Subject: HB 386 Written Testimony

Good evening,

I write concerning my strong opposition to HB 386 which proposes the criminalization of various forms of unpermitted protest. My name is Bailey Demir and I am a former SOA employee, a current UAA student, and a constituent hailing from Anchorage.

It is a widespread phenomenon in right wing states to pass legislation such as this proposed bill that essentially criminalizes all forms of protest. The definition of blocking a roadway is elastic by design and the existence of such proposed legislation reflects a cowardice on the part of its proponents. Proponents of it show themselves to be uniquely intent on limiting the forms of expression that are allowable in this state. This would seem to indicate some concern about the demands and concerns that protests regularly raise awareness around.

Not only is such legislation likely to be ruled to be unconstitutional, it is also hypocritical, given the outsized support for free speech rights that is commonly voiced by the republican (arguably better described as "christofascist") Alaskan contingent.

Were republicans to be beset with a democratic administration and a proposal of similar legislation there would be unpermitted uproar in the streets aplenty. If the bill were to pass there would be no arrests made, as unfortunately the venn diagram of cops and angry republicans is essentially a circle. (Hopefully from this you can come to understand my use of the word "christofascist")

Protest of the status quo is necessarily disruptive. In the words of movement leaders Mariame Kaba and Kelly Hayes "it is therefore imperative that the state not be arbiter of what violence means among people seeking justice." I've yet to see a protest to date that was organized around a rallying cry to impede all roadways and slow down ambulances. Protest attendees are typically conscientious humans intent on a safer more humanist world (I would even extend this characterization to right wing protesters, much as their protests tend to be vastly more self concerned.)

Please know you have lives in your hands with this bill. I'd love to be proven wrong about the christofascism.

Thanks for fielding this,

Bailey Demir

Dear House Transportation Committee Members,

I am writing to express my opposition to HB 386. This bill would violate Alaskans' freedom of speech, a right guaranteed by the First Amendment, as well as their right to assemble.

It's appalling that this bill is an apparent attempt to quash our right to participate in peaceful public protests and would criminalize Alaskans who are doing nothing more than exercising our constitutional rights.

Please do not advance this bill. Show that you are willing to protect our most basic and fundamental rights.

Respectfully,

Hello

My name is Brook Beveridge and I am an Anchorage resident. I am sending this to be my written testimony against HB 386. This legislation is unconstitutional as it directly violates the first amendment right to assemble and freedom of speech. This is an attempt to criminalize Alaskans who are exercising their constitutional rights through creating a crime that doesn't exist and I urge you to oppose this bill. Instead I suggest considering the asks from the folks who protest in the community to find an alternative solution for all, instead of trying to scare them into silence.

Thank you,

Brook

Dear committee members,

I am writing to you to express my deep reservations against this bill. The right of American citizens to peaceful assemble and the expression of their opinions is the most intrinsic element of the U.S. Constitution. So important is this right, that the crafters placed it firstly above all others. Please do not allow this unconstitutional bill to pass. Keep democracy free!

Thank you,

Good afternoon,
I would like to express my opposition to House Bill 386, Obstruction of Public Places; Trespassing.

As written, the bill would potentially curtail the right of the Alaskan people to peacefully protest. While I understand the need to preserve public safety, this bill does not, in my opinion, do so but rather offers a framework that could be abused to stop lawful public demonstration.

I ask that you do not move this bill forward.

Regards
Oscar Lage

The right to protest is a basic right of the American people.

Per THE FIRST AMENDMENT OF OUR CONSTITUTION:

Congress shall make no law abridging...the right of the people peaceably to assemble...

Therefore, HB 386 is unconstitutional. It is our leaders' job to protect the rights of the American people, not take them away.

As an Alaskan voter, I do not support HB 386 and it should not be passed.

Hello,

This is Talia Williams writing to state that I oppose Bill HB386. This bill is an obstruction of freedom to assembly, and can be used to criminalize protesting, which is unconstitutional. Furthermore, this bill is an attempt to give the state the power to mute the people of Alaska. We have the right to assemble and the right to make ourselves heard. By passing such a broad and non-specific bill, these rights would be encroached upon by the very legal system which claims to provide "freedom and justice for all." When we no longer can voice ourselves, we no longer have access to justice. A state which silences its people is not a free state.

Thank you for your time,
Talia Williams
