Subject: Biological girls in girl sports ONLY.

ONLY biological girls should be able to compete in girl sports. Anything else is absurd. The fact this even needs to be discussed is ridiculous and shows how woke ideology has taken grab through outside extreme pressure that does NOT represent the majority of the families in Alaska. Support the young girls of this state and don't sell out.

Do the right thing. We are watching.

Salutations,

To protect girls sports more permanently, the Legislature needs to vote yes on HB 183 and make it law, as 22 other states have already done, that makes sure girls can compete in their on sport, on a level playing field (against opponents and with teammates who are biologically female).

I am in full support of common sense legislation like HB183, I urge you to do the same with your vote.

Cordially,

Subject: Girls Sports and HB183

I Fully Support equality in girls sports. However, a male body is stronger and built sturdier than that of a girl body. I realize that some "boys" identify as girls but that does not make their participation in girls sports fair. They need to compete with those with a similar physiology. HB183 seems like a fair and protective way to ensure that our girls get to compete with other biologic girls in competitions. I don't feel that this is discriminatory in any way with those who claim to be girls yet have the body of a boy. It is just cheating.

Please vote "Yes" on House Bill 183 to ensure women always compete against women... ONLY. It just makes sense! It's hard to believe that this is even necessary, but it certainly is, given the present situation we live in.

As a state, we need to plant a stake, just like 22 other states have, and say, "Not here!" We need to protect women and their safety while competing, regardless of the fact that men are in a whole different class athletically. Again, it's common sense.

Thank you.

Subject: Please OPPOSE HB 183. Let all kids play!

Dear Alaska House Education Committee,

I am writing to urge you to oppose HB 183.

HB 183 is a discriminatory bill that would violate students' privacy rights and deny trans students the opportunity to fully participate in their school community. All students deserve to be treated with dignity and respect. To protect students' privacy and push back against discrimination, please oppose this bill and let trans students be part of the team.

It's a whole lot more important that every student have the opportunity to participate in sports should they wish to do so than that the participants be "vetted" by some arbitrary ideas about gender to increase the chances that other participants might have a better chance of winning. People are always saying are a good way to build teamwork and character -- but what does it say about teamwork and character when adults tell certain students they can't participate?

Sincerely,
Patti Saunders

Subject: HB183

Dear House Education Committee Members,

I am writing to give my full and complete support to HB183.

As a former female HS athlete and mother of a potential future female HS athlete, I have grown quite concerned about what has been evolving in women's sports with the inclusion of transgender men.

It only takes common sense to clearly see the biological differences between male and females, particularly when it comes to the physical differences and the advantages males naturally have. This is why female and male sports have for so long been separated, to give females a chance at an even and safe playing field.

Seeing hard-working females come in behind biological males in competitions, being injured by biological males participating in female sports, or having to undergo the humiliation and discomfort of sharing a locker room with a member of the opposite sex is incredibly discouraging to me, as a female. Females spent years fighting for equal rights, and now, shockingly, it is all being reversed before our eyes.

This is not about attacking or trying to exclude certain members of the population. This is about protecting females. Protecting the rights of those who came before us fought so hard for, and protecting present and future womens sports. The answer is simple. Biological males compete against biological males, and biological females compete against biological females.

Please, vote YES on HB183

Sincerely,
Jen Bingaman

Dear House Education Committee,

It seems strange that we even have to address this issue. I would have thought this was already covered in Title IX legislation, but here we are. It is obvious that boys and girls are different. Just because a boy has the delusion that he is a girl doesn't make him a girl. As those who oversee education you should seek to get these boys the mental health they need and not indulge their delusion. I am strongly requesting that you pass HB183 and protect women's sports, save our girls from getting injured, and allow them to earn the scholarships they have worked so hard to achieve.

Again please pass HB183 this common sense legislation.

Sincerely,
Pastor James Walsh

Subject: HB 183

As a mom with a daughter that competed at a national level after years of training, sacrifice and hard work, there is no way she could have had the opportunity if she had been forced to compete against males in her sport.

I ask you to protect girls from having to compete with male athletes. It's completely unfair to the girls and it puts them in harm's way.

It's not good for the male athletes either. Some say it is for their mental health that they should be allowed to compete against females, but what athlete is going to feel better about themselves by competing against another athlete that even at their top fitness level is in a completely different category biologically? Athletes with good character want to earn a win not steal it.

If we don't hold high standards for our athletes, where will it stop? Will a college athlete that identifies as a 12 year old be able to compete in middle school athletics?

You have opportunity to do what is right, please take action to protect girls in sports.

Thank you!

Subject: Subject: Let's Stand Up for Alaskan Female Athletes – Support HB 183

Dear Members of the Alaska House Education Committee,

I'm reaching out to share my enthusiasm and full support for HB 183, championed by Rep. Jamie Allard. This bill is not just legislation; it's a step toward fairness for our young female athletes in Alaska's public schools.

We're at a pivotal moment where the fairness of sports competitions is at stake. The Alaska School Activities Association and the Alaska State Board of Education have made strides in ensuring that girls' sports are for girls. Yet, without the backbone of a law like HB 183, these protections are as sturdy as a house of cards, susceptible to the winds of political change.

HB 183 isn't merely about sports; it's about justice, opportunity, and recognition for our female athletes. It's about giving them a fair chance to shine, free from unfair competition. This issue transcends politics—it's about real people and real dreams.

Across the board, from athletes to activists, the consensus is clear: fairness in women's sports is paramount. Figures like Martina Navratilova and Caitlyn Jenner, from varied walks of life, agree on this. It's not about left or right; it's about right and wrong.

So, as you convene on March 15th at 8:00 am, I urge you to cast a vote that will echo the values of fairness and respect in sports. A vote for HB 183 is a vote for every young girl who dreams of standing on that podium, medal in hand, knowing her victory is truly hers.

Thank you for considering my views. I believe in the wisdom and integrity of this committee to uphold the spirit of competition and the rights of female athletes in our great state.

Warm regards,

Jason

Subject: HB183

To the AK House Education Committee:

Never in all my years would I have thought that it would come to this. Common sense and rational thought seem to be going the way of the past for Americans today. The fact that it is even be considered to allow boys to compete as girls is unbelievable. Not only is it senseless, it is dangerous and unfair.

What some would label as progress or evolutionary is actually quite the opposite. Instead of building up, it is tearing down. Instead of empowering, it is degrading. Instead of encouraging, it is demoralizing. Children crave boundaries in their lives, they just don't know it. We need to lead our children with truth and in reality. Blurring the lines with fictional fantasies has accelerated the degeneration of our society and it is especially impactful on them.

I implore you to vote yes on HB183 and do not allow this ridiculous idea of males competing as females become a reality. If you want to help these confused children, there are better ways to do it. Get them the help they need to answer the deeper issues at heart.

Rep. Jamie Allard's bill, HB183, is needed to preserve the right of future Alaskan girls and women to participate in fair and safe athletic competition . It awards the efforts of female athletes to prepare for events in which their best efforts are not disqualified by those who need to compete with biological males . True athleticism is defined by honesty, integrity and perseverance .

Subject: HB 183

Dear House Education Committee Members,

I would like to state my opposition to HB 183 on the grounds that this bill is discriminatory and violates all students' privacy rights. This bill is one that could stigmatize trans gender students, increase exclusion of trans students from activities, all of which have the potential to make schools unsafe for all students. It is appalling that this bill pertains to all schools, elementary through high school, therefore promoting stigmatization at an early age.

I would assume that all of you who serve on this committee are committed to education for all Alaskan students. As a retired educator, I urge you to focus on securing adequate funding for our schools and finding solutions for teacher retention.
Please vote NO on HB 183.

Thank you for this opportunity to voice my concerns,

Representatives,

I beg you to reconsider your support of HB 183. Forcing children to disclose private medical information to coaches, principals, and other adults that do not participate in their healthcare is a violation of their privacy. All Americans have a right to protect their confidential health information under HIPPA, yet this regulation would take those rights away from vulnerable *children*.

All children, including trans children, deserve privacy and protection. No child should be forced to tell adults their medical history and private information. If passed, HB 183 would open these vulnerable children up to discrimination, bullying, and could irrevocably harm an already marginalized and extremely vulnerable population.

Please, put children first and do not support HB 183. All children are worth protecting.

Subject: HB 183

Thank you for considering HB 183. It is so encouraging that Alaska Legislators recognize the need for sports competitions to be held on the basis of sex at birth, not gender identity. In feats of physical prowess, the biological advantage that male at birth athletes have over female at birth athletes is not negated by choice of gender expression. There may be a multiplicity of genders with fluid movement between them, but there are only two sexes that define body structure and related capabilities.

Please support this bill which assures the opportunity for girls and women athletes to compete in safe and fair environments again. Alaskan women need to know they are valued. Yes to HB183.

Subject: HB 184

Dear Members,

Allowing biological males to compete against biological females ignores the scientific fact that males have an overwhelming physical advantage over women and girls. They have greater bone density, bigger hearts and lungs, are typically larger, and have more muscle strength. This not only makes the competition unfair, but it also makes many sports physically unsafe for women if they are forced to compete against men.

Because of biology, thousands of high school boys can consistently outperform Olympic level women athletes. In fact, in one year 275 high school boys beat the lifetime best record of World Champion Sprinter, Allyson Felix. If the best female athletes in the world can't compete against high school boys, why would we force high school girls to compete against them?

A male's belief about his gender doesn't erase his physical advantages over female athletes. We want everyone to have the opportunity to compete in sports and have access to a fair playing field. Competing in sports teaches valuable life lessons and gives kids and young adults confidence, discipline, and perseverance. It's no surprise that 96% of female CEOs competed in sports.

We need the Even Playing Field Act in Alaska. Not just for young women today, but also for women in generations to come. We

Subject: HB 183

Hi Ms. Hannan & and Ms. Story,

I am reaching out on behalf of HB 183 and asking for your support by voting against this bill. HB 183 would further alienate and discriminate against trans youth. Trans youth face hardships that most people don't realize and understand and they deserve to play sports and participate in school activities just the same as cisgender students. They deserve to have the same experience as their peers. It's extremely important that they have access to healthy outlets and safe/welcoming communities. Data indicates that 82% of transgender individuals have considered killing themselves and 40% have attempted suicide, with suicidality highest among transgender youth.

I have a trans daughter. She deserves to be treated with the same level of respect and dignity as every other child.

Please do not support a bill that would dehumanize children and youth.

Thank you,

Subject: Please OPPOSE HB 183. Everyone deserves a turn to get their trophy!

Dear Alaska House Education Committee,

I am writing to urge you to oppose HB 183.

I am writing to you as a concerned citizen of Alaska to express my strong opposition to HB 183, a bill that significantly exacerbates the detrimental effects of existing regulations that ban transgender girls from participating in sports. This proposed legislation not only infringes on the rights of transgender students but also poses far-reaching consequences for all students and public schools across our state.

HB 183 is a manifestly discriminatory bill aimed at excluding transgender girls from sports, denying them the opportunity to engage fully in school communities. This legislation does not merely extend to high school students but would also prohibit transgender students of all ages from participating in sports, which is both unjust and unnecessary. Such a sweeping ban will inevitably lead to heightened stigmatization and isolation of transgender students, adversely affecting their health, safety, and social and emotional development.

Moreover, HB 183 poses a direct challenge to basic privacy rights, compelling educators and coaches to intrusively police a student's gender identity. This expectation is both legally and ethically unfounded, conflicting with established medical privacy laws, professional standards, and non-discrimination statutes. It is imperative to understand that enforcing such measures will subject our schools to needless litigation, funded by taxpayer dollars, and divert attention from the educational and developmental needs of our students.

It is crucial to acknowledge that transgender students, like all students, deserve equal opportunities to learn and grow through participation in sports and extracurricular activities. These opportunities play a vital role in fostering teamwork, leadership, and a sense of belonging among students. Excluding transgender students from these experiences not only undermines these values but also contravenes the principles of fairness and equality that our educational institutions are built upon.

I urge you to consider the harmful implications of HB 183 on transgender students and the broader school community. As your constituent, I implore you to oppose this bill and to stand up for the rights and dignity of all students in Alaska. Our young people deserve a respectful, safe, and inclusive school environment where they can thrive regardless of their gender identity.

Thank you for your attention to this matter. I look forward to your support in rejecting HB 183 and fostering a more inclusive and equitable society for all.

Sincerely,
Polly-Faye Andrews

To: House Education
Cc: Rep. Zack Fields; Rep. Jamie Allard; Rep. Thomas McKay
Subject: HB 183 Opposition

To the Alaska House Education Committee:

I am writing to express my strong opposition to House Bill 183, introduced by Representative Allard, regarding the designation of separate sex-specific athletic teams and sports in Alaska. As a concerned citizen and advocate for equality and fairness in sports, I believe that this bill poses significant risks to the inclusivity and opportunities for all athletes in our state.

While I understand the importance of maintaining fairness in athletic opportunities, I firmly believe that HB 183 takes the wrong approach by mandating separate sex-specific athletic teams and sports based solely on biological sex at birth. This approach not only ignores the complexities of gender identity but also perpetuates discrimination against transgender and non-binary individuals.

By rigidly defining athletic teams and sports based on biological sex, HB 183 undermines the principles of inclusivity and diversity that are fundamental to the spirit of sportsmanship. It disregards the lived experiences and identities of transgender and non-binary athletes, denying them the opportunity to participate fully in school athletics and further stigmatizing their presence in sports.

Furthermore, HB 183 fails to recognize the evolving landscape of sports and the advancements made in ensuring equitable opportunities for all athletes. Instead of promoting fairness, this bill reinforces harmful stereotypes about gender and athleticism, ultimately limiting the potential for personal growth, skill development, and camaraderie among students.

As a parent in and resident of Alaska, I urge the opposition of HB 183 and instead advocate for policies that prioritize inclusivity, respect, and equal opportunities for all student athletes. I believe that by embracing diversity and fostering an environment of acceptance and support, we can create a more enriching and fulfilling experience for everyone involved in school athletics.

Thank you for considering my perspective on this important issue. I trust that you will act in the best interests of all athletes in Alaska and stand against discriminatory legislation like HB 183.

Sincerely,

Regarding House Bill 183:

I am Eric Muench and a longtime resident of Ketchikan with several grown children and now also grandchildren in the District public school system.

I support House Bill 183 to ensure that girls sports teams are protected from having to compete against transgender women who have the skeletal, muscular and physiological characteristics of men.

I am also a long time supporter of the American Civil Liberties Union and completely agree that LGBTQ people need to be guaranteed the same rights as all other citizens. However on the issue of transgender women competing in womens sports I believe they have it all wrong, because this is a matter of basic fairness in women's sports. Preventing transgenders from competing against biological women is every bit as fair and logical as the prohibition of performance enhancing drugs from sports activities. Please pass HB183. Thank you.

Subject: HB183 is a non-solution seeking a problem

Dear House members:

Your House bill 183 claims this as its purpose "An Act relating to school athletics, recreation, athletic teams, and sports..."

But it's pretty obvious to everyone that this bill isn't really about fairness in athletics; it's another attack on a vulnerable group of people that helps your party gain support from the prejudiced. It's also obvious that these bills are not seeking to solve any problem that has ever happened in the State of Alaska. The genesis of this type of legislation is coming from Outside our state, from right wing groups who hope to create a scapegoat against which all the ills of society can be blamed. Take a look at the damage this type of bill is doing in the state of Utah right now; parents reporting on other parents because their kids lose a race. The athletics board then has to "investigate" that child, probably violating FERPA. Are physical inspections next? So much for sportsmanship!

This bill simply highlights that your party has zero solutions for the actual problems our communities face; you're not creating legislation to educate, feed, house or help people, nor to solve any existing problem. It doesn't even address issues with gender parity in athletics and it offers nothing to actually support athletics. Instead, by generating hate you gain narrow-minded adherents to your party. How shameful!

Please drop this type of Outsider influence and instead, think through the actual issues Alaskans need our government to address, the real problems that need to be solved. Focus only on the tasks necessary for the State government to handle, and drop the divisive and unhelpful nonsense you're being fed from radical right extremists who want only to break down our society. We don't need it in our state.

Sincerely,
Karen Jensen

Subject: Please OPPOSE HB 183. Let all kids play!

Dear Alaska House Education Committee,

I am writing to urge you to oppose HB 183.

HB 183 is a discriminatory bill that would violate students' privacy rights and deny trans students the opportunity to fully participate in their school community. All students deserve to be treated with dignity and respect. To protect students' privacy and push back against discrimination, please oppose this bill and let trans students be part of the team.

Sincerely,
Mimi Schweid

Cc: Rep. Zack Fields
Subject: Testimony re: HB 183

This email is to express my opposition to HB 183, and furthermore, to express strong disapproval that state legislative resources continue to be wasted on frivolous attempts to codify anti-trans hate and discrimination. Leave trans kids alone, stop wasting our time, and get back to work on the issues that really matter for Alaska.

Sincerely,
Alexa Dobson

Subject: Re: Opposition to HB 183

Representatives on the House Education Committee and representative Tilton,

I'm a resident in the Anchorage community, emailing to express my opposition to HB 183.

Please do not pass this invasive and discriminatory legislation.

HB 183 violates the privacy rights of all students at all ages and discriminates against girls specifically.

Trans girls are girls, and all girls should be able to play sports.

Thank you,
Phil block.

To Whom it May Concern,

As a member of the LGBTQIA community in Alaska, I must encourage you to vote down HB 183. The harm that it does to the young people far exceeds any perceived benefit. We want to raise confident, happy, proud Alaskans. We do not need to generate more self-hatred and more self-harm on young people. Imagine, not being a part of the Trans community but looking a little more boyish, and being cornered to prove your gender identity.

It is a gross miscarriage of power, and I encourage you all to show up on the right side of history, the side that is for the well-being of the citizens of this state.

Sincerely and with great urgency,
Dara Rilatos

Subject: OPPOSE HB 183

Dear Alaska House Education Committee,

I am writing to urge you to oppose HB 183.

I'm deeply disturbed by HB 183, as it is a discriminatory bill that would violate students' privacy rights and deny trans students the opportunity to fully participate in their school community. All students deserve to be treated with dignity and respect. This bizarre obsession with children's genitals needs to stop. Students have a right to privacy and push back against discrimination, oppose this bill and let trans students be part of the team.

Sincerely,
Erin Price

Hello,

As an Alaska State resident, I oppose any restriction on the rights of fellow LGBTQ residents. This bill is discriminatory and not aligned with our values of independence and acceptance as a state. Trans kids should have the right to compete in sports that align with their gender. Do not pass this bill.

Subject: Please OPPOSE HB 183. Let all kids play!

Dear Alaska House Education Committee,

I am writing to urge you to oppose HB 183.

I am a teacher and a coach. I coach cross country running and cross country skiing. As a coach, I believe that my job is to create an environment in which each student athlete can thrive. I strive to teach my student athletes persistence, sportsmanship, and the importance of working as a team. HB 183 is a discriminatory bill that would do the opposite of this by forcibly outing students and preventing transgender girls from participating in sports in the way they are comfortable for them.

As a coach, I urge you not to vote against HB 183. Please protect our students' privacy rights. Trans girls belong in sports and are always welcome on my teams.

Sincerely,
Rebecca Siegel

Subject: Oppose HB 183

Hello,

I am writing in strong opposition of HB 183. Trans girls are girls and deserve to play sports on girls teams. Stop dismantling the rights of children to be children. Legislation that directly targets trans kids increases their vulnerability to hate and harm. This bill is also a breach of privacy for children!

Kids in Alaska deserve better, they deserve to know their existence is valued. It is shameful that Alaska's legislation is even considering such a harmful bill!

Gunalchéesh,

To: House Education
Subject: HB 183

HB 183 violates the right to privacy for all students. The right to privacy is enshrined in our state constitution, so this bill will land in court for that reason.

HB 183 also discriminates against trans students. All students should have the opportunity to participate in school activities. That includes trans girls. If we discriminate against them and separate them from their classmates, they may choose not to play sports at all. They would lose the benefits of school sports that you all are well aware of, increasing the risks to these students' mental health and well-being, because the state denies them the valuable experience of playing in school sports.

That discrimination is also against the spirit and law of school sports. Title 9 and other regulations affirm the right of girls to participate in sports. It is illegal, and morally wrong, to discriminate against a group of students.

The House Education committee has a lot to work on this session, especially raising the BSA and creating a better retirement system for educators and other public servants. Don't spend time on this bad bill.
