Dear Co-Chairs Edgmon, Foster, and Johnson,

The purpose of this letter is to provide a response to a question asked during the presentation on House Bill 368 in the House Finance Committee on April 8, 2024. Please see the question in *italics* and our response immediately below.

1. ***Would the proposed tax credit reduce the amount of tax shared with municipalities?***

Yes, the credit would reduce the municipal share, not only for the electric coop tax, but for any other tax against which the credit was claimed. Additionally, making the credit available for any tax type, it could be taken against dedicated and designated tax types. For example, in its current form, the credit could be applied against the cigarette tax, part of which goes to the dedicated school fund.
