## FISCAL NOTE ANALYSIS

STATE OF ALASKA  
2023 LEGISLATIVE SESSION

BILL NO. SB 133

### Analysis

This bill amends AS 37.14 to establish the Opioid Settlement Investment Fund (OSIF) as a special fund of the state outside and separate from the general fund. The fund is established as an investment fund to support opioid addiction treatment, recovery, remediation, and education, and creates a percent of market value draw from the fund for the purpose of annual appropriation by the legislature. The OSIF is intended to be structured like an endowment fund that will be invested to achieve sufficient earnings to grow and provide funding to a second fund, the Opioid Addiction Treatment Fund (OATF) in the general fund that will be used to support various opioid addiction programs.

The proposed annual draw is equal to five percent of the average market value of the fund for the first five of the preceding six fiscal years. This target sum is considered to be sustainable over the long-term life of the fund while allowing the fund to potentially grow its corpus through investment earnings. The bill then directs the legislature to appropriate the five percent draw into the Opioid Addiction Treatment Fund (OATF) for use by the Department of Health (DOH). The division of the OSIF and the OATF is designed to prevent concerns under Art. IX, Sec. 7 of the Alaska Constitution, while maximizing DOH's ability to direct the use of the opioid remediation money. The bill states that money received from the opioid settlement agreements may not be comingled with other funds deposited into the OSIF.

The purpose of the OATF is to serve as a target for the proceeds of the OSIF. The OATF authorizes DOH to expend money in the fund without further legislative appropriation for the purpose of supporting opioid addiction treatment, recovery, remediation, and education. The establishment of the OATF will facilitate compliance with the various opioid settlement agreements by empowering DOH to spend the funds generated by the OSIF without requesting specific appropriations for every target of opioid settlement funds on an annual basis.

The State estimates Alaska will receive settlement funds of \$58.5M at a rate of \$3M per year for 18 years. To date, Alaska has received \$9.2 million in settlement funds.

Prior to the creation of the OSIF and subsequent fund code, and in discussion with the Legislative Finance Division, temporary fund code 1178 has been identified for purposes of this fund transfer.
