Part-time								
Temporary								

**ANALYSIS:** *(Attach a separate page if necessary)*

HB94 establishes a new statewide scholarship program for postsecondary students in Alaska. The Commission is to administer the program. ACPE management believes it is possible to design an efficient method of receiving and processing program applications so that no new staff are needed. Doing so is predicated on appropriate design and implementation of robust program management software. ACPE has in place a system developed to support the existing state grant program; however, eligibility criteria for this new scholarship program will require the collection of additional data requiring an enhancement to the existing system, including development of a web-based online application.
