Subject: HB 57
Date: Monday, February 6, 2023 11:11:24 AM

Representative Stanley,

Thanks very much for taking this email.

I practiced Emergency SMedicine at Providence Alaska Medical Center for 40 years and am presently the Medical Director for BeaconOHSS; We have 10 clinics on the Northslope of Alaska staffed by Physician Assistants and Nurse Practitioners. It is imperative that we have a robust ongoing Quality Assurance program which requires frequent review of HIPAA protected patient records.

This bill will be invaluable in helping providers feel comfortable using a well established method of reviewing records and using findings to improve our practice of medicine. Strongly encourage you to vote in favor of this bill.

Respectfully,
John Hall M.D.
