FISCAL NOTE ANALYSIS

STATE OF ALASKA
2018 LEGISLATIVE SESSION

BILL NO. SB 86

Analysis

SB86 adjusts land asset management within the Alaska Railroad Corporation (ARRC). The legislation changes approval, delegation, disposal of and accounting for ARRC land to streamline processes and allow ARRC the similar decision making and management capacities as are granted to other state agencies. These changes will allow ARRC to work more efficiently with the Department of Transportation and Public Facilities and other state agencies on land sales or exchanges needed for state road or facility projects, and will allow ARRC to monetize non-performing land assets. The legislation will allow ARRC to better respond to opportunities in the real estate market and more efficiently manage the overall real estate portfolio.

The Alaska Railroad Corporation is exempt from the Executive Budget Act. The Alaska Railroad Corporation does not require additional financial authorization as a result of this legislation.
