage	AK	99502	<p>This bill is a travesty! We need to put an end to this type of legislation. Pharmacies are not doctors, and should not be dispensing this type of medication.</p>	2025-07-07 21:14:44

Pat Martin	Wasilla	AK	99654	This bill is a trojan horse for more abortion deregulation, sponsored by the notorious formerly pro-life champion Cathy Giessel. Senator Giessel turned her back on Alaskans waiting to be born when she authored and sponsored SB 124 of 2018, the Abortion Procedures Act, in which she sought to regulated HOW babies are killed, instead of PROTECTING them FROM BEING KILLED. The irony of it all is she compared herself to the WWII German hero Oscar Schindler, who sacrificed all he had to save Jews from Nazi death camps. This bill must be stopped.	2025-05-07 19:13:22
Roy Minatra	Soldotna	AK	99669	This bill is an abomination. IT MUST BE STOPPED.	2026-05-06
Dustin Heger	Houston	AK	99694	This bill is evil in nature and needs to be stopped. I do not approve of this bill allowing access to the abortion pill.	2025-05-08
Windy Perkins	Anchorage	AK	99516	This bill is incredibly dangerous and will access for sex traffickers to easily victimize people with no accountability or oversight. This bill is also very dangerous for women. Without proper access to medical care, women have died and will continue to die as a result of the Abortion Pill. Deaths are guaranteed to spike, and once again those who are responsible will not be held accountable. Overall, this Bill is truly the death bill for not only victims of Sex Trafficking, but the almost innocent among us. Abortion is murder of our most vulnerable population, the unborn child. No one wins when we're killing the very least and poor among us.	2026-05-16 09:49:57
Andrea Hansen	Wasilla	AK	99654	This bill is out of touch with the majority of Alaskans and should be killed.	2025-05-09
Sheila Thacker	Anchorage	AK	99504	This bill is UNSAFE for all Alaskans.	2025-06-07
Angela Edmonson	Eagle River	AK	99577	This bill must be stopped. Not only is abortion wrong, it hurts the mother of the killed baby both physically and mentally.	2025-06-10
Albert Steinbach	Palmer	AK	99645	This bill promotes abortion drugs distribution. Life begins at conception and must be protected, not aborted.	2025-05-09
Carol Piser	North Pole	AK	99705	This bill promotes murder of babies and the same or at the very least malpractice in the harm to pregnant women. Pharma's greed and the evil of depopulating the state which already suffers due to suffering from lack of babies, school children, young productive teens and adults - bodes a devastating future for aging Alaskan population. Families should be encouraged - not decimated. Pregnant women and their pre born and born children should be supported in every way possible for the sake of our state and our country.	2026-02-16 21:33:15
Steve Willis	Wasilla	AK	99623	This bill, if passed, will result in ending the lives of many children. Their deaths will be on your hands forever.	2026-05-16
Shera Rauer	Anchorage	AK	99508	This cannot be serious - a bill by a pro-life senator that opens the way for pharmacists to administer abortions? What ever is Cathy Giessel thinking? Is it not enough that we have to pay for abortions, now she wants me to wait in line for cold medicine alongside women killing their babies?	2025-05-07 19:35:26
Brian Evans	Anchorage	AK	99517	This drug is dangerous, deadly and should never have been FDA approved. Ban this drug, PLEASE!!!!	2026-04-19
Jan Deland	Anchorage	AK	99507	This is a dangerous bill that would increase physical and emotional harm to women and girls. It would lead to more destruction of tiny preborn humans and by extension to families and society as a whole.	2026-03-06 19:22:06
Kelsie Carlson	Glennallen	AK	99588	This is a incredibly dangerous bill. It will put many many women in high risk medical situations! Especially in our state where many areas do not have readily available care. Hemorrhaging being one of the top side effects of such pills many of our states women will not survive. This bill is reckless and a afront to women with blantant disregard for safety.	2025-05-07 08:55:41

Come to your senses, do not have the killing of other innocent humans on your hands. Do not pass this bill. Do not use state money to fund this genocide. Stop SB 174. Anyone who votes for this will be faced with being voted out of the legislature.	2025-06-04 09:45:46

Valerie Gilligan	Fairbanks	AK	99712	This is dangerous. Please stop it.	2025-05-07
Robert Bird	Kenai	AK	99611	This is not even a "pro-women's rights" bill. It will devastate the rural women, who have no recourse to medical emergencies. No doctor to assess their different health issues. It is a monstrous bill. Bjorkman should kill the bill in committee, if he wants to have any semblance remaining of being prolife.	2025-05-06 14:41:32
Deborah Steinbach	Palmer	AK	99645	This is not health care it is abuse of women and children. Something that is already too prevalent in Alaska! If you really care about women's reproductive health then you will say no to this drug that causes life threatening complications for many women. Pharmacists are not physicians. They are not equipped to properly warn women of the hazards of this drug.	2026-02-16 14:35:53

Helen Gillquist	Eagle River	AK	99577	This is sickening. I cannot stand pills because I have to take prescription pills everyday for many medical issues everyday for many reasons. To think that I have to go to a pharmacy and people who are helping me get mine and don't want to be may have to be providing a pill of murder to girls, women and females just because they would rather swallow it. I'm still years from 30, never had sex, can't have children, have had more surgeries and recently brain surgery; and still can't fathom how ending any child's life would make the mothers better even though she hasn't gotten to know them...? Whether it's the abortionist, not much of a doctor, or taking the pill yourself, look at the big picture. Who got the blood on their hands? Call it science or whatever, as soon as the sperm hits the egg, you got life. That's why nothing helps make my day like those big eyes, little fingers and toes, cheeks, baby babble and fresh baby smell. Where would you be if your mom didn't have you? Choose life, don't end it	2026-04-11 11:30:04
Greg Monrad	Anchorage	AK	99516	This is terrible. Do not make it easier!	2025-05-07
Donna Offord	Wasilla	AK	99688	This is too important to make so dispensable. Too easy to make a decision and because it happens so quickly under this law, not a lot of "reflection" time where they might change their minds. This is irresponsible healthcare and murder of the babies and non-care for moms. Who cares for the mom in the remote areas when there is a medical result from this?? Governments job is to protect its people - how does this do that? No one is protected here.	2026-02-16 08:18:45

Mary Lanza	Anchorage	AK	99515	This medication previously known as RU486 has a significant side effect profile to include hospitalization, blood transfusions, severe infection and adverse events not to mention medical conditions in which it should not even be considered for use. According to the manufacturer's studies up to 8% of women experience bleeding for 30 days or more. It is medically irresponsible for a pharmacist or a third party who is not licensed to handle the potential outcomes of this drug to be the prescribing authority. These patients should have close monitoring by a physician while receiving this medication. Pharmacists do not have the medical education or clinical privileges to understand the risks with respect to the patient or the ability to diagnose and treat underlying medical conditions for which the patient may have acutely or as a pre-existing illness. This is a very bad and dangerous idea.-- Mary R. Lanza, MD (37 years of practice)	2025-05-07 18:09:15

Maureen Retzel	Anchorage	AK	99511	Vote to include the amendment that prohibits pharmacists from prescribing chemical abortion pills	2025-05-10
Eilisa Maes	Anchorage	AK	99516	We can do better for women. Great health care involves caring for both mother and baby instead of killing the baby So many alternatives to support womens health. (teach women their value , end sex trafficking, support abortion, support mother and baby) It's all about money. Use the money for good (education classes, increase WIC, criminalization of porn.) Support women to be their healthiest. End abortion (word used as in killing a baby in the mothers womb for any reason besides life if the mother)	2026-04-16 07:09:34
Susanne Bolin	Anchorage	AK	99508	We do NOT need more ways /places to kill babies.	2025-05-20
Donna Wilmot	Soldotna	AK	99669	We do NOT support this bill.	2025-05-08
Patrick Flores-Muller	Anchorage	AK	99507	We do not want our tax dollars spent on giving people abortion pills. Put our tax dollars to use to the common good of all, not just a select few.	2026-02-16 05:18:36
Katherine Reed	Anchorage	AK	99516	We elected you for the good of communities, to further its inhabitants best interests which includes our right to life, even of those in their mother's womb, whose voice is heard through their mothers and fathers. I elected you to represent me. I say to you, "Save Alaska's babies!" NO ABORTION PILL EXPANSION. In fact, use your power to end horrific, tortuous deaths caused by chemical abortions.	2026-02-16 06:33:04
Elizabeth Chase	Kasilof	AK	99610	We have a responsibility to protect the weak and voiceless... killing babies is murder which is a crime.	2025-07-08
Ruth Brooks	Anchorage	AK	99515	We have murder enough babies without this legislative agenda to kill more and harming the mother of those said babies!	2026-02-24

Abortion Pills claimed **730 babies' lives** in 2025;

Insurance data shows that 1 in 10 women that take abortion pills experience serious or **life-threatening** adverse events;

HB 195 / SB 147 would allow pharmacists to **Prescribe, Administer, and Dispense Abortion Pills**;

THEREFORE: I urge ALL of Alaska's Elected Representatives to **OPPOSE**, vote **DO NOT PASS** or **NO**, and **DEFEAT HB 195 / SB 147** without apology, exception, or compromise.

I call on every elected official in Alaska to **OPPOSE HB 195 / SB 147**. It's a **poison pill** for ALL Alaskans.

Carol Allums	Wasilla	AK	99687	<p>We must put a stop to chemical abortions in Alaska. It is cruel, barbaric, and hypocritical. It is cruel because it ends the life of a child before that child has a chance to enjoy life. Likewise, it is barbaric because it has been scientifically proven that an unborn child is a separate person from its mother. We cannot claim to be either progressive or educated when we govern our country with lies and myths. It is hypocritical because legislators in this state are constantly stumping for legislation to improve the lives of Alaska Natives and yet, we have a majority of legislators who are in favor of advancing a bill which would do irreparable harm to our indigenous population.</p> <p>It may seem kind to offer a mother experiencing hardship an abortion so that she doesn't have additional worries. It may seem easier on the mother to be able to send in prescriptions to do this thereby eliminating the need for expensive travel and procurement of an abortion in an unfamiliar setting. But these are smokescreens. Experiencing the physical pain, and emotional upheaval of an abortion only adds to a mother's burdens. Sending her drugs for a do it at home abortion puts her at significant physical and mental risk. The very thing that expansion of access is supposed to relieve-isolation- is the thing which could harm a mother the most. It does not take a rocket scientist to figure this out.</p> <p>I am pleading with you to as you consider your votes to think about the bill in terms of the humans who will exist under its guidance. Please act as an educated individual and say no to herd mentality and greed. Just because we can do something doesn't mean we should.</p>	2026-03-26 10:31:08

Steve And Nicole Anderson	Eagle River	AK	99577	We urge you to have deliberations in the Senate about the ramifications of this bill. It needs to go through the finance committee and allow public testimony for AK legislators to hear from their constituents. This bill is not just about expanding pharmacists' capabilities but is a veiled reach to allow abortion drugs to be distributed in AK. Thank you for your time.	2026-05-15 17:46:54
Sandra Chatterton	Palmer	AK	99645	What if your mother or someone else had aborted you? You wouldn't be here enjoying your life as it is today. Think about it. YOU WOULDN'T BE! Also, what right do you have taking another's life? From inception through birth it is a human baby made in the image & likeness of God! A fact!! No matter what anyone says, you are killing a human being and it needs to STOP!!!!	2026-04-16 21:42:39
Edna Johanson	Fairbanks	AK	99712	What is the need to expand opportunities to kill CHILDREN IN UTERO ?????????? Those who desire to do so already have the means to do so .	2026-05-06 06:46:22
Kathy Harris	Wasilla	AK	99654	<p>Who determines the VALUE of your life, your children's lives and the lives of others? Do you want to place the value of your life and the lives of others at the mercy of of those who will sell the value of your life to the highest bidder such as Big Pharma and abortionists? God has determined the value of life from the moment of conception, it is invaluable - it is not for sale. The purpose of regulations and laws are to protect life, not maim, traumatize and destroy it. To introduce, let alone pass legislation, that would ignore current CPA requirements and oversights and permit those other than medical providers via a CPA to diagnose the presence of a fetus, a new viable living human being, prescribe and dispense drugs to a pregnant woman or female juvenile to abort and take the life of her baby without an in personal medical exam, without any over-site, without any followup is ludicrous. HB 195 and SB 147 removes the value of life from every individual involved from the medical provider on down to the pregnant woman, the baby and all of society that bears the scars and trauma of being deemed as worthless. These bills sanction to 'Do Harm' with no accountability and violates every moral and ethical foundation supporting quality of life healthcare, the Hippocratic Oath and most importantly, the value of life established by God, the Creator of your, life, my life and the lives of all of society. OPPOSE HB 195 and SB 147. Thank you</p>	2026-04-15 20:28:04
Toby Burke	Kenai	AK	99611	Why are we making it easier and easier for women to kill their babies, and quite often at taxpayer expenses? Please do your job and protect Alaskans right to life guaranteed in our state Constitution. The state Supreme Court does not have the right to overrule the state Legislature, read the state Constitution. The Supreme Court is NOT the final authority. The Legislature has the power to protect life, do it.	2026-05-16 10:41:20
Jim Schulz	Anchorage	AK	99502	why do you want to destroy lives? Lives are sacred. We should do everything we can to give and preserve life. Don't do this detestable thing.	2026-02-15 20:24:12

Rosemarie Henn	Wasilla	AK	99654	Why should Alaskans foster a bill approving dispensation of RU-486 abortion pills that can be toxic or deadly to mothers and serve the death-nell for babies? I strongly encourage you to read this government article which records the damage that RU-486 abortion pills can cause to women: https://pubmed.ncbi.nlm.nih.gov/33939340/	2025-06-08 10:27:20
Toby Burke	Kenai	AK	99611	Why this blood-lust to kill more babies? The bills to expand abortion pill access are positively Satanic. Who in good conscience can say that these bills are good for our state? That it will make our communities stronger and more prosperous? Bills like these are pushed by legislators who have no Faith, who have lost all hope, and can no longer rightfully discern basic good from evil. Lord save us from the abomination of abortion!	2026-02-15 22:11:43
Greg Sullivsn	Palmer	AK	99645	With all the availability of contraceptives THERE SHOULD BE NO NEED FOR ABORTIONS....PERIOD	2026-04-27
Maureen Klump	Anchorage	AK	99515	With little in person oversight , this bill has the potential to seriously harm women with side effects of medication abortions.	2025-06-04
Mary Hutchins	Wasilla	AK	99654	Without knowing ones personal medical history, what would you introduce something as harmful & drastic to their life?! Besides, you are killing a baby! When its time to meet our maker, it will be very clear but pray you see the truth long before you choose to poison others and their future children.	2026-02-16 12:16:17
Steven And Nicole Anderson	Eagle River	AK	99577	Without restrictions this drug puts women at risk! Women are at risk of adverse effects. Women are not being provided the care they need if taking this medication at home or without being directly monitored. Traffickers can use the absence of restrictions to further abuse their victims. Making these pills more readily available does not take care of women, but it does increase their harm. Take care of women and restrict the dispensation of miprefistone. Thank you for your time. Steve and Nicole Anderson	2026-04-10 17:15:42
Lori Wilson-Ortega	Gustavus	AK	99826	Women are being seriously hurt by the abortion pills-some even die. No one should die alone at home after getting them in the mail. No woman should have someone else order the pills and slip them in her drink and cause her to miscarry when she wants the baby. Everything about mail order abortion pills is wrong and dangerous. Do not allow this to happen to Alaskans.	2026-05-15 16:35:59
Eilisa Maes	Anchorage	AK	99516	Women need better than here take this pill and everything will be all right. Women need health care that treats the whole person and cares about her children. Women need access to doctors who can take time to explain what will happen both mentally and physically when taking a pill that will kill their baby . Women need more support. This pill just sweeps everything under the rug and does not deal with all the issues women face. Why are they pregnant and "need" this ???? If they were in a good and loving relationship, there would be no need This pill lets evil continue and keeps women in cycles of no power, no voice, no control. Women need help in getting out of the situation that cause the "need" for this pill. Women need support , training, education Women need better than here take this pill and everything will be all right And what about the baby that is being murdered ? Is that the kind of society we live in ? Just murder someone if they make my life challenging? I can't deal with you let me murder you !? Babies , children and our society need better than here, you are a problem, this pill will murder you and then there will be no problem We all need better !	2025-05-23 07:37:35

Kalimah Toney	Anchorage	AK	99515	Women who are prescribed this pill (Mifepristone) who end up in the hospital, are advised by medical professionals to lie to emergency room staff and say they are having a spontaneous miscarriage. Because of this, we arent able to know the full extent of the damage these pills are causing. This means women are making uninformed decisions to take this pill. Its not as simple as take a pill and move on. There are life threatening complications directly tied to Mifepristone.	2026-02-16 10:36:17

Abortion Pills claimed **730 babies' lives** in 2025;

Insurance data shows that 1 in 10 women that take abortion pills experience serious or **life-threatening** adverse events;

HB 195 / SB 147 would allow pharmacists to **Prescribe, Administer, and Dispense Abortion Pills**;

THEREFORE: I urge ALL of Alaska's Elected Representatives to **OPPOSE**, vote **DO NOT PASS** or **NO**, and **DEFEAT HB 195 / SB 147** without apology, exception, or compromise.

I call on every elected official in Alaska to **OPPOSE HB 195 / SB 147**. It's a **poison pill** for ALL Alaskans.

Abortion Pills claimed **730 babies' lives** in 2025;

Insurance data shows that 1 in 10 women that take abortion pills experience serious or **life-threatening** adverse events;

HB 195 / SB 147 would allow pharmacists to **Prescribe, Administer, and Dispense Abortion Pills**;

THEREFORE: I urge ALL of Alaska's Elected Representatives to **OPPOSE**, vote **DO NOT PASS** or **NO**, and **DEFEAT HB 195 / SB 147** without apology, exception, or compromise.

I call on every elected official in Alaska to **OPPOSE HB 195 / SB 147**. It's a **poison pill** for ALL Alaskans.

Abortion Pills claimed **730 babies' lives** in 2025;

Insurance data shows that 1 in 10 women that take abortion pills experience serious or **life-threatening** adverse events;

HB 195 / SB 147 would allow pharmacists to **Prescribe, Administer, and Dispense Abortion Pills**;

THEREFORE: I urge ALL of Alaska's Elected Representatives to **OPPOSE**, vote **DO NOT PASS** or **NO**, and **DEFEAT HB 195 / SB 147** without apology, exception, or compromise.

I call on every elected official in Alaska to **OPPOSE HB 195 / SB 147**. It's a **poison pill** for ALL Alaskans.
