**Message Body:**  
Dear Members of the Alaska State Legislature,

I'm writing in support of net neutrality in Alaska. I support HJR 31, HB 277, SJR 12, and SB 160 to enforce net neutrality in Alaska and urge Congress to reverse the Federal Communication Commission (FCC) order eliminating net neutrality protections.

The FCC should not deny U.S. citizens the right to access a free and open internet. Reversing net neutrality is an unfair business practice that allows Internet Service Providers (ISPs) to block websites, slow internet traffic, and engage in paid prioritization. Alaskans' right to free speech, free press, and free association are threatened when large ISPs control what information can be shared over the internet and what websites can be visited.

Alaska Legislators, please support HJR 31, HB 277, SJR 12, and SB 160. Alaska businesses and families should not be denied access to a free and open internet for communication and commerce. Thank you.

Sincerely,  
Seth C. Yerrington  
clarkyerrington@gmail.com  
340 N Flower St., Anchorage, AK 99508

An ISP is most properly classified as a common carrier utility and regulated as such. It's in the significant public interest to restore the conditions in place before the FCC's recent decision to abdicate their regulatory authority and undo Net Neutrality.

Dear Members of the Alaska State Legislature,

I'm writing in support of net neutrality in Alaska. I support HJR 31, HB 277, SJR 12, and SB 160 to enforce net neutrality in Alaska and urge Congress to reverse the Federal Communication Commission (FCC) order eliminating net neutrality protections.

The FCC should not deny U.S. citizens the right to access a free and open internet. Reversing net neutrality is an unfair business practice that allows Internet Service Providers (ISPs) to block websites, slow internet traffic, and engage in paid prioritization. Alaskans' right to free speech, free press, and free association are threatened when large ISPs control what information can be shared over the internet and what websites can be visited.

Alaska Legislators, please support HJR 31, HB 277, SJR 12, and SB 160. Alaska businesses and families should not be denied access to a free and open internet for communication and commerce. Thank you.

Sincerely,  
Kelsey Ebert  
schmelsey1@yahoo.com

In order for Alaskans to be competitive in the global economy we need to have the best internet service possible. Please enforce net neutrality in our state!

Our country was founded on freedom and equality and all her citizens afforded equal liberty and justice. It is what makes America great and why I am so proud to live here. Restricting, limiting or ending net neutrality flies in the face of these concepts. We do not need to make America great again she is great but we do need to make sure that she maintains the course that made it so. Her citizens are her greatest treasure and her greatest defenders. We must maintain net neutrality for ourselves and for future generations. Thank you Senators Kawasaki and Begich for your hard work and efforts on maintaining net neutrality

I support access to the Internet as a right that should be afforded to all American citizens. I do not believe that corporations should control who has access to the Internet, because this will exacerbate existing inequalities. Thank you for proposing this bill, I support it wholeheartedly and will be paying close attention to who votes for and against it!
