## FISCAL NOTE ANALYSIS

**STATE OF ALASKA  
2024 LEGISLATIVE SESSION****Analysis**

Currently Mechanical Inspection (MI) is processing Certificate of Fitness (COF) for both trainees and journeyman on a two year cycle. This legislation changes the trainee COF to a six year cycle, and adjusts the fees for inflation on the journeyman COF. This change would allow for trainees to complete their training program under one COF, which ensures the trainee will get credit for all of their training hours.

This legislation is not expected to have a cost to the department as it does not change the process or costs for issuing the COFs. In the calendar year 2020-2022 time period, MI issued an average of 185 Trainee Renewals per year (-\$37,000). In the same period, MI issued an average of 1,606 licenses for Electrical Journeyman, Electrician Residential, Lineman Journeyman, Plumber Gas, Plumber Journeyman, and Plumber Utility (\$148,000). The estimated net increase in receipts as a result of this legislation would be approximately \$111,000 annually.
