

Associate Counselor License

House Bill 126 & Senate Bill 116

Alaska Board of Professional Counselors - 2023

National Trends

More states are regulating the process for becoming fully licensed through a transparent “pre-licensing” status.

Titles may include associate, trainee, provisional, intern, and conditional.

Pre-Licensure is a Beneficial Trend

Current States with
Pre-Licensure designation

Practicing professional counseling under a license is good for Alaska because:

- Ensures professional trained and supervised counselors are assisting the needs of Alaska residents.
- Creates standard of practice for the state.
- Maintains national standards.
- Provides guidance and accountability for new counselors.
