PAMELA DUPRAS

Educator

WHO AM I?

I am an educator who was born and raised in Alaska. I have spent my entire adult career as an educator in both rural and urban districts in Alaska. My career began in the North Slope Borough as a 2nd grade teacher where my passion has always been to help learners achieve the academic success they strive to attain.

I strongly support collaboration between varying programs to help in this success. As an English Language Learner Teacher and coach, I have learned to work with a diverse group of stakeholders to implement school improvement. As an English Learner, myself I recognize the difficulty of many children in the classroom when they lack the language skills to succeed. I often seek to work collaboratively on goals to improve student success.

Objective

To use my years and diverse work experience in both rural and urban school districts to ensure through collaborative practices that school improvement efforts in the State of Alaska help students succeed to the best of their ability.
