

State of Alaska
Executive Order 132
Statement of Cost

Summary

This Executive Order eliminates the Alaska Chilkat Bald Eagle Preserve Advisory Council (council) and transfers the functions of the council to the Department of Natural Resources (DNR). DNR must still consult with other state and federal agencies as required by applicable statutes.

Under Alaska Statute 41.21.615, the Alaska Department of Fish and Game (ADF&G) is responsible for the management of fish and game resources in the preserve, consistent with the purposes and provisions of AS 41.21.610 – 630. Under AS 41.21.616, ADF&G must consult with DNR in proposing regulations governing fish and game management in the preserve for adoption by the Board of Fisheries (BOF) or the Board of Game (BOG). ADF&G must also cooperate with the U.S. Fish and Wildlife Service in its administration of federal law governing the conservation of bald eagles.

Nothing in the order changes the requirements for developing the management plan or regulations. ADF&G’s involvement will not change in any significant way if the council is terminated and will continue to work with DNR to develop the management plan and applicable regulations. Thus, there is no fiscal impact to either ADF&G or DNR.
