## FISCAL NOTE ANALYSIS

STATE OF ALASKA  
2025 LEGISLATIVE SESSION

BILL NO. HB117

### Analysis

This legislation would allow for two or more salmon fishery set gillnet permit holders to enter into a multi-permit cooperative operation with a maximum of ten permit holders per cooperative. The salmon harvested by these cooperatives are exempted from individual delivery requirements and could be stored together, delivered under one fish ticket, and sold by one member of the cooperative or a transporter. These cooperatives would be required to register with the Department of Fish and Game under regulations adopted by the Board of Fisheries. The regulations must also specify how a permit holder is to report harvest when fishing cooperatively.

The department already registers set gillnet joint ventures in Kodiak and would be able to provide new cooperatives existing forms to register with the department. There will be some costs and staff time associated with developing regulations, but the department does not anticipate any significant program or fiscal impacts. Therefore, the department submits a zero fiscal note.
