Approved By:

Raquel Solomon-Gross, Acting Assistant Commissioner

Date: 02/05/24

Agency:

Department of Health

## FISCAL NOTE ANALYSIS

STATE OF ALASKA  
2024 LEGISLATIVE SESSION

BILL NO. HB196

### Analysis

This bill mandates the Division of Public Assistance to execute Broad-Based Categorical Eligibility within the Supplemental Nutrition Assistance Program (SNAP). The Division of Public Assistance will still need to assess a household's size, income, compliance with work requirements, and other applicable eligibility requirements to determine eligibility for SNAP benefits. Households must complete a SNAP application, have an interview, provide financial documents, report changes, and reapply regularly, just like all other SNAP households.

To effectuate this change, the division will need to enact policy amendments, revising the SNAP state plan and regulations. Furthermore, it necessitates modifications within databases, the implementation of quality oversight measures, and the provision of staff training.

The division estimates this transition will require the allocation of one part time position for policy and training within the Field Services component (costs reflected in this fiscal note) and an additional part time position specifically for oversight and quality control within the Quality Control component (costs reflected in accompanying fiscal note).

Costs related to this fiscal note included:

One part time, range 18, Training Specialist 2 in Anchorage and associated core services and supply costs, including computer, software, and setup costs in the first year.

The division anticipates that these system modifications will coincide with the division's pre-established roadmap for system modernization, targeting effectiveness by FY2025.
