Subject: We support HB 61

Dear legislators and staff:

We support our Original US Constitution which protects our gun rights in the Second Bill of Rights. HB 61 is an excellent bill to solidify our Right to Bear Arms even during a disaster, or most recently a pandemic when gun related activities and stores, etc. were curtailed. Having lived under the totalitarian governments in Europe, our brilliant and experienced Founding Fathers knew the importance of the 2nd Amendment protections. Governments do not grant or take away our God-given rights. Governments are supposed to protect our inalienable rights which are from God.

Respectfully,

Jon and Ruth Ewig

Hello,
Thank you for your sacrifice .
I live in Alaska to be free. Don't take that away from me please. I support HB 61. I want you to support it too.

Kind Regards,

Jennifer Sampson
US

I am emailing this morning in support of HB61.

After the Covid fiasco and all of the emergency orders and declarations way too many of our personal rights and liberties were trampled. Looking back at it now is quite alarming and if I am honest, downright infuriating. All of that said, I am definitely interested in limiting the possibility of that happening again. Today that is supporting HB61. DO NOT shut down our ability to purchase or practice with our firearms. Or buy supplies/ammo.

I am praying that our lawmakers are doing all that they can to protect us from this tyranny in the future. ALL that they CAN to protect US, their people, from this government tyranny.

I thank you for your time and dedication to this very important work. I look forward to HB61 passing with flying colors!

This needs to pass to follow with our 2nd amendment rights. There is no need to make criminals out of good law abiding citizens.

Multiple study's show there are as many as 2,000,000 crimes stopped with law abiding gun owning citizens each year.

Pass HB 61 by Rob Myers .

Thank you

Subject: Support of HB61

Hello valued legislators:

We support HB 61 and our 2nd amendment rights and urge each of you to support them as well. As you well know, this bill precludes infringement on our right to keep and bear arms during a disaster. Again, we urge you to support HB61.

Respectfully,

John & Patty Wisel

Fairbanks, AK

Cathy, I run a a firearm store on my property here on Fairview Loop (District 26). I ask you for your full support of HB 61. Prohibiting firearm/ammo sales during an event like Covid would put me out of business and endanger the livelihood of my family. As a retired navy pilot, I urge your full support of this bill.

Respectfully,
Lawrence Myers

Cathy, as a resident in your district, and the wife of a firearms dealer in that same district, I'm asking for your total support of HB 61, as it will provide a means for Alaskans to continue to purchase their firearms, Ammo and other 2nd amendment provisions as needed during any crisis, either actual or created by our government, such as the Covid 19 fraud.

Sincerely,
Kristin M Myers
