**Subject:** Oppose Jahna Lindemuth for Attorney General

My name is Mike Coons from Palmer and speaking for myself.

I strongly oppose Jahna Lindemuth for Attorney General.

As others have and will most likely state, her and the Governors actions on 2477 access to our lands is not being a advocate for all Alaskans but for a corporation. A corporation that holds a lot of land that we all hunt, fish and recreate on. If this, behind the door negotiation, continues for the corporation and against all Alaskans, what other access points are next? The Federal court that is hearing this will rule not as Alaskans or for Alaskan but what an Alaskan AG has negotiated with an Alaskan corporation for the benefit of that corporation. Ms Lindemuth's and the Governor's continual stand on closed door negotiations is just the tip of the iceberg and if she is confirmed, God help us!

There is another 2477 issue coming up, that being access to Chicken trails through Federal lands. I would think that it would be hard to go to court for our access in this case when that same court has OK'd reduced access to Alaska lands through an Alaskan corporation.

Ms Lindemuth is a graduate of UC Birkley. The same UC Birkley with a long history of extreme liberal thought and action. It would be of interest to know if Ms Lindemuth has or will speak out and condemn the riots at Birkley to stop the 1st Amendment right of a speaker that the anarchist of Birkley opposed. The reason to know is simple, does she stand for the law or does she turn a blind eye to lawlessness if it is for far leftist views?

26 State AG's filed lawsuits against EPA on Carbon Tax. Alaska was not one of them. There were several other lawsuits by lower 48 AG's against the Obama administration that this Governor and AG refused to join in with. My concern is, will she and the Governor join with the far left States in suing the Trump administration over the pause on entry into our country, the new EPA reversals of regulations that have impacted our State and so many others? Will she and the Governor side with the eco-wacko's in the remaining time of Governor Walkers administration?

Lastly, I fully supported and still support a Constitutional Amendment to have Alaskan's vote for the AG, vs this appointment method. When we have had strong conservative Alaskan Governors that has worked for us. Sadly, this Governor is so far to the left he is on Senator Cruz's right shoulder! Sadly also, this Governor is known to attack through all means possible, those whom oppose him, the Palmer Pioneers Home as prime example for the valley not supporting a income tax! My fear is that he will, through his AG, do even more harm.

Do not pass out of committee Jahna Lindemuth for Attorney General
