<u>A M E N D M E N T</u>

OFFERED IN THE SENATE	BY SENATOR

TO: SSSB 54

23

Page 13, lines 2 - 7: 1 2 Delete "to an officer or employee practicing engineering, architecture, land 3 surveying, or landscape architecture on 4 (A) [TO] buildings or structures whose primary use is public 5 occupancy; or 6 (B) natural gas pipelines; in this subparagraph, "natural 7 gas pipeline" has the meaning given in AS 31.25.390;" 8 Insert "to buildings or structures whose primary use is public occupancy;" 9 10 Page 13, following line 28: 11 Insert new bill sections to read: 12 "* Sec. 27. AS 08.48.331(a), as amended by sec. 26 of this Act, is amended to read: 13 (a) This chapter does not apply to 14 (1) a contractor performing work designed by a professional architect, 15 engineer, or landscape architect or the supervision of the construction of the work as a 16 supervisor or superintendent for a contractor; 17 (2) workers in building trades crafts, earthwork, grounds keeping, or 18 nursery operations, and superintendents, supervisors, or inspectors in the performance 19 of their customary duties; 20 (3) an officer or employee of the United States government practicing 21 architecture, engineering, land surveying, or landscape architecture as required by the 22 person's official capacity;

(4) an employee or a subordinate of a registrant if the work or service

partnership of registered individuals, corporation, limited liability company, limited liability partnership, or limited partnership authorized to practice architecture engineering, land surveying, or landscape architecture under this chapter, in the performance of professional services if responsible charge of the work remains with the registrant, the partnership, or a designated representative of the corporation limited liability company, limited liability partnership, or limited partnership; (6) a person preparing drawings or specifications for (A) a building for the person's own use and occupancy as single family residence and related site work for that building; (B) farm or ranch buildings and their grounds unless the public health, safety, or welfare is involved; (C) a building that is intended to be used only as a residence to not more than (i) four families and that is not more than two storic high and the grounds of the building; or (ii) two families and that is not more than three storic high and the grounds of the building or residential code that applicate to the building and if the building or residential code that applicate to the building and if the building complies with the building residential code; (D) a garage, workshop, or similar building that contains led than 2,000 square feet of floor space to be used for a private noncommercic purpose and the grounds of the building. (7) a specialty contractor licensed under AS 08.18 while engaged the business of construction contracting for work designed by an architect, engineer or landscape architect that is within the specialty to be performed or supervised by the specialty contractor, or a contractor preparing shop or field drawings for work that the specialty contractor has contracted to perform;	1	is done under the direct supervision of a registrant;
liability partnership, or limited partnership authorized to practice architecture engineering, land surveying, or landscape architecture under this chapter, in the performance of professional services if responsible charge of the work remains with the registrant, the partnership, or a designated representative of the corporation limited liability company, limited liability partnership, or limited partnership; (6) a person preparing drawings or specifications for (A) a building for the person's own use and occupancy as single family residence and related site work for that building; (B) farm or ranch buildings and their grounds unless the public health, safety, or welfare is involved; (C) a building that is intended to be used only as a residence to not more than (i) four families and that is not more than two storic high and the grounds of the building; or (ii) two families and that is not more than three storic high and the grounds of the building or residential code that applicate to the building and if the building complies with the building or residential code; (D) a garage, workshop, or similar building that contains le than 2,000 square feet of floor space to be used for a private noncommercic purpose and the grounds of the building; (7) a specialty contractor licensed under AS 08.18 while engaged the business of construction contracting for work designed by an architect, engineer or landscape architect that is within the specialty to be performed or supervised by the specialty contractor, or a contractor preparing shop or field drawings for work that the specialty contractor has contracted to perform;	2	(5) associates, consultants, or specialists retained by a registrant
engineering, land surveying, or landscape architecture under this chapter, in the performance of professional services if responsible charge of the work remains with the registrant, the partnership, or a designated representative of the corporation limited liability company, limited liability partnership, or limited partnership; (6) a person preparing drawings or specifications for (A) a building for the person's own use and occupancy as single family residence and related site work for that building; (B) farm or ranch buildings and their grounds unless the public health, safety, or welfare is involved; (C) a building that is intended to be used only as a residence be not more than (i) four families and that is not more than two storic high and the grounds of the building; or (ii) two families and that is not more than three storic high and the grounds of the building, if the building is located in municipality that has adopted a building or residential code that applic to the building and if the building complies with the building residential code; (D) a garage, workshop, or similar building that contains le than 2,000 square feet of floor space to be used for a private noncommerci purpose and the grounds of the building; (7) a specialty contractor licensed under AS 08.18 while engaged the business of construction contracting for work designed by an architect, engineer or landscape architect that is within the specialty to be performed or supervised by the specialty contractor, or a contractor preparing shop or field drawings for work that the specialty contractor has contracted to perform;	3	partnership of registered individuals, corporation, limited liability company, limited
performance of professional services if responsible charge of the work remains wi the registrant, the partnership, or a designated representative of the corporatio limited liability company, limited liability partnership, or limited partnership; (6) a person preparing drawings or specifications for (A) a building for the person's own use and occupancy as single family residence and related site work for that building; (B) farm or ranch buildings and their grounds unless the publ health, safety, or welfare is involved; (C) a building that is intended to be used only as a residence to not more than (i) four families and that is not more than two storic high and the grounds of the building; or (ii) two families and that is not more than three storic high and the grounds of the building, if the building is located in municipality that has adopted a building or residential code that applicate to the building and if the building complies with the building residential code; (D) a garage, workshop, or similar building that contains lee than 2,000 square feet of floor space to be used for a private noncommercic purpose and the grounds of the building; (7) a specialty contractor licensed under AS 08.18 while engaged the business of construction contracting for work designed by an architect, engines or landscape architect that is within the specialty to be performed or supervised by the specialty contractor, or a contractor preparing shop or field drawings for work that the specialty contractor has contracted to perform;	4	liability partnership, or limited partnership authorized to practice architecture
the registrant, the partnership, or a designated representative of the corporation limited liability company, limited liability partnership, or limited partnership; (6) a person preparing drawings or specifications for (A) a building for the person's own use and occupancy as single family residence and related site work for that building; (B) farm or ranch buildings and their grounds unless the public health, safety, or welfare is involved; (C) a building that is intended to be used only as a residence of the not more than (i) four families and that is not more than two storic high and the grounds of the building; or (ii) two families and that is not more than three storic high and the grounds of the building, if the building is located in municipality that has adopted a building or residential code that applicate to the building and if the building complies with the building or residential code; (D) a garage, workshop, or similar building that contains led than 2,000 square feet of floor space to be used for a private noncommercity purpose and the grounds of the building; (7) a specialty contractor licensed under AS 08.18 while engaged the business of construction contracting for work designed by an architect, engineer or landscape architect that is within the specialty to be performed or supervised by the specialty contractor, or a contractor preparing shop or field drawings for work that the specialty contractor has contracted to perform;	5	engineering, land surveying, or landscape architecture under this chapter, in the
limited liability company, limited liability partnership, or limited partnership; (6) a person preparing drawings or specifications for (A) a building for the person's own use and occupancy as single family residence and related site work for that building; (B) farm or ranch buildings and their grounds unless the publicable. (C) a building that is intended to be used only as a residence to not more than (i) four families and that is not more than two storicable high and the grounds of the building; or (ii) two families and that is not more than three storicable high and the grounds of the building, if the building is located in municipality that has adopted a building or residential code that applicable to the building and if the building complies with the building residential code; (D) a garage, workshop, or similar building that contains lee than 2,000 square feet of floor space to be used for a private noncommercical purpose and the grounds of the building; (7) a specialty contractor licensed under AS 08.18 while engaged the business of construction contracting for work designed by an architect, engineer or landscape architect that is within the specialty to be performed or supervised by the specialty contractor, or a contractor preparing shop or field drawings for work that the specialty contractor has contracted to perform;	6	performance of professional services if responsible charge of the work remains with
(6) a person preparing drawings or specifications for (A) a building for the person's own use and occupancy as single family residence and related site work for that building; (B) farm or ranch buildings and their grounds unless the public health, safety, or welfare is involved; (C) a building that is intended to be used only as a residence building and that is not more than (i) four families and that is not more than two storic high and the grounds of the building; or (ii) two families and that is not more than three storic high and the grounds of the building, if the building is located in municipality that has adopted a building or residential code that applicate to the building and if the building complies with the building residential code; (D) a garage, workshop, or similar building that contains led than 2,000 square feet of floor space to be used for a private noncommercic purpose and the grounds of the building; (7) a specialty contractor licensed under AS 08.18 while engaged the business of construction contracting for work designed by an architect, engineer or landscape architect that is within the specialty to be performed or supervised by the specialty contractor, or a contractor preparing shop or field drawings for work that the specialty contractor, or a contracted to perform;	7	the registrant, the partnership, or a designated representative of the corporation
(A) a building for the person's own use and occupancy as single family residence and related site work for that building; (B) farm or ranch buildings and their grounds unless the public health, safety, or welfare is involved; (C) a building that is intended to be used only as a residence be not more than (i) four families and that is not more than two storic high and the grounds of the building; or (ii) two families and that is not more than three storic high and the grounds of the building if the building is located in municipality that has adopted a building or residential code that applicate to the building and if the building complies with the building residential code; (D) a garage, workshop, or similar building that contains le than 2,000 square feet of floor space to be used for a private noncommercic purpose and the grounds of the building; (7) a specialty contractor licensed under AS 08.18 while engaged the business of construction contracting for work designed by an architect, engineer or landscape architect that is within the specialty to be performed or supervised by the specialty contractor, or a contractor preparing shop or field drawings for work that the specialty contractor has contracted to perform;	8	limited liability company, limited liability partnership, or limited partnership;
single family residence and related site work for that building; (B) farm or ranch buildings and their grounds unless the public health, safety, or welfare is involved; (C) a building that is intended to be used only as a residence be not more than (i) four families and that is not more than two storic high and the grounds of the building; or (ii) two families and that is not more than three storic high and the grounds of the building, if the building is located in municipality that has adopted a building or residential code that applicate to the building and if the building complies with the building residential code; (D) a garage, workshop, or similar building that contains led than 2,000 square feet of floor space to be used for a private noncommercity purpose and the grounds of the building; (7) a specialty contractor licensed under AS 08.18 while engaged the business of construction contracting for work designed by an architect, engineer or landscape architect that is within the specialty to be performed or supervised by the specialty contractor, or a contractor preparing shop or field drawings for work that the specialty contractor has contracted to perform;	9	(6) a person preparing drawings or specifications for
12 (B) farm or ranch buildings and their grounds unless the publication health, safety, or welfare is involved; 14 (C) a building that is intended to be used only as a residence by the not more than 16 (i) four families and that is not more than two stores high and the grounds of the building; or 18 (ii) two families and that is not more than three stores high and the grounds of the building, if the building is located in municipality that has adopted a building or residential code that applicate to the building and if the building complies with the building residential code; 19 (D) a garage, workshop, or similar building that contains led than 2,000 square feet of floor space to be used for a private noncommercical purpose and the grounds of the building; 10 (7) a specialty contractor licensed under AS 08.18 while engaged the business of construction contracting for work designed by an architect, engineer or landscape architect that is within the specialty to be performed or supervised by the specialty contractor, or a contractor preparing shop or field drawings for work that the specialty contractor has contracted to perform;	10	(A) a building for the person's own use and occupancy as a
health, safety, or welfare is involved; (C) a building that is intended to be used only as a residence to not more than (i) four families and that is not more than two storic high and the grounds of the building; or (ii) two families and that is not more than three storic high and the grounds of the building, if the building is located in municipality that has adopted a building or residential code that applied to the building and if the building complies with the building residential code; (D) a garage, workshop, or similar building that contains led than 2,000 square feet of floor space to be used for a private noncommercic purpose and the grounds of the building; (7) a specialty contractor licensed under AS 08.18 while engaged the business of construction contracting for work designed by an architect, engineer or landscape architect that is within the specialty to be performed or supervised by the specialty contractor, or a contractor preparing shop or field drawings for work that the specialty contractor has contracted to perform;	11	single family residence and related site work for that building;
16 (C) a building that is intended to be used only as a residence to not more than (i) four families and that is not more than two storic high and the grounds of the building; or (ii) two families and that is not more than three storic high and the grounds of the building, if the building is located in municipality that has adopted a building or residential code that applied to the building and if the building complies with the building residential code; (D) a garage, workshop, or similar building that contains le than 2,000 square feet of floor space to be used for a private noncommercic purpose and the grounds of the building; (7) a specialty contractor licensed under AS 08.18 while engaged the business of construction contracting for work designed by an architect, engineer or landscape architect that is within the specialty to be performed or supervised by the specialty contractor, or a contractor preparing shop or field drawings for work that the specialty contractor has contracted to perform;	12	(B) farm or ranch buildings and their grounds unless the public
not more than (i) four families and that is not more than two stores high and the grounds of the building; or (ii) two families and that is not more than three stores high and the grounds of the building, if the building is located in municipality that has adopted a building or residential code that applied to the building and if the building complies with the building residential code; (D) a garage, workshop, or similar building that contains led than 2,000 square feet of floor space to be used for a private noncommercic purpose and the grounds of the building; (7) a specialty contractor licensed under AS 08.18 while engaged the business of construction contracting for work designed by an architect, engineer or landscape architect that is within the specialty to be performed or supervised by the specialty contractor, or a contractor preparing shop or field drawings for work that the specialty contractor has contracted to perform;	13	health, safety, or welfare is involved;
16 (i) four families and that is not more than two storics high and the grounds of the building; or 18 (ii) two families and that is not more than three storics high and the grounds of the building, if the building is located in municipality that has adopted a building or residential code that applicate to the building and if the building complies with the building residential code; 23 (D) a garage, workshop, or similar building that contains le than 2,000 square feet of floor space to be used for a private noncommercical purpose and the grounds of the building; 26 (7) a specialty contractor licensed under AS 08.18 while engaged the business of construction contracting for work designed by an architect, engineer or landscape architect that is within the specialty to be performed or supervised by the specialty contractor, or a contractor preparing shop or field drawings for work that the specialty contractor has contracted to perform;	14	(C) a building that is intended to be used only as a residence by
high and the grounds of the building; or (ii) two families and that is not more than three storic high and the grounds of the building, if the building is located in municipality that has adopted a building or residential code that applicate to the building and if the building complies with the building residential code; (D) a garage, workshop, or similar building that contains le than 2,000 square feet of floor space to be used for a private noncommercical purpose and the grounds of the building; (7) a specialty contractor licensed under AS 08.18 while engaged the business of construction contracting for work designed by an architect, engineer or landscape architect that is within the specialty to be performed or supervised by the specialty contractor, or a contractor preparing shop or field drawings for work that the specialty contractor has contracted to perform;	15	not more than
18 (ii) two families and that is not more than three storic high and the grounds of the building, if the building is located in municipality that has adopted a building or residential code that applied to the building and if the building complies with the building residential code; 22 (D) a garage, workshop, or similar building that contains le than 2,000 square feet of floor space to be used for a private noncommercic purpose and the grounds of the building; 26 (7) a specialty contractor licensed under AS 08.18 while engaged the business of construction contracting for work designed by an architect, engineer or landscape architect that is within the specialty to be performed or supervised by the specialty contractor, or a contractor preparing shop or field drawings for work that the specialty contractor has contracted to perform;	16	(i) four families and that is not more than two stories
high and the grounds of the building, if the building is located in municipality that has adopted a building or residential code that applicate to the building and if the building complies with the building residential code; (D) a garage, workshop, or similar building that contains le than 2,000 square feet of floor space to be used for a private noncommercical purpose and the grounds of the building; (7) a specialty contractor licensed under AS 08.18 while engaged the business of construction contracting for work designed by an architect, engineer or landscape architect that is within the specialty to be performed or supervised by the specialty contractor, or a contractor preparing shop or field drawings for work that the specialty contractor has contracted to perform;	17	high and the grounds of the building; or
municipality that has adopted a building or residential code that applied to the building and if the building complies with the building residential code; (D) a garage, workshop, or similar building that contains le than 2,000 square feet of floor space to be used for a private noncommercic purpose and the grounds of the building; (7) a specialty contractor licensed under AS 08.18 while engaged the business of construction contracting for work designed by an architect, engineer or landscape architect that is within the specialty to be performed or supervised by the specialty contractor, or a contractor preparing shop or field drawings for work that the specialty contractor has contracted to perform;	18	(ii) two families and that is not more than three stories
to the building and if the building complies with the building residential code; (D) a garage, workshop, or similar building that contains le than 2,000 square feet of floor space to be used for a private noncommercity purpose and the grounds of the building; (7) a specialty contractor licensed under AS 08.18 while engaged the business of construction contracting for work designed by an architect, engineer or landscape architect that is within the specialty to be performed or supervised by the specialty contractor, or a contractor preparing shop or field drawings for work that the specialty contractor has contracted to perform;	19	high and the grounds of the building, if the building is located in a
residential code; (D) a garage, workshop, or similar building that contains le than 2,000 square feet of floor space to be used for a private noncommerci purpose and the grounds of the building; (7) a specialty contractor licensed under AS 08.18 while engaged the business of construction contracting for work designed by an architect, enginee or landscape architect that is within the specialty to be performed or supervised by the specialty contractor, or a contractor preparing shop or field drawings for work that the specialty contractor has contracted to perform;	20	municipality that has adopted a building or residential code that applies
(D) a garage, workshop, or similar building that contains le than 2,000 square feet of floor space to be used for a private noncommerci purpose and the grounds of the building; (7) a specialty contractor licensed under AS 08.18 while engaged the business of construction contracting for work designed by an architect, engines or landscape architect that is within the specialty to be performed or supervised by the specialty contractor, or a contractor preparing shop or field drawings for work that the specialty contractor has contracted to perform;	21	to the building and if the building complies with the building or
than 2,000 square feet of floor space to be used for a private noncommercial purpose and the grounds of the building; (7) a specialty contractor licensed under AS 08.18 while engaged the business of construction contracting for work designed by an architect, engineer or landscape architect that is within the specialty to be performed or supervised by the specialty contractor, or a contractor preparing shop or field drawings for work that the specialty contractor has contracted to perform;	22	residential code;
purpose and the grounds of the building; (7) a specialty contractor licensed under AS 08.18 while engaged the business of construction contracting for work designed by an architect, engineer or landscape architect that is within the specialty to be performed or supervised by the specialty contractor, or a contractor preparing shop or field drawings for work that the specialty contractor has contracted to perform;	23	(D) a garage, workshop, or similar building that contains less
26 (7) a specialty contractor licensed under AS 08.18 while engaged 27 the business of construction contracting for work designed by an architect, engines 28 or landscape architect that is within the specialty to be performed or supervised by th 29 specialty contractor, or a contractor preparing shop or field drawings for work that th 30 specialty contractor has contracted to perform;	24	than 2,000 square feet of floor space to be used for a private noncommercial
the business of construction contracting for work designed by an architect, engineer or landscape architect that is within the specialty to be performed or supervised by the specialty contractor, or a contractor preparing shop or field drawings for work that the specialty contractor has contracted to perform;	25	purpose and the grounds of the building;
or landscape architect that is within the specialty to be performed or supervised by the specialty contractor, or a contractor preparing shop or field drawings for work that the specialty contractor has contracted to perform;	26	(7) a specialty contractor licensed under AS 08.18 while engaged in
specialty contractor, or a contractor preparing shop or field drawings for work that the specialty contractor has contracted to perform;	27	the business of construction contracting for work designed by an architect, engineer
30 specialty contractor has contracted to perform;	28	or landscape architect that is within the specialty to be performed or supervised by the
	29	specialty contractor, or a contractor preparing shop or field drawings for work that the
31 (8) a person furnishing drawings, specifications, instruments	30	specialty contractor has contracted to perform;
(-) 1,,,	31	(8) a person furnishing drawings, specifications, instruments of

L -2-

1	service, or other data for alterations or repairs to a building or its grounds that do not
2	change or affect the structural system or the safety of the building, or that do not affect
3	the public health, safety, or welfare;
4	(9) a person who is employed by a postsecondary educational
5	institution to teach engineering, architectural, or landscape architectural courses; in
6	this paragraph, "postsecondary educational institution" has the meaning given in
7	AS 14.48.210;
8	(10) an officer or employee of an individual, firm, partnership,
9	association, utility, corporation, limited liability company, limited liability partnership,
10	or limited partnership, who practices engineering, architecture, land surveying, or
11	landscape architecture involved in the operation of the employer's business only if
12	neither the employee nor the employer offers engineering, architecture, land
13	surveying, or landscape architecture services to the public; exclusions under this
14	paragraph do not apply to an officer or employee
15	(A) practicing engineering, architecture, land surveying, or
16	landscape architecture on [TO] buildings or structures whose primary use is
17	public occupancy; or
18	(B) of a utility that owns, operates, manages, or controls a
19	pipeline that furnishes by transmission or distributes natural or
20	manufactured gas to the public for compensation and who is practicing
21	engineering on the facilities of the pipeline that operate at a pressure
22	greater than 100 pounds per square inch gauge in one of the following
23	manners:
24	(i) the installation of a new district pressure
25	regulator station, compressor station, or gate station;
26	(ii) the reconfiguration or physical change of a
27	district pressure regulator station, compressor station, or gate
28	station that alters or modifies the configuration or overpressure
29	protection of equipment; in this sub-subparagraph,
30	"reconfiguration or physical change" does not include a routine
31	operating adjustment or similar replacement; or

L -3-

1	(iii) the installation, uprating, repair by
2	replacement, or abandonment of the pipeline;
3	(11) a person while involved in revegetation, restoration, reclamation,
4	rehabilitation, or erosion control for disturbed land that the board determines does not
5	affect the public health, safety, or welfare;
6	(12) a person while maintaining or directing the placement of plant
7	material that the board determines does not affect the public health, safety, or welfare;
8	(13) an employee, officer, or agent of a regulatory agency of the state
9	or a municipality when reviewing drawings and specifications for compliance with the
10	building codes of the state or a municipality if the drawings and specifications have
11	been sealed and signed by an architect, engineer, land surveyor, or landscape architect
12	or the preparation of the drawings and specifications is exempt under this section from
13	the requirements of this chapter; in this paragraph, "building codes" includes codes
14	relating to building, mechanical, plumbing, electrical, fire safety standards, and
15	zoning;
16	(14) a person who is designing fire protection systems and is
17	authorized by the Department of Public Safety to design fire protection systems;
18	(15) a person who is authorized to construct, install, or modify a
19	conventional onsite wastewater system by the Department of Environmental
20	Conservation under AS 46.03.100 and is constructing, installing, or modifying a
21	conventional onsite wastewater system with a capacity of less than 500 gallons of
22	wastewater a day; the Department of Environmental Conservation may adopt
23	regulations limiting the locations in the state in which this paragraph applies.
24	* Sec. 28. AS 08.48.331 is amended by adding a new subsection to read:
25	(c) Notwithstanding (a)(10)(B) of this section, this chapter does not apply to
26	an officer or employee of a utility that owns, operates, manages, or controls a pipeline
27	that furnishes by transmission or distributes natural or manufactured gas to the public
28	for compensation and who is practicing engineering in an emergency on the facilities
29	of the pipeline that operate at a pressure greater than 100 pounds per square inch
30	gauge. The utility shall notify the Regulatory Commission of Alaska when an officer

or employee of the utility practices engineering in an emergency under this
