Subject: SB 28

Dear Senate Labor and Commerce Committee,

Thank you for your service to Alaskans.

As you know, our state is in a public education crisis and a crisis in staffing public employees. SB 28 will help both of those situations.

SB28 allows for public employees like public safety officers and educators to choose a defined benefit retirement. This will help recruit and retain quality workers around the state. Please vote in favor of this bill.

Thanks for your time,

Cheryl Lovegreen
