**Subject:** SB87

Sir,

Please submit my letter to the packet for wednesday's hearing on SB 87 as a letter of support.

Dear Chairman Birch and members of the Senate Resource Committee

I am an Alaska resident and I request that you support SB87. It is only right that when hunt opportunities are limited resident hunters should have priority over non-resident hunters. This puts the State constitutional rights of your constituents over a minority with a vested interest in our resources. I am not opposed to non-resident hunters or guides but residents should have first right to limited resources when harvest are restricted.

Thank you for your consideration.

Sincerely,

Robert S Holbrook
